This volume, entitled "Italy's Apulian Migrants in Australia: a Historical Resource" commemorates those people who moved from every part of Apulia (from the lower Salento, to the land of Bari, to the Gargano) to reach a new bright future in the big and faraway Australia. The volume explains why they were forced to leave their homeland, and why they chose to live in Australia; the story of their long journey from Europe to the southern hemisphere finds place in these pages. In doing this, the authors have tried to delineate in a vivid picture the specificity of Apulian migratory experience. Il presente volume "Gli Emigranti Pugliesi in Australia: Risorsa Storica" ricorda chi dei nostri correghionali dal Basso Salento, al Gargano, passando per la Terra di Bari, ha lasciato il paese di nascita alla volta di un futuro nella grande e lontana Australia. Il volume chiarisce il perchè questi pugliesi hanno lasciato la Puglia e cosa li ha spinti a scegliere l'Australia. Viene raccontata la storia del lungo viaggio in nave dall'Europa verso l'emisfero Australe. Tutto ciò cercando di catturare in un'immagine la peculiarità dell'esperienza migratoria pugliese.

Part thriller, part love story, *Mazes and Monsters* is a spellbinding novel about a group of college students in the 1980s who use a fantasy game as refuge from their personal, emotional, and social problems. Based loosely on the "steam tunnel incidents" of the 1970s, the four friends—Kate, Jay Jay, Daniel, and Robbie—eventually take their game too far when they decide to live-action role-play in the caverns near their college campus. What follows is terrifying and unexpected, as each character dives deep into the darkest part of their mind, those forbidden places where our most menacing truths lie.

Amidst the chaos of World War II... In a land of brutality and bloodshed... One death can still change everything. Assigned to the case is military intelligence officer Captain Gregor Reinhardt. Already haunted by his wartime actions and the mistakes he's made off the battlefield, he soon finds that his investigation may be more than just a murder—and that the late Yugoslavian heroine may have been much more brilliant—and treacherous—than anyone knew. Maneuvering his way through a minefield of political, military, and personal agendas and vendettas, Reinhardt knows that someone is leaving a trail of dead bodies to cover their tracks. But those bloody tracks may lead Reinhardt to a secret hidden within the ranks of the powerful that they will do anything to keep. And his search for the truth may kill him before he ever finds it.

Una trentina d'anni fa negli Stati Uniti si scopriva che spingendo una DeLorean a 88 miglia orarie, senza dimenticare di azionare il flusso canalizzatore, si poteva coronare un vecchio sogno dell'uomo mai tramontato, quello del viaggio nel tempo. Il 3 luglio 1985 era infatti arrivato nelle sale americane il primo capitolo della saga *Back to the Future*, una delle trilogie cinematografiche più amate degli ultimi anni. A sottolineare il peso che ha avuto la saga di Zemeckis nella vita americana basterebbe riprendere il "Discorso sullo stato dell'Unione" del 1986, una delle tappe fondamentali della vita politica statunitense. Quando l'allora presidente degli Stati Uniti, l'ex attore Ronald Reagan, inserì una citazione tratta proprio dal film: "Non c'è mai stata un'epoca più entusiasmante di questa in cui vivere, un tempo di crescenti meraviglie e di progressi eroici. Come dicono in Ritorno al futuro: Strade?! Dove stiamo andando non c'è bisogno di strade!".

This book purports to be a manuscript dictated by a strange being named I-Am-The-Man to a man named Llewellyn Drury. Drury's adventure culminates in a trek through a cave in Kentucky into the core of the earth. It blends passages on the nature of physical phenomena, such as gravity and volcanoes, with spiritualist speculation and adventure-story elements (like traversing a landscape of giant mushrooms).

Fantastic adventures at the center of the earth await a penniless Norwegian student after he plunges into a bottomless hole in a cave. Niels Klim discovers worlds within our own?exotic civilizations and fabulous creatures scattered across the underside of the earth's crust and, at the earth's center, a small, inhabited planet orbiting around a miniature sun. In an epic journey, Klim visits countries led by sentient and

contemplative trees, a kingdom of intelligent apes preoccupied with fashion and change, a land whose inhabitants don't speak out of their mouths, neighboring countries of birds locked in an eternal war, and a land where string basses talk musically to one another. Brave, inquisitive, and greedy, Klim faces many challenges, the greatest of which are his own temptations. *The Journey of Niels Klim to the World Underground* is a classic in speculative fiction and was the first fully realized novel set underground in a hollow earth. First published in 1741, it has earned comparisons to Jonathan Swift's contemporaneous fantasy, *Gulliver's Travels*.

