The guide to India is a useful handbook to an extraordinary country. The introductory colour section includes photography of the country's many highlights in the 42 Things Not To Miss section, from boating on the backwaters of Kerala to taking in a cricket match at the Oval Maiden in Mumbai. It provides comprehensive accounts of every attraction from the vibrant cities and elaborate temples to Himalayan peaks and palm-fringed beaches. There is also practical advice on activities as diverse as camel trekking in the Rajasthan desert, rafting on the Indus and hiking through the lunar landscapes of Ladakh. The listings sections provide hundreds of insider reviews of the best hotels, hostels, restaurants, bars, shops and museums in every city and village. The authors also give an informed insight into India's history, politics, religion, music and cinema, providing a valuable context to the reader's trip.

The Staff Selection Commission (SSC) is an undertaking of the Department of Personnel and Training, Government of India. SSC is the statutory body endowed with the responsibility of conducting examinations for recruiting lower categories of posts. Each year SSC releases a notification to hire eligible graduates as well as seasoned professionals in the field of engineering for numerous Government units. SSC JE is a high-paying recourse for individuals wishing to serve the Indian Government. This section articulates a complete overview of the SSC JE exam to assist applicants.

Fundamentals of Environmental Studies is taught as a compulsory paper to first-year undergraduate students across major technical universities in India. This book introduces the fundamental principles and concepts of environmental science, ecology and related interdisciplinary subjects, such as policy, law, pollution control, economics and natural resource management. It covers a wide range of topics and issues including biodiversity, global warming, acid rain, ozone layer depletion, nuclear accidents, nuclear holocaust, disaster management, manipulation of various natural resources including water, land, forests, food and mineral resources, and the problems associated with natural resource management. It also analyzes different types of ecosystems, biochemical cycles and laws of thermodynamics and provides easy-to-understand examples. In addition, the book offers separate chapters on various types of environmental pollution and

waste management, including waste water treatment, solid waste management and green management.

ANSWERS OF THE EXERCISES FROM THE BOOK IS ALSO GIVEN.....

In This Book There Are Eleven Chapters On Various Topics, Covering All Aspects Related With The New State Of Uttaranchal.

Jim Corbett is famous for his exploits as a hunter, but there was so much more to the man than tracking down man-eating tigers and leopards. In fact, 'Carpet Sahib' (as many Indians called him) was a conservationist at heart, with a deep love for jungles – its flora and fauna; and its inhabitants – the birds and the animals, and the people – who lived in the lush Kumaon hills. It is this side of Corbett that comes to the fore in Jungle Lore. Almost autobiographical in nature, Jungle Lore sees Corbett talk of his boyhood, the people he met, lessons he learnt in absorbing the jungle, his concern for the jungles and environment, and of course, there are doses of hunting expeditions too. There is even the odd story of detection and of supernatural sightings. Jungle Lore is the first book anyone should read on Jim Corbett. Simply because it is about Jim Corbett the man who went on to become a famous hunter.

BBA (Bachelor of Business Administration) / BBS (Bachelor of Business Studies)/ BBM (Bachelor of Business Management) are 3 year full time professional degree courses which are designed to develop a student managerial skills by giving them a broader perspective through imparting knowledge of all functions, enhancing their decision making capabilities and sharpening their communication skills.. A text book on Social

For All Theory Exam A Complete Reference for All students. It is my pleasure to present this book on Environmental Studies to the students of all streams. The book covers an extensive area of this subject

There may be no more magnificent animal than the tiger. Yet, around the world, their populations are dwindling, and the Indian Bengal tiger is no exception. Wild Bengal tigers dwell in tropical jungles, brush, marsh lands, and tall grasslands in Bangladesh, Nepal, India, Bhutan, and Burma, hunting prey such as pigs, deer, antelope, and buffalo. Some estimates say there are fewer than 2,000 Bengal tigers and the entire world tiger population may be less than 3,000. The Life and Fate of the Indian Tiger offers a unique perspective on these exquisite cats. Author Tobias J. Lanz, who has been studying Indian tigers since 1998, incorporates historical and cultural topics, as well as conservation and social theories into his narrative. He paints a detailed portrait of the tiger's life in the wild, enriching that picture with descriptions of the plant, animal, and human life found in India's diverse tiger habitats. The book also looks at tigers in myth and religion, tiger hunting, and the rise of conservation. Each engaging chapter is a combination of social and historical narrative, interspersed with the author's personal observations and analyses of places, people, and events. Knowledge gained from his research on Indian history, geography, politics, and religion is matched with the personal experiences he had while travelling across the subcontinent to visit tiger sanctuaries. Personal observations on local cultures, scenery, and wildlife are balanced by discussions with the Indian people, ranging from government officials to villagers. The Indian tiger continues to survive against great odds. Written in part to engage the reader in conservation efforts, The Life and Fate of the Indian Tiger outlines the main programs and policies enacted to save the tiger in India. Lanz dedicates a final chapter to global efforts at tiger conservation, explaining what can and must be done to safeguard the future of one of the world's rarest and most beautiful creatures.

Oswaal Books latest offering ONE for ALL is going to break down the actual studying strategies for success and empower the students with the 5 E's of Learning- Engage- Introduce interesting content enabling better assimilation of concepts Explore- Provide meaningful insights into various typologies and methodologies for effective exam preparation Explain- Give better clarification for concepts and theories Elaborate- Complement studying with ample examples and Oswaal exam tools Evaluate- Conclude with Effective self-assessment tools Oswaal ONE for ALL, as the name suggests is an All in One package for Class 10. for Excellence. Man-Eaters of Kumaon is a book written by hunter-naturalist Jim Corbett. It details the experiences that Corbett had in the Kumaon region of India from the 1900s to the 1930s, while hunting man-eating Bengal tigers and Indian leopards. One tiger, for example, was responsible for over 400 human deaths. Man-Eaters of Kumaon is the best known of Corbett's books and contains 10 stories of tracking and shooting man-eaters in the Indian Himalayas during the early years of the twentieth century. The text also contains incidental information on flora, fauna and village life. Seven of the stories were first published privately as Jungle Stories. Corbett's most famous work, this book is a timeless classic.
