The same people who brought you the most widely used guide to preparing for eLearning are bringing passion back to your learning and training programs. The authors culled through over 400 eLearning programs, hundreds of popular entertainment pieces, and interviews with over 100 people in widely disparate areas to answer a simple question: What will make eLearning have as much impact as popular culture? Renaissance eLearning is the answer. It has everything you need to infuse eLearning with the same magnetism and addictive powers of the typical video game, song, movie, or other form of entertainment. With this book you'll learn: How to make emotion and passion as important to eLearning as cognition and intellect How (and why!) to empower learners to take charge of their own experience How to get buy-in from stakeholders for alternative and higher return on investment programs How to apply the same principles and techniques (including narrative and visual design) used by masters over the centuries to grab attention, foster learning, and have a lasting impact on participants How to get the research and information you need without relying on self-proclaimed gurus and exorbitantly priced analysts How to find and work with the affordable creative talent needed to make your plans a reality

Witness for the Prosecution and Other Stories is a collection of eleven tantalizing tales of murder and other criminal pursuits—including the classic title story, the basis for the 1957 Oscar-nominated Billy Wilder film starring Marlene Dietrich, Tyrone Power, and Charles Laughton. A murder trial takes a diabolical turn when the wife of the accused takes the stand. . . . A woman's sixth sense—and a loaded revolver—signal premonitions of doom. . . . A stranded motorist seeks refuge in a remote mansion and is greeted with a dire warning. . . . Detective Hercule Poirot faces his greatest challenge when his services are enlisted—by the victim—in a bizarre locked-room murder. From the stunning title story (which inspired the classic film thriller) to the rarest gems in detective fiction, these eleven tales of baffling crime and brilliant deduction showcase Agatha Christie at her dazzling best.

After learning that her life's purpose is to fulfill a prophecy to save our world, Roam finds that she is pregnant- and missing the love of her life with all of her heart. Drawing on a wealth of knowledge and experience and a background of more than 1,000 magazine articles on the subject, engine control expert Jeff Hartman explains everything from the basics of engine management to the building of complicated project cars. Hartman has substantially updated the material from his 1993 MBI book Fuel Injection (0-879387-43-2) to address the incredible developments in automotive fuel injection technology from the past decade, including the multitude of import cars that are the subject of so much hot rodding today. Hartman's text is extremely detailed and logically arranged to help readers better understand this complex topic.

In thirty-six thrilling days, Melanie Radzicki McManus hiked 1,100 miles around Wisconsin, landing her in the elite group of Ice Age Trail thru-hikers known as the Thousand-Milers. In prose that's alternately harrowing and humorous, Thousand-Miler takes you with her through Wisconsin's forests, prairies, wetlands, and farms, past the geologic wonders carved by long-ago glaciers, and into the neighborhood bars and gathering places of far-flung small towns. Follow along as she worries about wildlife encounters, wonders if her injured feet will ever

recover, and searches for an elusive fellow hiker known as Papa Bear. Woven throughout her account are details of the history of the still-developing Ice Age Trail—one of just eleven National Scenic Trails—and helpful insight and strategies for undertaking a successful thru-hike. In addition to chronicling McManus's hike, Thousand-Miler also includes the little-told story of the Ice Age Trail's first-ever thru-hiker Jim Staudacher, an account of the record-breaking thru-run of ultrarunner Jason Dorgan, the experiences of a young combat veteran who embarked on her thru-hike as a way to ease back into civilian life, and other fascinating tales from the trail. Their collective experiences shed light on the motivations of thru-hikers and the different ways hikers accomplish this impressive feat, providing an entertaining and informative read for outdoors enthusiasts of all levels.

Performance is critical to the success of any web site, and yet today's web applications push browsers to their limits with increasing amounts of rich content and heavy use of Ajax. In this book, Steve Souders, web performance evangelist at Google and former Chief Performance Yahoo!, provides valuable techniques to help you optimize your site's performance. Souders' previous book, the bestselling *High Performance Web Sites*, shocked the web development world by revealing that 80% of the time it takes for a web page to load is on the client side. In *Even Faster Web Sites*, Souders and eight expert contributors provide best practices and pragmatic advice for improving your site's performance in three critical categories:

- JavaScript—Get advice for understanding Ajax performance, writing efficient JavaScript, creating responsive applications, loading scripts without blocking other components, and more.
- Network—Learn to share resources across multiple domains, reduce image size without loss of

