"You're going to sell what? Empty Boxes?" Back in 1978, Kip Tindell (Chairman & CEO of The Container Store) and his partners had the vision that people were eager to find solutions to save both space and time - and they were definitely onto something. A new category of the retailing industry was born - storage and organization. Today, with stores nationwide and with more than 5,000 loyal employees, the company couldn't be stronger. Over the years, The Container Store has been lauded for its commitment to its employees and focus on its original concept and inventory mix as the formula for its success. But for Tindell, the goal never has been growth for growth's sake. Rather, it is to adhere to the company's values-based business philosophies, which center on an employee-first culture, superior customer service and strict merchandising. The Container Store has been named on Fortune magazine's "100 Best Companies To Work For" list for 15 consecutive years. Even better, The Container Store has millions of loyal customers. In *Uncontainable*, Tindell reveals his approach for building a business where everyone associated with it thrives through embodying the tenets of Conscious Capitalism. Tindell's seven Foundation Principles are the roadmap that drives everyone at The Container Store to achieve the goals of the company. *Uncontainable* shows how other businesses can adapt this approach toward what Tindell calls the most profitable, sustainable and fun way of doing business. Tindell is

Imagine a company where people love coming to work and are highly productive on a daily basis. Imagine a company whose top executives, in a quest to create the most "fun" workplace ever, obliterate labor-management divisions and push decision-making responsibility down to the plant floor. Could such a company compete in today's bottom-line corporate world? Could it even turn a profit? Well, imagine no more. In *Joy at Work*, Dennis W. Bakke tells the true story of this extraordinary company--and how, as its co-founder and longtime CEO, he challenged the business establishment with revolutionary ideas that could remake America's organizations. It is the story of AES, whose business model and operating ethos -"let's have fun"-were conceived during a 90-minute car ride from Annapolis, Maryland, to Washington, D.C. In the next two decades, it became a worldwide energy giant with 40,000 employees in 31 countries and revenues of \$8.6 billion. It's a remarkable tale told by a remarkable man: Bakke, a farm boy who was shaped by his religious faith, his years at Harvard Business School,

and his experience working for the Federal Energy Administration. He rejects workplace drudgery as a noxious remnant of the Industrial Revolution. He believes work should be fun, and at AES he set out to prove it could be. Bakke sought not the empty "fun" of the Friday beer blast but the joy of a workplace where every person, from custodian to CEO, has the power to use his or her God-given talents free of needless corporate bureaucracy. In *Joy at Work*, Bakke tells how he helped create a company where every decision made at the top was lamented as a lost chance to delegate responsibility--and where all employees were encouraged to take the "game-winning shot," even when it wasn't a slam-dunk. Perhaps Bakke's most radical stand was his struggle to break the stranglehold of "creating shareholder value" on the corporate mind-set and replace it with more timeless values: integrity, fairness, social responsibility, and a sense of fun. "The Joy Luck Club is one of my favorite books. From the moment I first started reading it, I knew it was going to be incredible. For me, it was one of those once-in-a-lifetime reading experiences that you cherish forever. It inspired me as a writer and still remains hugely inspirational." —Kevin Kwan, author of *Crazy Rich Asians* Amy Tan's beloved, New York Times bestselling tale of mothers and daughters *Four mothers, four daughters, four families* whose histories shift with the four winds depending on who's "saying" the stories. In 1949 four Chinese women, recent immigrants to San Francisco, begin meeting to eat dim sum, play mahjong, and talk. United in shared unspeakable loss and hope, they call themselves the Joy Luck Club. Rather than sink into tragedy,

they choose to gather to raise their spirits and money. "To despair was to wish back for something already lost. Or to prolong what was already unbearable." Forty years later the stories and history continue. With wit and sensitivity, Amy Tan examines the sometimes painful, often tender, and always deep connection between mothers and daughters. As each woman reveals her secrets, trying to unravel the truth about her life, the strings become more tangled, more entwined. Mothers boast or despair over daughters, and daughters roll their eyes even as they feel the inextricable tightening of their matriarchal ties. Tan is an astute storyteller, enticing readers to immerse themselves into these lives of complexity and mystery.