To save the world and our future, Sigma Force must embark on a dangerous odyssey into an ancient past whose horrors are all too present in this page-turning thriller from #1 New York Times bestselling author James Rollins that combines cutting-edge science, historical mystery, mythology, and pulse-pounding action. For eons, the city of Troy—whose legendary fall was detailed in Homer's *Iliad*—was believed to be myth, until archaeologists in the nineteenth century uncovered its ancient walls buried beneath the sands. If Troy was real, how much of Homer's twin tales of gods and monsters, curses and miracles—*The Iliad* and *The Odyssey*—could also be true and awaiting discovery? In the frozen tundra of Greenland, a group of modern-day researchers stumble on a shocking find: a medieval ship buried a half-mile below the ice. The ship's hold contains a collection of even older artifacts—tools of war—dating back to the Bronze Age. Inside the captain's cabin is a magnificent treasure that is as priceless as it is miraculous: a clockwork gold map imbedded with an intricate silver astrolabe. The mechanism was crafted by a group of Muslim inventors—the Ban M's brothers—considered by many to be the Da Vincis of the Arab world—brilliant scientists who inspired Leonardo's own work. Once activated, the moving map traces the path of Odysseus's famous ship as it sailed away from Troy. But the route detours as the map opens to reveal a fiery river leading to a hidden realm underneath the Mediterranean Sea. It is the subterranean world of Tartarus, the Greek name for Hell. In mythology, Tartarus was where the wicked were punished and the monstrous Titans of old, imprisoned. When word of Tartarus spreads—and of the cache of miraculous weapons said to be hidden there—tensions explode in this volatile region where Turks battle Kurds, terrorists wage war, and civilians suffer untold horrors. The phantasmagoric horrors found in Homer's tales are all too real—and could be unleashed upon the world. Whoever possesses them can use their awesome power to control the future of humanity. Now, Sigma Force must go where humans fear to tread. To prevent a tyrant from igniting a global war, they must cross the very gates of Hell.

#1 New York Times Bestseller Oprah's Book Club Selection The "extraordinary . . . monumental masterpiece" (Booklist) that changed the course of Ken Follett's already phenomenal career—and begins where its prequel, *The Evening and the Morning*, ended. "Follett risks all and comes out a clear winner," extolled *Publishers Weekly* on the release of *The Pillars of the Earth*. A departure for the bestselling thriller writer, the historical epic stunned readers and critics alike with its ambitious scope and gripping humanity. Today, it stands as a testament to Follett's unassailable command of the written word and to his universal appeal. *The Pillars of the Earth* tells the story of Philip, prior of Kingsbridge, a devout and resourceful monk driven to build the greatest Gothic cathedral the world has known . . . of Tom, the mason who becomes his architect—a man divided in his soul . . . of the beautiful, elusive Lady Aliena, haunted by a secret shame . . . and of a struggle between good and evil that will turn church against state and brother against brother. A spellbinding epic tale of ambition, anarchy, and absolute power set against the sprawling medieval canvas of twelfth-century England, this is Ken Follett's historical masterpiece.

Non si tratta soltanto di "convertiti" a una fede religiosa, provenienti magari da posizioni contrapposte alla stessa, ma anche di personaggi che hanno saputo dare una "svolta" alle proprie scelte progettuali di futuro in direzione di una presa di coscienza del ruolo che si occupa e si dovrebbe occupare sullo scenario di questo mondo, perché i "valori" dell'onestà, della legalità, dell'amore per la verità, della cura per la salute e l'ambiente, dell'impegno per la tutela della vita e per l'uomo di ogni giorno e di ogni colore non sono prevalentemente o esclusivamente di natura religiosa, ma costituiscono il tessuto principale di ogni società che voglia definirsi "umana": insomma esiste una "sacralità" anche "civile", senza la quale non si potrebbe né parlare e né tantomeno costruirne una di stampo religioso. Le vicende di tutti i convertiti nel tempo hanno sempre seguito questo itinerario: da un genere di vita confuso e indistinto, e troppo spesso anche irto di scelte non positive, all'apertura di un altro che farà assumere un più alto significato all'intero corso del vivere. Le conversioni non accadono mai a caso, ma costituiscono sempre il frutto di un intreccio di eventi che vanno a concatenarsi fra di loro per realizzare la ricostruzione di un mosaico, i cui frammenti erano già sparsi qua e là. Questo è il miracolo, ma anche il mistero della nostra permanenza su questa terra.

