

Ifsta 5th Edition Ebook

A Complete Training Solution for Hazardous Materials Technicians and Incident Commanders! In 1982, the authors Mike Hildebrand and Greg Noll, along with Jimmy Yvorra, first introduced the concept of the Eight-Step Process© for managing hazardous materials incidents when their highly regarded manual, Hazardous Materials: Managing the Incident was published. Now in its Fourth Edition, this text is widely used by fire fighters, hazmat teams, bomb squads, industrial emergency response teams, and other emergency responders who may manage unplanned hazardous materials incidents. As a result of changing government regulations and consensus standards, as well as the need for terrorism response training, Mr. Noll and Mr. Hildebrand have modified and refined their process of managing hazmat incidents and added enhanced content, tips, case studies, and detailed charts and tables. The Fourth Edition contains comprehensive content covering:

- Hazard assessment and risk evaluation
- Identifying the problem and implementing the response plan
- Hazardous materials properties and effects
- Identifying and coordinating resources
- Decontamination procedures
- The Eight-Step Process©
- Personal protective equipment selection
- Procedures for terminating the incident

The Fourth Edition's dynamic features include:

- Knowledge and Skills Objectives correlated to the 2013 Edition of NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents
-

ProBoard Assessment Methodology Matrices for the Hazardous Materials Technician and Hazardous Materials Incident Commander levels • Correlation matrix to the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) Bachelor's (Non- Core) Managerial Issues in Hazardous Materials Course Objectives • Realistic, detailed case studies • Practical, step-by-step skill drills • Important hazardous materials technician and safety tips

The third edition of Fire Department Incident Safety Officer has been thoroughly updated to cover the latest trends, information, and best-practices needed by current and aspiring Incident Safety Officers (ISO's). Developed in partnership with the Fire Department Safety Officer's Association and based on the 2015 Edition of NFPA 1521, Standard for Fire Department Safety Officer Professional Qualifications, this authoritative resource focuses uniquely on the roles, responsibilities, and duties for fire service officers assigned to the incident command staff position of safety officer. From smoke reading to alternative energy sources to green construction buildings, Fire Department Incident Safety Officer, Third Edition is loaded with up-to-date information needed to keep fire department members safe, including: A new chapter dedicated to the Incident Safety Officer at Training Drills and Special Events Entire chapters devoted to important topics like reading smoke, reading buildings, Modern firefighting is a continually evolving science with new technologies constantly being applied to the fire service. In the latest edition of this perennial favorite,

Norman examines these new technologies and how they affect fire ground tactics. He also details the new role firefighters play in homeland security.

Brannigan's Building Construction for the Fire Service, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of Building Construction for the Fire Service was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition. To listen now, visit: http://d2jw81rkebrcvk.cloudfront.net/assets/multimedia/audio/Building_Construction.mp3.

The sixth edition of Introduction to Fire Protection and Emergency Services meets and exceeds the National

Fire Academy's Fire and Emergency Services Higher Education (FESHE) course objectives and outcomes for the Associate's (Core) course called Principles of Emergency Services (C0273). The Sixth Edition delivers future fire service candidates a head start in the competitive selection process by familiarizing students with the selection and training process. In addition, the Sixth Edition provides a comprehensive and concise overview of the broad spectrum of the fire service, from the primary duties of the modern fire department, to emergency incident management, to fire prevention, to department administration. The Sixth Edition reinforces foundational knowledge, including the history and future of the fire service; the chemistry and physics of fire; issues facing the fire and rescue service in the United States; and careers in the fire and emergency services. The entire range of services of the modern fire service is explored, including emergency medical services, hazardous materials response, wildland fires, swiftwater rescue, and urban search and rescue. The Sixth Edition includes: An emphasis on safety and professionalism, which is reinforced through discussions of incident effectiveness, fire fighter ethics, customer service, physical fitness, training, decision making, fire prevention, and behavioral health Organizations that support the fire service are highlighted, including: Firefighter Behavioral Health Alliance. Firefighter Cancer Support Network. Leary Firefighter Foundation Discussions on Post-Traumatic Stress Disorder (PTSD) and Repeated Exposure to Trauma (RET) and their effects on fire fighters An expanded discussion of the

possible future effects of climate change and the effect on the fire and rescue service