“Wonderfully, in Akashic's *Oakland Noir*, the stereotypes about the city suffer the fate of your average noir character—they die brutally.” —San Francisco

Chronicle In the wake of San Francisco Noir, Los Angeles Noir, and Orange County Noir—all popular volumes in the Akashic Noir Series—comes the latest California installment, Oakland Noir. Masterfully curated by Jerry Thompson and Eddie Muller (the “Czar of Noir”), this volume will shock, titillate, provoke, and entertain. The diverse cast of talented contributors will not disappoint. Oakland Noir offers stories by Nick Petrulakis, Kim Addonizio, Keenan Norris, Keri Miki-Lani Schroeder, Katie Gilmartin, Dorothy Lazard, Harry Louis Williams II, Carolyn Alexander, Phil Canalin, Judy Juanita, Jamie DeWolf, Nayomi Munaweera, Mahmud Rahman, Tom McElravey, Joe Loya, and Eddie Muller. “From the Oakland hills to the heart of downtown, each story brings Oakland to life.” —San Jose Mercury News “Oakland is a natural for the series, with its shadowy crimes and disgruntled cops.” —Zoom Street Magazine “San Francisco’s grittier next-door neighbor gets her day in the sun in 16 new stories in this tightly curated entry in Akashic’s Noir series. The hardscrabble streets of Oakland offer crime aplenty . . . Thompson and Muller have taken such pains to choose stories highlighting Oakland’s diversity and history that the result is a volume rich in local culture as well as crime.” —Kirkus Reviews

Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the

support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

*iGenetics: A Molecular Approach: International Edition, 2/e* *iGenetics: A Molecular Approach* reflects the dynamic nature of modern genetics by emphasizing an experimental, inquiry-based approach with a solid treatment of many research experiments. The text is ideally suited for students who have had some background in biology and chemistry and who are interested in learning the central concepts of genetics. Problem solving is a major feature of the text and students have the opportunity to apply critical thinking skills to a variety of problems at the end of each chapter. Pedagogical features such as Principal Points, at the beginning of each chapter, and Keynotes, strategically placed

throughout the chapter, are useful learning tools. *Biology: International Edition, 7/e* Neil Campbell and Jane Reece's *Biology* remains unsurpassed as the most successful majors biology textbook in the world. The authors have restructured each chapter around a conceptual framework of five or six big ideas. The text also contains a wealth of pedagogical features such as Chapter Overviews, Concept Check questions, New Inquiry Figures and each chapter ends with a Scientific Inquiry Question that asks students to apply scientific investigation skills to the content of the chapter. *Principles of Biochemistry: International Edition, 4/e* This concise, introductory text focuses on the basic principles of biochemistry, filling the gap between the encyclopedic volumes and the cursory overview texts. The book has a well-deserved reputation for being the most accurate biochemistry textbook in the market. Widely praised in its previous edition for currency, and clarity of exposition, the new edition has been thoroughly revised and updated to reflect recent changes in this dynamic discipline. *Statistical and Data Handling Skills in Biology, 2/e* *Statistical and Data Handling Skills in Biology* puts statistics into context to show biology students the relevance of statistical analysis. It covers all the statistical tests a biology student would need throughout their study; demonstrates their uses and rationale; and describes how to perform them using both a calculator and the SPSS computer package. *CourseCompass* with

The Lost Cause ideology that emerged after the Civil War and flourished in the early twentieth century in essence sought to recast a struggle to perpetuate slavery as a heroic defense of the South. As Adam Domby reveals here, this was not only an insidious goal; it was founded on falsehoods. The False Cause focuses on North Carolina to examine the role of lies and exaggeration in the creation of the Lost Cause narrative. In the process the book shows how these lies have long obscured the past and been used to buttress white supremacy in ways that resonate to this day. Domby explores how fabricated narratives about the war's cause, Reconstruction, and slavery—as expounded at monument dedications and political rallies—were crucial to Jim Crow. He questions the persistent myth of the Confederate army as one of history's greatest, revealing a convenient disregard of deserters, dissent, and Unionism, and exposes how pension fraud facilitated a myth of unwavering support of the Confederacy among nearly all white Southerners. Domby shows how the dubious concept of "black Confederates" was spun from a small number of elderly and indigent African American North Carolinians who got pensions by presenting themselves as "loyal slaves." The book concludes with a penetrating examination of how the Lost
