One of the most influential combat shooting books ever published, *Shooting to Live* is the product of Capt. W.E. Fairbairn's and Capt. E.A. Sykes' practical experience with the handgun from their many close-quarters gunfights while working for the Shanghai Municipal Police in the 1930s. This expanded edition contains a new foreword by British World War II combatives expert Phil Mathews, which sheds new light on the career of E.A. Sykes - the "forgotten hero" of the Fairbairn-Sykes duo - as well as previously unpublished photos. Hundreds of actual incidents provided the basis for this first true instruction manual on life-or-death shootouts with the pistol. In clear, concise terms, the book teaches the concepts, considerations and applications of combat pistolcraft. A foreword by Col. Rex Applegate explains how Fairbairn and Sykes introduced their groundbreaking methods into American military training circles at the height of World War II.

How can coaches help clients navigate the changing world of work? This book offers a step-by-step, practical guide to running a complete career coaching programme: assessing the present; looking at motivation, skills and 'personal brand'; writing the most powerful CV/résumé; getting through a job interview or assessment centre successfully; and negotiating terms for a new job. Career coaching has never been needed more now that jobs for life have disappeared, being made redundant is common, the 'gig economy' is here to stay, and young people often must start in unpaid roles. The principles of career coaching are much the same whether you are a professional executive coach or a volunteer working for a charity whose aim is to get people back into work. But how do you do it most effectively? The focus must be on the whole career coaching cycle and building a holistic understanding of how a client's personal and professional life has influenced the person they are today, who they want to be, and how to set successful goals. Important reading for any coach who wants to understand and improve their career coaching. "This is a must-have resource for all coaches to support clients in career and job transition." Terry H. Hildebrandt, PhD, MCC, MCEC, Director of Evidence Based Coaching, Fielding Graduate University, USA "The clearest, wisest guide I have yet read on coaching towards success in the complex world of work." Sarah Gillett CMG CVO, Former ambassador, and coach in-training "Jenny

This is a masterful narration of the whole story of career coaching at a much deeper level.” Jane Cook, Head of Leadership and Coaching, Linden Learning “An experiential step-by-step guide to working with clients who are exploring real issues around their work, career, and life, to bring out their best selves. One of the best in furthering your learning and growth as a coach.” Diane Brennan, DBH, MCC, Director of Leadership & Organizational Development University of Arizona and Past President of the International Coach Federation (2008) “A thorough overview of the skills and knowledge required by career coaches. This not only defines the coach’s professional toolkit, but reveals the very best practice in career coaching.” John Lees, author of How to Get a Job You Love

"This 'little black book' is a practical book which all coaches should read before they decide to enter the business world of coaching. It is an easy read that is packed with a number of useful tips and practical advice of how to both develop and implement your business." Yvonne Thackray How do I set up a coaching business? How do I find clients? How do I market myself successfully? If you are considering these questions, then this is the book for you. The coaching market is thriving but many coaches need practical help on how to develop and grow their businesses. Being a good coach is never enough. This book gives practical help based on many years of successful experience. Many coaches make the mistake of starting too broadly when the secret is to find a niche - but how do you do this? How do you find your natural clients? How do they find you? What should you charge? Should you have an office or can you work from home? Start-up costs are never as minimal as they might look, so how do you sustain yourself while you are building the business? It is essential to promote your fledgling business but which methods work and which are just a waste of time and money? You must have a web site but what should it contain to carry the right message about you and your coaching practice? Then there is the whole question of selling - a process many coaches dread but which has to be done because word of mouth on its own will never generate enough clients to earn a decent living. Finally, how big do you ultimately want your business to be? What are the plusses and minuses of growth? This book explains step by step how to build a successful new coaching business using an innovative method of selling with integrity. Using helpful case studies, Jenny Rogers clearly analyses the practical issues that can make or break a new venture. This book is the first step in running a successful coaching business.

An enchanting collection of stories from the heartland of India Ruskin Bond's simple characters, living amidst the lush forests of the Himalayan foothills, are remarkable for their quiet heroism, courage and grace, and age-old values of honesty and fidelity. Residents of nondescript villages and towns, they lead lives that are touched by natural beauty as well as suffering—the loss of a loved parent, unfulfilled dreams, natural calamities, ghostly visitations, a respected teacher turned crooked, strangers who make a nuisance of themselves—which only reinforces their abiding faith in God, family and neighbour. Told in Bond's distinctive style, these stories are a magnificent evocation of an India that may be fast disappearing.