You've done everything right-attended a good school, landed a great job, bought things to fill your life, earned promotions, and maybe even became the boss. You've achieved success. All of that hard work has paid off. And you're happy...aren't you? Sometimes the hardest goal to achieve is a rich, happy life. Finding the balance between the nonstop parade of accomplishments and a joy-filled life can feel like a finish line you may never cross. Like you, founder and speaker Tracy LaLonde was a stressed overachiever-until she took those skills and unapologetically aimed for happiness. In *The Joychiever Journey*, Tracy shares her comprehensive roadmap to uncovering your True Self and living a joyful life that is expressly yours. In this book, you will garner a deeper understanding of yourself by exploring the 7 True Self Stops that include: Simple ways to channel your strengths to invite more joy into your 9-5 workday. Less

A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; about how our desire for entertainment affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that make us human - and one of those rare books that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, The Atlantic

Yet when seven-year-old Qian arrives in New York City in 1994 full of curiosity, she is overwhelmed by crushing fear and scarcity. In China, Qian's parents were professors; in America, her family is "illegal" and it will require all the determination and small joys they can muster to survive. In Chinatown, Qian's parents labor in sweatshops. Instead of laughing at her jokes, they fight constantly, taking out the stress of their new life on one another. Shunned by her

classmates and teachers for her limited English, Qian takes refuge in the library and masters the language through books, coming to think of The Berenstain Bears as her first American friends. And where there is delight to be found, Qian relishes it: her first bite of gloriously greasy pizza, weekly “shopping days,” when Qian finds small treasures in the trash lining Brooklyn’s streets, and a magical Christmas visit to Rockefeller Center—confirmation that the New York City she saw in movies does exist after all. But then Qian’s headstrong Ma Ma collapses, revealing an illness that she has kept secret for months for fear of the cost and scrutiny of a doctor’s visit. As Ba Ba retreats further inward, Qian has little to hold onto beyond his constant refrain: Whatever happens, say that you were born here, that you’ve always lived here. Inhabiting her childhood perspective with exquisite lyric clarity and unforgettable charm and strength, Qian Julie Wang has penned an essential American story about a family fracturing under the weight of invisibility, and a girl coming of age in the shadows, who never stops seeking the light.

In search of answers and action, the award-winning poet and essayist Lisa Wells brings us *Believers*, introducing trailblazers and outliers from across the globe who have found radically new ways to live and reconnect to the Earth in the face of climate change. We find ourselves at the end of the world. How, then, shall we

live? Like most of us, Lisa Wells has spent years overwhelmed by increasingly urgent news of climate change on an apocalyptic scale. She did not need to be convinced of the stakes, but she could not find practical answers. She embarked on a pilgrimage, seeking wisdom and paths to action from outliers and visionaries, pragmatists and iconoclasts. *Believers* tracks through the lives of these people who are dedicated to repairing the earth and seemingly undaunted by the task ahead. Wells meets an itinerant gardener and misanthrope leading a group of nomadic activists in rewilding the American desert. She finds a group of environmentalist Christians practicing “watershed discipleship” in New Mexico and another group in Philadelphia turning the tools of violence into tools of farming—guns into ploughshares. She watches the world’s greatest tracker teach others how to read a trail, and visits botanists who are restoring land overrun by invasive species and destructive humans. She talks with survivors of catastrophic wildfires in California as they try to rebuild in ways that acknowledge the fires will come again. Through empathic, critical portraits, Wells shows that these trailblazers are not so far beyond the rest of us. They have had the same realization, have accepted that we are living through a global catastrophe, but are trying to answer the next question: How do you make a life at the end of the world? Through this miraculous commingling of acceptance and activism, this

The epic story of the Congo-Océan railroad and the human costs and contradictions of modern empire. The Congo-Océan railroad stretches across the Republic of Congo from Brazzaville to the Atlantic port of Pointe-Noir. It was completed in 1934, when Equatorial Africa was a French colony, and it stands as one of the deadliest construction projects in history. Colonial workers were subjects of an ostensibly democratic nation whose motto read “Liberty, Equality, Fraternity,” but liberal ideals were savaged by a cruelly indifferent administrative state. African workers were forcibly conscripted and separated from their families, and subjected to hellish conditions as they hacked their way through dense tropical foliage—a “forest of no joy”; excavated by hand thousands of tons of earth in order to lay down track; blasted their way through rock to construct tunnels; or risked their lives building bridges over otherwise impassable rivers. In the process, they suffered disease, malnutrition, and rampant physical abuse, likely resulting in at least 20,000 deaths. In the Forest of No Joy captures in vivid detail the experiences of the men, women, and children who toiled on the railroad, and forces a reassessment of the moral relationship between modern industrialized empires and what could be called global humanitarian

Offering insights from the spheres of anthropology, psychology, education, design, and business, *Creative Intelligence* by Bruce Nussbaum, a leading thinker, commentator, and curator on the subjects of design, creativity, and innovation, is first book to identify and explore creative intelligence as a new form of cultural literacy and as a powerful method for problem-solving, driving innovation, and sparking start-up capitalism.

