

John Deere 145 Mower Repair Manual

Text and photographs present a history of John Deere tractors.

This exceptional photographic collection reveals the entire history and development of the big green machines in the John Deere arsenal. All of the historic tractor models are covered, from the earliest Dain, Melvin, and Sklovsky experimentals; the Waterloo Boy and British Overtime; the two-cylinder General Purpose tractors, including GP, A, and the immensely popular B; the Lindeman crawlers; the orchard, wide-tread, hi-crop, industrial, and other variations; to the New Generation and beyond.

Perk up your garden, your cooking, and your health with this “comprehensive look at microgreens”—from arugula to Tokyo Bekana—includes recipes (City Bitty Farm). Dubbed a culinary buzzword by National Public Radio, microgreens—vegetables harvested soon after sprouting—have become one of the hottest food trends. With simple instruction, *Microgreens* teaches how to plant, grow, and harvest microgreens from one’s own garden. The small amount of space needed to grow microgreens—a porch, patio, deck, or balcony will do—allows anyone to easily incorporate them into their daily meals, and the greens’ nutritional potency make them a must-eat in a healthy diet. Includes the microgreens: amaranth, arugula, basil, beet, broccoli, celery, chard, cilantro, cress, endive, mustard, pac choi, pea, purple cabbage, radish, and Tokyo Bekana.

Kids are on a mission to save the Earth! *Recycle and Remake* is the hands-on, practical guide you need to get started. This gentle, but empowering book is full

of creative making activities, information, and ideas that give young eco-warriors (like you!) the know-how to really help the environment. With Recycle and Remake, you will soon be saving trees by making your own seeded recycled paper from junk mail, cleaning up the oceans by turning old carrier bags into kites, friendship bracelets, and colorful weaved baskets and repurposing a cardboard box into a periscope. You'll also learn about sustainable energies by creating a simple solar oven, cutting down on cling-film by making a food wrap from scrap cotton and beeswax, and turning an old t-shirt into a reusable tote bag so you never need to buy a plastic carrier bag again. You can even grow new plants to clean the air in your own upcycled milk bottle planters and using homemade compost. Each of the activities directly relates to an environmental hot topic, such as plastic pollution, food waste, or deforestation. Budding environmentalists all over the world are feeling inspired to do their bit for our unique planet.
