For nearly 80 years, shaft-drive boxer twins have traditionally formed the backbone of the BMW motorcycle line-up. For many enthusiasts of the Bavarian marque the classic BMW twin was the R90S of 1973-76. Over the decades, successive generations of durable machines - including the R100S, fully-faired R100RS, four-cylinder K-series, high-performance R1100RS and an entire family of touring and sporting models ranging from 850 to 1200cc - would ensure the BMW boxer twins a place in the Haynes "Great Bikes" series. This book covers: historical context, racing, the wartime R75 and R69S; the "75" series which enabled BMW to compete with the high-performance Japanese machines; the R90S, the "76" and Superbike performance; the R100RS, the "77" and the touring R100RT; smaller twins, smaller potential; the R89G/S, including a Paris-Dakar version; rationalization of the boxer range, and the new twins that included four-valve heads and electronic engine management; and technical specifications from 1969 to 2003.

Over the past ten years there has been a massive growth in call centres worldwide. These centres are said to represent the most dynamic growth area in white-collar employment internationally since the mid 1990s. Yet the footloose and global nature of the industry means that jobs will always be susceptible to outsourced operations, ICT developments, public sector subsidization of business restructuring and re-location, and cheaper operations elsewhere. This book conducts a thorough analysis of this modern phenomenon.

Up until the advent of Nasser and the 1956 War, a thriving and diverse Jewry lived in Egypt – mainly in the two cities of Alexandria and Cairo, heavily influencing the social and cultural history of the country. Histories of the Jews of Egypt argues that this Jewish diaspora should be viewed as "an imagined bourgeoisie". It demonstrates how, from the late nineteenth century up to the 1950s, a resilient bourgeois imaginary developed and influenced the lives of Egyptian Jews both in the public arena, in institutions such as the school, and in the home. From the schools of the Alliance Israélite Universelle and the Cairo lycée français to Alexandrian marriage contracts and interwar Zionist newspapers – this book explains how this imaginary was characterised by a great capacity to adapt to the evolutions of late nineteenth and early twentieth century Egypt, but later deteriorated alongside increasingly strong Arab nationalism and the political upheavals that the country experienced from the 1940s onwards. Offering a novel perspective on the history of modern Egypt and

its Jews, and unravelling too often forgotten episodes and personalities which contributed to the making of an incredibly diverse and lively Jewish diaspora at the crossroads of Europe and the Middle East, this book is of interest to scholars of Modern Egypt, Jewish History and of Mediterranean History.
