Korean is the seventh most commonly spoken language in the United States, and Korean heritage students—those with some proficiency in or a cultural connection to the language through family or community—make up a substantial portion of Korean learners at the college level. Many schools offer a separate heritage track for learning Korean, but until now there has been no textbook designed specifically for heritage learners as well as the increasing number of students from diverse backgrounds who are interested in pursuing intensive learning to build on their prior experience with Korean. Integrated Korean: Accelerated 1 and 2 directly address the linguistic needs and abilities of heritage and accelerated learners in a single academic year. Volume 1 presents lessons on thematically organized subjects, starting with familiar topics such as family, friends, daily routines, schoolwork, campus activities, dining out, and shopping. Volume 2 advances to more formal subjects beyond family and friends, such as travel, transportation, housing, holidays, lifestyles, careers, and Korean history and culture. Students approach the lessons with multilevel communicative classroom activities and reading materials with standards-based exercises and projects that not only focus on the particular language requirements of heritage learners, but also encourage them to participate more fully in their own family and community life. Each volume's textbook and workbook offer authentic conversations and texts in both informal and formal contexts, structured tasks, and a wealth of interesting and relevant cultural content. Integrated Korean is a project of the Korean Language Education and Research Center (KLEAR) with the support of the Korea Foundation. In addition to the five-level Integrated Korean textbooks and workbooks, volumes include Korean Composition, Korean Language in Culture and Society, Korean Reader for Chinese Characters, Readings in Modern Korean Literature, A Resource for Korean Grammar Instruction, and Selected Readings in Korean. This book accompanies KLEAR's Integrated Korean text series. It contains nearly 1,000 activities on 160 of the most commonly used grammar patterns for beginning and intermediate levels, all sorted by alphabetical order, as well as topics for comprehensive grammar instruction using an interactive approach. Nearly 40 practical activities and lesson ideas for advanced levels are also included. These activities are sorted by skill orientation (e.g., speaking-oriented, reading-oriented, etc.), which will allow them to be used with any Korean-language textbook published in the U.S., Korea, or elsewhere. Instructors who teach Korean as a foreign language in colleges, secondary schools, and community schools and even as private tutors will welcome the easy-to-use grammar activities, which provide practical guidelines for both new and experienced teachers. These lessons reflect the current trend among Korean-language learners in U.S. universities, where, traditionally, primary learners were students of Korean heritage. In recent years, the number of non-heritage learners has increased and thus, to meet their needs, activities with different degrees of difficulty are provided for each grammar pattern and topic enabling instructors to select those most suitable to their students' needs. A Resource for Korean Grammar Instruction is divided into two main parts: 1) activities by forms for beginning and intermediate levels; and 2) activities by skill for more advanced levels. The first part includes greetings and Hangul, sentence endings, clausal endings, other suffixes, particles, and more. The second covers vocabulary-oriented activities, speaking/listening activities, reading-oriented activities, and writing-oriented activities. Supplementary instructional materials such as Power Point presentations, video clips, photos and images, and sample quizzes are available free for download at www.kleartextbook.com under the Instructor section after a simple login.

when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.
