

Igcse Past Papers Chemistry Multiple Choice

A series of workbooks offering integrated content and language support for specific subjects.

Breakthrough to CLIL for Chemistry, Age 14+ helps ESL/EAL students get the most out of their studies when learning subjects through the medium of English. The workbook contains exercises set within the context of core topics to consolidate understanding, embedding practice in aspects of language central to the subject in question. It is designed to support any Chemistry curriculum for students aged 14-16, including UK GCSE, Cambridge IGCSE® and IB MYP. The book should be used alongside a core textbook and may be used within the classroom or as a self-study or homework resource.

Cambridge IGCSE Computer Science Revision Guide follows the Cambridge IGCSE (0478) and Cambridge O Level (2210) Computer Science syllabuses, matching the syllabus for examination from 2015. The book instils confidence and thorough understanding of the topics learned by the students as they revise for examinations, and is written in a clear and straightforward tone to assist learning concepts and theories. This revision guide is endorsed by Cambridge International Examinations.

This revised set of resources for Cambridge IGCSE, IGCSE (9-1) and O Level Business Studies syllabuses (0450, 0986, 7115) is thoroughly updated for first examinations from 2020. This coursebook contains exam-style case studies and stimulus material from businesses around the world - ranging from a social enterprise in China to a fast food outlet in Zimbabwe. These give an international view of the real world applications of Business Studies theory. This book provides comprehensive exam support with questions to help students practise and build their confidence with the subject. The final chapter gives revision tips and advice on writing well-structured answers. The answers to the coursebook questions are in the teacher's resource. For free revision support, go to the Cambridge University Press website.

Cambridge O Level Principles of Accounts has been designed specifically to meet the requirements of the Cambridge syllabus. Cambridge O Level Principles of Accounts has been written specifically for the Cambridge O Level Accounting syllabus. Accounting principles and practices have been explained in simple language to enhance the accessibility of the contents to students whose first language is not English. The book reflects the changes in the O Level Principles of Accounts syllabus and applies international accounting terminology.

Written by curriculum and specification experts, this

The Cambridge IGCSE Physics Coursebook has been written and developed to provide full support for the University of Cambridge International Examinations (CIE) IGCSE Physics syllabus (0625). The book is in full colour and includes a free CD-ROM. Topics are introduced in terms of their relevance to life in the 21st century. The CD-ROM offers a full range of supporting activities for independent learning, with exemplar examination questions and worked answers with commentary. Activity sheets and accompanying notes are also included on the CD-ROM. Written and developed to provide full support for the Cambridge IGCSE Physics syllabus offered by CIE.

Ernesto Macaro brings together a wealth of research on the rapidly expanding phenomenon of English Medium Instruction. Against a backdrop of theory, policy documents, and examples of practice, he weaves together research in both secondary and tertiary education, with a particular focus on the key stakeholders involved in EMI: the teachers and the students. Whilst acknowledging that the momentum of EMI is unlikely to be diminished, and identifying its potential benefits, the author raises questions about the ways it has been introduced and developed, and explores how we can arrive at a true cost–benefit analysis of its future impact. “This state-of-the-art monograph presents a wide-ranging, multi-