- More than 5700 Practice Qs with Explanations
- 700 Most Recent Pattern/ New Qs added (New Feature)
- Most Important Topics for Last Minute Revision
- Fully Colored Layout with Special Features (Also Know, Must Know)
- 200+Image-based questions with their Explanations
- Latest Updates from Standard Textbooks
- 4000 Additional Practice Qs in App (New Feature)

This new revised edition of the 2002 best-selling text and training book, covers all the nuts and bolts of organizing and deploying resources, including organizational structure, fire station location planning, fiscal management, maintenance and replacement of vehicles and equipment, and personnel practices. The coverage of human resource management includes recruitment and selection, promotion, diversity, labor relations, and the impact of external mandates. The section on leadership explores best management practices, employee empowerment, and implementing change. Coverage also includes: fire prevention and life safety education, technology and information management, terrorism and disaster preparedness, intergovernmental cooperation, risk management, legal, liability, and regulatory issues, plus health and wellness. (Replace ISBN 978-0-87326-128-9)

Emergency Medical Responder: A Skills Approach is the essential guide for students preparing to enter the paramedic profession. Thoroughly Canadian, it incorporates case studies drawn from the authors' experience, as well as perspectives, legislation, and

procedures that are particular to Canada. A variety of enrichment materials are included throughout the book, as is coverage on working with other members of the health care team and the importance of written reports and accurate documentation. KEY TOPICS: Introduction to the Emergency Medical Services System;The Well-Being of the Emergency Medical Responder;Legal and Ethical Issues;The Human Body;Pharmaceuticals;Lifting and Moving Patients;The Airway and Ventilation;Circulation;Automated External Defibrillation;Scene Assessment;Patient Assessment;Communication and Documentation;Cardiac and Respiratory Emergencies;Other Common Medical Complaints;Geriatric Considerations;Heat and Cold Emergencies;Bites and Stings;Psychological Emergencies and Crisis Intervention;Bleeding and Shock;Soft-Tissue Injuries;Injuries to the Chest, Abdomen, and Genitalia;Burn Emergencies;Agricultural and Industrial Emergencies;Injuries to the Head, Face, and Neck;Injuries to the Spine;Musculoskeletal Injuries;Childbirth;Infants and Children;EMS Operations;Hazardous Materials Incidents and Emergencies;Multiple-Casualty Incidents and Incident Command; Water Emergencies;Vehicle Stabilization and Patient Extrication;Special Rescue Situations MARKET: Appropriate for Emergency Medical Responder Courses. This new IFSTA manual details the training required of Company Officers according to NFPA® 1021, Standard for Fire Officer Professional Qualifications, 2014 Edition. The manual is divided into two sections to make a clear

distinction between the information needed for Fire Officer Level I and Fire Officer Level II. Both print and eBook formats are available. There is no shortage of issues that a company officer might face in the everyday operation of a fire company or unit. This manual addresses the wide range of topics and issues encountered by a company officer, from leadership and supervision to health and safety issues. Great attention was given to focus on the job performance requirements of NFPA® 1021. The fifth edition of Fire and Emergency Services Company Officer builds on the previous edition of the manual while presenting the material in a more concise manner to make it easier for students to read and instructors to teach. By merging related topics, the number of chapters was reduced from 32 in the fourth edition to 17 in the new manual while preserving the material related to the NFPA® standard. The number of appendices was reduced from 20 to 4 by removing information that can be found in other media. Along with reducing the volume of material from the fourth edition, the fifth edition of Fire and Emergency Services Company Officer offers several new features. The manual features a new look with IFSTA's single-column format and upgraded and updated curriculum components. Learning activities are included to help instructors present the material to their students. Case Histories open each chapter to illustrate important lessons learned in the real world. Photographs, illustrations, and tables are included throughout the manual to illustrate key points and improve the overall instructional value of the material.

