This book explains how you can go about preparing for a better birth. Written by two experienced midwives, it doesn't promise a magical remedy. And it doesn't treat all birth options and all women as if they are the same. But with the right information and an appropriate choice of place and caregiver, pregnancy and birth can be a truly momentous event. A better birth can be an event every mother can look back on with satisfaction.

Third Sister in the Tao family, Ailin has watched her two older sisters go through the painful process of having their feet bound. In China in 1911, all the women of good families follow this ancient tradition. But Ailin loves to run away from her governess and play games with her male cousins. Knowing she will never run again once her feet are bound, Ailin rebels and refuses to follow this torturous tradition. As a result, however, the family of her intended husband breaks their marriage agreement. And as she enters adolescence, Ailin finds that her family is no longer willing to support her. Chinese society leaves few options for a single woman of good family, but with a bold conviction and an indomitable spirit, Ailin is determined to forge her own destiny. Her story is a tribute to all those women whose courage created new options for the generations who came after them.

This book examines the relationship between religion, democracy, and women's organizations in Kuwait. More specifically, it looks at whether these organizations are working toward achieving formal political rights for women. Helen Rizzo examines how interpretations of religion affected the goals and activities of the organizations in terms of women's empowerment and if the organizations were pushing the democratization process. Much of the recent literature on the relationship between Islam, democracy, and women's rights has been negative and pessimistic. Instead, this book examines the complicated relationship between these three things, arguing that some women in Kuwait are using Islam in their discourse to justify women's right to equality and public participation, thus countering the arguments that see Islam, democracy, and women's rights as inherently and culturally incompatible.
