Modern web-based applications are pertinent for businesses, as they often encourage their core competencies and capabilities. As such, the agribusiness sector must begin to take advantage of the open networks and advances in communication and information technologies in order to grow their businesses exponentially. Driving Agribusiness With Technology Innovations highlights innovative business models and theories that encourage the use of emerging technological advances to produce thriving enterprises. Featuring extensive coverage on relevant topics including digital environments, mobile agriculture, supply chain platforms, and internet marketing models, this publication is an important reference source for business managers, practitioners, professionals, and engineers who are interested in discovering emerging technology trends for agribusiness.

Curata dall'Osservatorio sul Mercato dei Prodotti Zootecnici, in collaborazione con l'Associazione Italiana Allevatori, questa tredicesima edizione del Rapporto si propone come strumento di conoscenza del comparto della carne bovina a supporto di coloro c

The European Union has launched an important debate on the future of the EU budget from 2013. This discussion is to cover all aspects of EU revenue and expenditure, including that on the Common Agricultural Policy (CAP). The CAP has been radically transformed in recent years, but the issue of its reform, including its goals, its effectiveness in reaching them and the question of division of responsibility and financing between the EU and member states, is once again at the centre of attention. This collection features well-known experts in the field and aims to contribute to the debate on the present state and future prospects of the CAP and other EU policies. The topics covered range from the EU budget to food safety, rural development, sustainable food consumption, and the influence of international trade negotiations. Many of the ideas presented here are original and controversial and intended to fuel the debate on this important topic. For instance, there are various proposals for the EU budget, the division of responsibilities between the EU and its member states, and the shape of the CAP post-2013.