The Second Edition of this introduction to fire protection systems is completely revised and updated to offer the student, architect or engineer the basics of fire protection devices and equipment, and how they may be applied to any given project. *Fire Protection: Detection, Notification, and Suppression* reveals the “nuts and bolts” of fire protection system selection, design and equipment in an applied approach. Whether a mechanical engineer, safety engineer, architect, estimator, fire service personnel, or student studying in these areas, the authors show the pros and the cons of protection systems being proposed, and how they should be compared to one another. It also gives non-fire engineering practitioners a sense of proportion when they are put in a position to select a consultant, and to give a sense of what the consultant may be doing and how a system is being matched to the hazard. Beginning fire protection engineers could also use its language for writing a report about these systems for a client.

The Complete Fire Inspector I and II Training Solution! Fire inspectors need to know how to interpret and apply national and local codes and standards in the office and in the field. *Fire Inspector: Principles and Practice* is designed to prepare fire inspectors to ensure the highest standards of fire and life safety in their communities. The National Fire Protection Association (NFPA) and the International Association of Fire Chiefs (IAFC) are pleased to bring you *Fire Inspector: Principles and Practice*, a modern integrated teaching and learning system for the fire inspector. This textbook meets and exceeds the job performance requirements for level I and

II fire inspectors from Chapters 4 and 5 of NFPA 1031, Standard for Professional Qualifications for Fire Inspector and Plan Examiner, 2009 Edition. Fire Inspector: Principles and Practice is built on a solid foundation of the basics: building construction, fire growth, and types of occupancies. This fundamental knowledge is presented in a concise, understandable writing style that is easy to digest and recall. The solid foundation of fire and building knowledge then branches out to show the fire inspector how abstract concepts and codes will be concretely applied on a daily basis. This is the text that truly prepares fire inspectors for the real world.

This manual provides basic information needed by firefighters to effectively perform the various tasks involved in aircraft rescue and fire fighting. Also addresses the requirements.

Designed for use within courses based on the Fire and Emergency Services Higher Education (FESHE) Occupational Safety and Health for Emergency Services model curriculum, Occupational Safety and Health in the Emergency Services, Fifth Edition provides a comprehensive overview of the many components of occupational safety and health for the emergency services.

The 1st edition of Structural Fire Fighting: Initial Strategy and Tactics is intended to provide fire personnel with the knowledge needed to deploy resources in the first 10 minutes of any structural fire incident. The manual is designed to help the reader develop a logical decision-making process for determining incident priorities,

strategies, and tactics regardless of the available resources or configuration of the emergency services organization. Scenarios for residential, commercial, and special hazard incidents are included with recommended best practices and considerations. Training officers can use these scenarios, modified to local resources and realities, to develop classroom discussions or field simulations. This manual is a companion to Structural Fire Fighting: Truck Company Skills and Tactics, 2nd edition and the soon to be released Structural Fire Fighting: High Rise Fire Fighting. Each chapter of the manual contains learning objectives, key terms, and review questions to assist the reader in understanding the material.

Author and award-winning scholar-professor Fred Kleiner continues to set the standard for art history textbooks, combining impeccable and authoritative scholarship with an engaging approach that discusses the most significant artworks and monuments in their full historical and cultural contexts. The most widely read and respected history of art and architecture in the English language for over 85 years, the 15th edition of GARDNER'S ART THROUGH THE AGES: A GLOBAL HISTORY, VOLUME I includes nearly 200 new images, new pedagogical box features, images that have been upgraded for clarity and color-fidelity, revised and improved maps and architectural reconstructions, and more. More than 40 reviewers -- both generalists and specialists -- contributed to

the accuracy and readability of this edition.

GARDNER's has built its stellar reputation on up-to-date and extensive scholarship, reproductions of unsurpassed quality, the consistent voice of a single storyteller, and more online resources and help for students and instructors than any other art survey text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Sharpen Your Leadership Skills And Improve Departmental Performance! This Revised Edition Of Management In The Fire Service Is The Best Source For Proven Strategies On Handling The Managerial Challenges Unique To Your Field. You'll Find The Latest On Vital Topics Such As Pre-Fire Planning, Incident Command, Public Fire And Life Safety Education, Management Of Financial Resources, And Training. New Chapters On Fire Prevention, Code Enforcement, And Labor Relations In The Fire Service Are Also Included. Boost Your Effectiveness In Motivating, Supervising, And Evaluating Personnel, And Apply Management Theory Principles To Actual Service Situations. From Chief And Company Officers To Fiscal, Personnel, And Administrative Managers, If You're In A Management Position, This Book Will Boost Your Performance! The National Fire Protection Association (NFPA) And The International Association Of Fire Chiefs (IAFC) Are Pleased To Bring You The Second