Seven years ago, and seven miles below the surface of the Pacific Ocean, Dr. Jonas Taylor encountered something that changed the course of his life. Once a Navy deep-sea submersible pilot, now a marine paleontologist, Taylor is convinced that a remnant population of *Carcharodon megalodon* prehistoric sharks growing up to 70 feet long, that subsisted on whales lurks at the bottom of the Mariana Trench. When offered the opportunity to return to those crushing depths in search of the Megs, Taylor leaps at the chance... but the quest for scientific knowledge (and personal vindication) becomes a desperate fight for survival, when the most vicious predator that the earth has ever known is freed to once-again hunt the surface.

«È inutile cercare di mantenere una stabile serenità quando il vento di bora manda tutto all'aria.» Viaggiatori per protesta, esploratori intraprendenti, scienziati visionari, inventori sfortunati, poeti e artisti dimenticati, imprenditori eccentrici, eroi senza pace. È la gente di Trieste, città di confine dalle mille anime divise e ricomposte dalla Storia, crocevia di guerre, traffici e commerci, città nata per essere moderna e che alla modernità ha pagato un alto prezzo. Pietro Spirito ricostruisce un'ampia galleria di personaggi. Come Carl Weyprecht, l'esploratore polare che scoprì la Terra di Francesco Giuseppe. Oppure Josef Ressel, che inventò l'elica delle navi ma nessuno lo riconobbe. O Vittorio Benussi, che ideò la macchina della verità e morì nella

menzogna. Ma anche lo scrittore Italo Svevo o il grande poeta Umberto Saba, che in punto di morte confessò di essere responsabile del suicidio di due sue giovani commesse. Figure dalle esistenze in bilico, come Rodolfo Maucci, l'insegnante che, costretto dai nazisti a dirigere il giornale della sua città occupata, lo boicottò in segreto dall'interno rischiando il campo di concentramento. E la pittrice Alice Zeriali, schiva e riservata ma che ha intrattenuto rapporti fecondi con grandissimi artisti del Novecento. O Nazario Sauro, l'eroe italiano tradito dal suo mare. Una affascinante biografia della città dove il forte vento di bora intreccia e scompiglia i destini, e dove tutto può cambiare all'improvviso.

A family is hunted by a centuries-old monster: a man with a relentless obsession who can take on any identity. The String Diaries opens with Hannah frantically driving through the night--her daughter asleep in the back, her husband bleeding out in the seat beside her. In the trunk of the car rests a cache of diaries dating back 200 years, tied and retied with strings through generations. The diaries carry the rules for survival that have been handed down from mother to daughter since the 19th century. But how can Hannah escape an enemy with the ability to look and sound like the people she loves? Stephen Lloyd Jones's debut novel is a sweeping thriller that extends from the present day, to Oxford in the 1970s, to Hungary at the turn of the 19th century, all tracing back to a man from an ancient royal family with a consuming passion--a boy who can change his shape, insert himself into the intimate lives of his victims, and destroy them. If Hannah fails to end the chase now, her daughter is next in line. Only Hannah can decide how much she is willing to sacrifice to finally put a centuries-old curse to rest.

