"You're in luck, Alfred," he declared. "That's the most interesting man in New York—one of the most interesting in the world. That's Sanford Quest." "Who's he?" "You haven't heard of Sanford Quest?" "Never in my life." The young man whose privilege it was to have been born and lived all his days in New York, drank half a glassful of wine and leaned back in his chair. Words, for a few moments, were an impossibility. "Sanford Quest," he pronounced at last, "is the greatest master in criminology the world has ever known. He is a magician, a scientist, the Pierpont Morgan of his profession." "Say, do you mean that he is a detective?" The New Yorker steadied himself with an effort. Such ignorance was hard to realise—harder still to deal with. "Yes," he said simply, "you could call him that—just in the same way you could call Napoleon a soldier or Lincoln a statesman..."

"From selecting the appropriate tools, such as pens, nibs, brushes, inks, and papers, to learning optimal hand positioning and understanding the intricacies of lettering angles, heights, spacing, and strokes, [this book] introduces aspiring calligraphers and hand-lettering artists to the core concepts and techniques that comprise the art of traditional calligraphy."--Back cover.

This collection of essays, which rediscovers Edgar Allan Poe's not forgotten lore, comprises a two-headed scholarly body, drawing from communication and linguistics and literature, although it also includes many other academic offshoots which explore Poe's labyrinthine and variegated imagination. The papers are classified according to two main domains, namely: (I) Edgar Allan Poe in Language, Literature and Translation Studies, and (II) Edgar Allan Poe in Communication and the Arts. In short, this book combines rigour and modernity and pays homage, with a fresh outlook, to Poe's extra-ordinary originality and brilliant weirdness which prompted renowned authors like James Russell Lowell and Howard P. Lovecraft to claim, respectively, that "Mr. Poe has that indescribable something which men have agreed to call genius" and that "Poe's tales possess an almost absolute perfection of artistic form which makes them veritable beacon lights in the province of the short story. Poe's weird tales are alive in a manner that few others can ever hope to be."

Few genres were as popular and as enduring in twentieth-century Mexico as the Western. Christopher Conway's lavishly illustrated *Heroes of the Borderlands* tells the surprising story of the Mexican Western for the first time, exploring how Mexican authors and artists reimagined US film and comic book Westerns to address Mexican politics and culture. Broad in scope, accessible in style, and multidisciplinary in approach, this study examines a variety of Western films and comics, defines their political messaging, and shows how popular Mexican music reinforced their themes. Conway shows how the Mexican Western responds to historical and cultural topics like the trauma of the Conquest, mestizaje, misogyny, the Cult of Santa Muerte, and anti-Americanism. Full of memorable movie stills, posters, lobby cards, comic book covers, and period advertising, *Heroes of the Borderlands* redefines our understanding of Mexican popular

culture by uncovering a vibrant genre that has been hiding in plain sight.

Inscriptions, medals, and travelers' accounts, on more learned humanist and antiquarian writings, and, most importantly, on the art of the period, Brown explores Venice's evolving sense of the past. She begins with the late middle ages, when Venice sought to invent a dignified civic past by means of object, image, and text. Moving on to the fourteenth and fifteenth centuries, she discusses the collecting and recording of antiquities and the incorporation of Roman forms.

"La continuità del mio lavoro sul denim, ha reso la mia ricerca simile ad un racconto esistenziale teso più che a uno stile, a un metodo: un dialogo che pone l'immagine in un cromatismo strutturato in maniera dinamica, finalizzato ad una composizione fatta di armonia". (Costantino Baldino) L'opera pittorica di Costantino Baldino percorre negli anni fasi alterne spinte dai naturali flussi e riflussi del gioco dell'arte. Da un esordio evidentemente ispirato dalla produzione della scuola romana (è allievo di Giuseppe Capogrossi e anche di Luigi Montanarini), rinuncia all'inizio dei '70 all'espressione figurativa e si fa conoscere come astrattista geometrico. Nel suo lavoro, scrive Enrico Crispolti, si individua "la natura orfica dell'astrattismo romano", nell'ambito di una nuova tendenza che si pone in alternativa all'esperienza concettuale. Questo periodo felice trova la sua consacrazione nell'invito alla Quadriennale del '75, momento che segna anche la svolta verso il recupero della matericità, declinata in chiave geometrica. L'ispirazione pop e informale si intercetta in questi innovativi lavori, attraverso inserti materici su tela del tessuto "jeans", simbolicamente marchio distintivo per diverse generazioni. Proprio questa scelta diventerà la cifra stilistica dell'artista, con l'unica parentesi che negli anni '80 vede il recupero della figurazione, in chiave citazionista, ma che dagli anni '90 riprende per non abbandonare più.