Edition Of Fire Officer: Principles And Practice, A Modern Integrated Teaching And Learning System For The Fire Officer I And II Levels. Fire Officers Need To Know How To Make The Transition From Fire Fighter To Leader. Fire Officer: Principles And Practice, Second Edition Is Designed To Help Fire Fighters Make A Smooth Transition To Fire Officer. Covering The Entire Scope Of NFPA 1021, Standard For Fire Officer Professional Qualifications, 2009 Edition, Fire Officer Combines Current Content With Dynamic Features And Interactive Technology To Better Support Instructors And Help Prepare Future Fire Officers For Any Situation That May Arise. Safety Is Principle! The Second Edition Features A Laser-Like Focus On Fire Fighter Safety. Reducing Fire Fighter Injuries And Deaths Requires The Dedicated Efforts Of Every Fire Fighter, Fire Officer, Fire Department, And The Entire Fire Community Working Together. It Is With This Goal In Mind That We Have Integrated The 16 Firefighter Life Safety Initiatives Developed By The National Fallen Firefighters Foundation Into The Text. Likewise, In Each Of The Chapters, Actual National Fire Fighter Near-Miss Reporting System Cases Are Discussed To Drive Home Safety And The Lessons Learned From Those Incidents. Some Of The Guiding Principles Added To The New Edition Include:

- Description Of The “Everybody Goes Home” And The National Fire Fighter Near-Miss Reporting

System, Including Over A Dozen Company Officer Near-Miss Examples Throughout The Text.

- Description Of The IAFC/IAFF Firefighter Safety And Deployment Study.
- The Latest Fire Fighter Death And Injury Issues As Reported By The NFPA? National Fallen Firefighters Foundation, IAFC, And IAFF, Including Results Of A Thirty-Year Retrospective Study.
- Changes In Fire-Ground Accountability And Rapid Intervention Practices.
- Results Of National Institute Of Standards And Technology Research On Wind-Driven Fires, Thermal Imaging Cameras, And Fire Dynamics As Related To Fire Fighter Survival.
- The Latest Developments In Crew Resource Management. The Second Edition Also Reflects The Latest Developments In:
- Building A Personal Development Plan Through Education, Training, Self-Development, And Experience, Including A Description Of The Fire And Emergency Services Higher Education (FESHE) Program.
- The Impact Of Blogs, Video Sharing, And Social Networks.
- How To Budget For A Grant.
- Changes In The National Response Framework And National Incident Management System. Additional Items Related To Fire Fighter Safety And Health Are Included.

Prepares you for the Fire Inspector I & II certification, promotion, or training examination. Your exam performance will improve after using this system! This resource is designed to encourage critical

thinking and aid comprehension of the course material through: Case studies and corresponding questions Figure labeling exercises Matching, fill-in-the-blank, short answer, and multiple-choice questions

Comprehensive and up-to-date- the classic visual guide to the basics of building construction For twenty-five years, *Building Construction Illustrated* has offered an outstanding introduction to the principles of building construction. Now this Third Edition has been expertly revised and updated to address the latest advances in materials, building technology, and code requirements. Complete with more than 1,000 illustrations, the book moves through each of the key stages of the design process, from site selection to building components, mechanical systems, and finishes. Topics within each chapter are organized according to the CSI MasterFormat(TM), making the book extremely easy to use. Special features of this edition include integrated coverage of environmentally friendly materials, sustainable building construction strategies, and ADA requirements, as well as the inclusion of both metric and standard U.S. measurements throughout the book. With its clear presentation of the basic concepts underlying building construction, *Building Construction Illustrated, Third Edition* equips students and professionals in all areas of architecture and

construction with useful guidelines for approaching virtually any new materials or techniques they may encounter in building planning, design, and construction.