Cooper, L'ultimo dei Mohicani • Verne, Ventimila leghe sotto i mari • Stevenson, La Freccia Nera • Kipling, Capitani coraggiosi • Salgari, Il Corsaro Nero • Conrad, Lord Jim • London, Zanna bianca Edizioni integrali L'avventura è scoperta, esperienza, conquista. È l'esaltazione della sete di conoscenza: il più nobile dei desideri intellettuali in grado di trasformarsi in motore per l'azione. Nei romanzi qui raccolti, divenuti ormai classici, la ricerca di avventure spinge gli uomini ai quattro angoli del globo, dalle esotiche battaglie nei mari tropicali al fondo degli oceani, dalla lotta per la sopravvivenza alla guerra corsara, dalla navigazione piratesca fino alle montagne ricoperte di neve dell'Alaska. L'ultimo dei Mohicani è Uncas, il figlio di Chingachguk, del vecchio capo leale e generoso che guida la sua gente fra le battaglie, gli agguati e le carneficine della guerra coloniale tra francesi e inglesi nei territori selvaggi del Nord America, intorno al 1750. Nel celeberrimo Ventimila leghe sotto i mari, Verne immagina un oggetto misterioso, più grande e più rapido di una balena, solcare gli oceani a fine Ottocento. È un sommergibile, il Nautilus, guidato dall'indimenticabile figura del capitano Nemo. Ci trasporta nell'Inghilterra del XV secolo (durante la Guerra delle Due Rose) il capolavoro di Louis Stevenson La Freccia Nera: il giovane protagonista si unisce alla banda di fuorilegge chiamata la Freccia Nera. Ad animare le sue peripezie sono l'ansia di vendetta e il desiderio di giustizia. I Capitani coraggiosi di Kipling sono i marinai dei pescherecci impegnati nelle stagioni di pesca tra i ghiacci dell'Islanda e i banchi di Terranova, nel tempestoso Atlantico del nord: farà la loro rude conoscenza il giovane naufrago Harvey, issato a bordo della We're Here. Sul mare si svolge anche l'avventura del conte di Ventimiglia, divenuto Il Corsaro Nero, uno dei personaggi più suggestivi creati dalla fantasia di Salgari: l'uomo che ha promesso di vendicare la propria famiglia annientata da un crudele nemico. Lord Jim è forse l'opera più conosciuta di Conrad e certamente una delle maggiori di tutta la sua vasta produzione: Jim ha perso l'onore anni fa, e da allora ha vagato tra un porto e l'altro dell'Oriente, soffocando il senso di colpa, finché il caso gli fa conquistare una posizione quasi regale in un remoto villaggio del Borneo. Zanna Bianca è il più noto dei libri di London: ripropone tutti i temi cari all'autore, la lotta per la vita, le grandi solitudini del Nord, la legge dura e inflessibile della sopravvivenza che accomuna e lega esseri umani e animali.

In picturesque Rosewood, Pennsylvania, neighbors gossip over picket fences, and gleaming SUVs sit in every crushed-granite driveway. But recently, friendly smiles have been replaced with suspicious glares and accusatory whispers—and it's all because Hanna, Aria, Emily, and Spencer just can't keep their mouths shut. . . . First they claimed they found a dead body in the woods behind Spencer's house, only to have it vanish without a trace. Then when the same woods went up in flames, they swore they saw someone who's supposed to be dead rise from the ashes. And even after all that, the pretty little liars are still playing with fire. Hanna's trading in her Dior trench for a straitjacket. Aria's trying to contact the dead. Emily's dumped her boyfriend and is skipping town . . . again. And Spencer thinks someone in her family has gotten away with murder. The friends insist they're telling the truth about what they saw, but all of Rosewood thinks they're simply out for attention—and nobody likes a girl who cries wolf. So when the big bad killer comes after the girls, will anyone believe them . . . or will they be the next to disappear?

Il mistero che lega il Macrocosmo al Microcosmo è, in ultima analisi, il segreto stesso della creazione e quello di Dio, è l'enigma dell'uomo e del suo destino. Dal tentativo di dare una risposta a queste domande e dallo studio del cielo stellato nacque l'Astrologia. Anticamente questa disciplina era una vera e propria scienza spirituale che doveva guidare l'uomo verso una migliore conoscenza di sé stesso, in conformità alle volontà divine e in sintonia con le forze cosmiche. L'idea che nelle antiche religioni stava alla base dell'Astrologia era quella dell'esistenza di una relazione armonica tra il destino dell'uomo e il corso delle stelle. Questo prezioso saggio di Fabio Borghini offre una panoramica assai vasta dei significati evolutivi e karmici della Luna nel tema natale di ogni essere umano. In esso vengono analizzate le progressioni e le loro trasformazioni spirituali, con particolare attenzione agli encadrement e al tipo di evoluzione che l'anima sembra scegliere.

The first volume of Viaggiatori "Curatele" series seeks to recreate some scientific dialogues, namely meetings, exchanges and

acquisition of theoretical and practical scientific knowledge, thus linking the cultural, historical and geographical context of America, Asia, Europe and Mediterranean Sea between the 16th and the 20th century. More specifically, the main objective is to consider the role of travellers as passeurs, as “intermediaries” for building and allowing the circulation of knowhow and the practical and theoretical knowledge from one continent to another.