The third edition of Fire and Life Safety Educator provides the educator with knowledge to support successful performance as a fire and life safety educator as addressed in NFPA 1035, Standard for Professional Qualifications for Fire and Life Safety Educator, Public Information Officer, and Juvenile Firesetter Intervention Specialist. In addition, the manual meets the learning outcomes of the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) non-core course Fire and Life Safety Educator. New to the Fire and Life Safety Educator manual is the addition of two levels: Juvenile Firesetter Intervention Specialist I and Juvenile Firesetter Intervention Specialist II. All levels are covered separately for ease of use. In all, the third edition covers five levels of the standard: *

- * Fire and Life Safety Educator Level I: Chapters 2-6 *
- * Fire and Life Safety Educator Level II: Chapter 7-11
- * Fire and Life Safety Educator Level III: Chapters 12-16 *
- * Juvenile Firesetter Intervention Specialist I: Chapters 17-20 *
- * Juvenile Firesetter Intervention Specialist II: Chapters 21-25

This manual should be the first document on a public educator's bookshelf and a "ready reference" of public education knowledge. The manual is intended to educate the

educator rather than to train the educator. In this way, the educator will be able to apply knowledge and skills to many different areas under the "umbrella" of injury prevention and control. The manual focuses on all-risk education. This manual is intended to assist in preparing for certification to the Fire and Life Safety Educator I, II, and III and Juvenile Firesetter Intervention Specialist I and II levels of NFPA 1035 Standard for Professional Qualifications for Fire and Life Safety Educator, 2010 edition.

Project Management in Practice, 4th Edition focuses on the technical aspects of project management that are directly related to practice.

Includes bibliographical references (pages 298-305) and index.

This text deals with the basics of wildland and forest firefighting. It has been totally revised and is now in full color. The Complete Fire Officer III and IV Training Solution! Chief officers need to know how to make the transition from company officer to chief officer. Chief Officer: Principles and Practice is designed to help make the transition from company officer to chief officer a smooth evolution. Covering the entire scope of Levels III and IV from the 2009 Edition of NFPA 1021, Standard for Fire Officer Professional Qualifications, Chief Officer combines current content with dynamic features and interactive technology to better support instructors and to help prepare future chief officers to become problem-solving leaders for their organizations. Chief Officer: Principles and Practice has a clear focus on instilling fire fighter safety throughout an organization's culture. Reducing fire fighter injuries and deaths requires the dedicated efforts

of every fire fighter, fire officer, and fire department. The entire fire community must work together to achieve one common goal: to ensure that everyone goes home. Chief officers therefore set the tone for safety in their organization, and this textbook embraces that philosophy. It is with this goal in mind that the 16 Firefighter Life Safety Initiatives, developed by the National Fallen Firefighters Foundation, are integrated throughout the text. The features in this textbook will help students take that extra step toward becoming outstanding chief officers. These features include:

- Scenario-Based Learning. You Are the Chief Officer and Chief Officer in Action are found in each chapter to encourage and foster critical thinking skills.
- Practical Tips for the Chief Officer. Chief Officer Tips and Voices of Experience essays are integrated into each chapter to provide helpful advice from experienced chief officers.
- Level IV Job Performance Requirements. Fire Officer Level IV content is highlighted to discern Level III JPRs from Level IV.
- Walk the Talk. Additional activities encourage students to take what they have learned in the chapter and apply it to their own department.

"The 6th edition is completely revised for today's firefighters and begins the next 35 years of excellence for the manual and for the firefighters who use it. The 6th edition contains all the information and skills needed to meet the requirements for NFPA® 1001: Standard for Fire Fighter Professional Qualifications, 2013 Edition. This manual includes: all new learning objectives, key terms noted in boxes in the margins of each chapter, case histories, and all new review questions in each chapter designed to enhance a student's understanding. The content is presented in a single column format proven most effective for reading comprehension for adult learners. Warnings, Cautions, and Safety Alerts emphasize safety at all times for new firefighters mastering

basic skills. Skill sheets show safe methods for performing each firefighter skill. Each chapter clearly delineates Fire Fighter I knowledge and skills from Fire Fighter II addressing each in separate sections of the chapters. Photographs are enhanced with graphics, all illustrations are new and improved there are additional tables to make content more relevant for visual learners. Appendix A is a correlation matrix for all NFPA® 1001 JPRs referenced to page numbers for each knowledge and skill requirement."

Make sure that you have the training and certification needed to provide the best risk reduction to your community.

Reducing community risk requires trained individuals to verify that a locality adheres to locally adopted fire and life-safety standards for structural safety components in construction and renovations. Fire Inspection and Code Enforcement, 8th Edition, provides fire and emergency services personnel and civilian inspectors with the basic information necessary to meet the job performance requirements (JPRs) of NFPA® 1031 for Level I and Level II Fire Inspectors. Chapters are delineated with two clearly marked sections: the first section for Level I information followed by a second section for Level II information. Arabic edition of Arabic edition of Fire Inspection and code Enforcement Handbook, 8th Edition now available. Visit <http://www.afssac.edu.sa/arhome/FICE-8-AR> for ordering instructions.

In its fifth Canadian edition, *Interplay: The Process of Interpersonal Communication* offers an immersive approach to the study of communication that foregrounds usefulness, readability, and student engagement. With up-to-date scholarship, case studies, and real-world examples, *Interplay* emphasizes the shifting dimensions of interaction made possible by social media and changing communication norms. *Interplay* is attentive to the ways in which communication practices shape and are shaped by culture,

gender, and context; with extensive pedagogy integrated into its chapters, the book encourages readers to apply its insights to their own lives and relationships both within and beyond the classroom.

"This text meets the course outcomes of the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) associate level strategy and tactics course. It provides an overview of common firefighting concepts from fire dynamics to extinguishing agents, to incident management, to fire fighter safety, to building construction, to preincident planning to post incident analysis"--Back cover.

This textbook was developed as a joint project between the National Fallen Firefighters Foundation (NFFF) and Fire Protection Publications. It provides a detailed overview and implementation strategies for the 16 Fire Fighter Life Safety Initiatives that were developed by the NFFF at their landmark summit in 2004. Each of the chapters was written by a different highly-respected fire service subject matter expert on that topic. This text provides the information necessary to meet the FESHE courses Principles of Fire and Emergency Services Safety and Survival (associate degree level) and Advanced Principles in Fire and Emergency Services Safety and Survival (bachelor degree level).

John Norman has updated his best-selling book, a guide for the firefighter and fire officer who, having learned the basic mechanics of the trade, are looking for specific methods for handling specific situations. In this new fourth edition, readers will find a new chapter on lightweight construction, a new chapter on electrical fires

and emergencies, updates to many chapters including such topics as wind-driven fires, and many new illustrations.

Fire Investigator: Principles and Practice updates the resource previously known as User's Manual for NFPA 921, 2004 Edition. Through a clear, concise presentation, Fire Investigator assists fire investigators in conducting complex fire investigations. Written by talented professional fire investigators from the International Association of Arson Investigators (IAAI), this text covers the entire span of the 2008 Edition of NFPA 921, Guide for Fire and Explosion Investigations and addresses all of the job performance requirements in the 2009 Edition of NFPA 1033, Standard for Professional Qualifications for Fire Investigator. This text is the benchmark for conducting safe and systematic investigations. Key features include: new chapter on Marine Fire Investigations; coverage of the 2009 Edition of NFPA 1033; supported by a complete teaching and learning system. Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition.

This version includes all 21 chapters of Essentials of Fire Fighting, 6th Edition and adds three chapters written and validated to meet the emergency medical and hazardous materials requirements of NFPA® 1001, 2013 Edition. Chapter 22 specifically addresses the Firefighter I and Firefighter II knowledge and skills requirements for the emergency medical care competencies identified in NFPA® 1001, 2013 Edition Chapter 4. Chapters 23 and 24 meet the First Responder Awareness and Operations

Levels for Responders according to NFPA® 472: Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, 2012 Edition and OSHA 1910.120. The chapters also provide validated content to meet Section 6.6, Mission-Specific Competencies: Product Control, of NFPA® 472. The hazardous materials information is adapted from the IFSTA Hazardous Materials for First Responders, 4th Edition.