Nussbaum investigates the ways in which individuals, corporations, and nations are boosting their creative intelligence — CQ—and how that translates into their abilities to make new products and solve new problems. Ultimately, *Creative Intelligence* shows how to frame problems in new ways and devise solutions that are original and highly social. Smart and eye opening, *Creative Intelligence: Harnessing the Power to Create, Connect, and Inspire* illustrates how to connect our creative output with a new type of economic system, Indie Capitalism, where creativity is the source of value, where entrepreneurs drive growth, and where social networks are the building blocks of the economy.

WallStreetBets took down one of the biggest hedge funds on Wall Street, firing the first shot in a revolution that threatens to upend the establishment. It's the story of financial titans like Gabe Plotkin of hedge fund Melvin Capital, one of the most respected and staid funds on the Street, billionaires like Elon Musk, Steve Cohen, Mark Cuban, Robinhood co-CEOs Vlad Tenev and Baiju Bhatt, and Ken Griffin of Citadel Securities. Over the course of four incredible days, each in their own way must reckon with a formidable force they barely understand, let alone saw coming: everyday men and women on WallStreetBets like nurse Kim Campbell, college student Jeremy Poe, and the enigmatic Keith "RoaringKitty" Gill, whose unfiltered livestream videos captivated a new generation of stock market enthusiasts. theme. A lucky moment occurs and they take advantage of it to change their fate. Consider how Diane von Furstenberg saw Julie Nixon Eisenhower on TV wearing a matching skirt and top, and created the timeless, elegant wrap-dress. That was a “click moment” of unexpected opportunity. Johansson uses stories from throughout history to illustrate the specific actions we can take to create more click moments, place lots of high-potential bets, open ourselves up to chance encounters, and harness the complex forces of success that follow.

the shores of a mysterious, putrid lake the elderly residents there call “Big Girl.” In a rotting honeycomb of rooms, these old ones plot actions to punish corporations and people they consider culpable in the destruction of the final scraps of nature’s beauty. What will Kristen and Jeffrey, the precocious ten-year-old boy she meets there, learn from this “gabby seditious lot, in the worst of health but with kamikaze hearts, an army of the aged and ill, determined to refresh, through crackpot violence, a plundered earth”? Rivetingly strange and beautiful, and delivered with Williams’s searing, deadpan wit, Harrow is their intertwined tale of paradise lost and of their reasons—against all reasonableness—to try and recover something of it.

One mistake can shatter dreams and shape the future. Alexis knows this first hand. Even though her memory of that day is hazy, she has spent the last ten years trying to put it behind her. Armed with the knowledge that her career will be her only legacy, Alexis works night and day to prove that she is more than just her last name. It's not only that she doesn't have time for love. She doesn't have the heart for it. After all, there's no point in starting something you can't finish. When she meets Adam, she's drawn to him in a way even she can't deny. The film student is dark and brooding and strangely charming. He's the perfect distraction from her mundane life. And, as if fate is pushing them together, he seems to be around every corner. It's enough to almost make her entirely forget about her past and take a chance. But Adam can recall every detail that she's forgotten. What she doesn't remember, he can't forget.

A job is never just a job. It is always connected to a deep and invisible process of finding meaning in life through work. In Thomas Moore's groundbreaking book *Care of the Soul*, he wrote of "the great malady of the twentieth century...the loss of soul." That bestselling work taught readers ways to cultivate depth, genuineness, and soulfulness in their everyday lives, and became a beloved classic. Now, in *A Life's Work*, Moore turns to an aspect of our lives that looms large in our self-regard, an aspect by which we may even define ourselves—our work. The workplace, Moore knows, is a laboratory where matters of soul are worked out. *A Life's Work* is about finding the right job, yes, and it is also about uncovering and becoming the person you were meant to be. Moore reveals the quest to find a life's work in all its depth and mystery. All jobs, large and small, long-term and temporary, he writes, contribute to your life's work. A particular job may be important because of the emotional rewards it offers or for the money. But beneath the surface, your labors are shaping your destiny for better or worse. If you ignore the deeper issues, you may not know the nature of your calling, and if you don't do work that connects with your deep soul, you may always be dissatisfied, not only in your choice of work but in all other areas of life. Moore explores the often difficult process—the obstacles, blocks, and hardships of our own making—that we go through on our way to discovering our purpose, and reveals the joy that is our reward. He teaches us patience, models the necessary powers of reflection, and gives us the courage to keep going. *A Life's Work* is a beautiful rumination, realistic and poignant, and a

comforting and exhilarating guide to one of life's biggest dilemmas and one of its greatest opportunities.

Our common belief in business is that the heart has no place in workplace management. In fact, most of us were taught that the heart acts like Kryptonite in leadership: it inherently undermines a manager's effectiveness and lowers productivity and profitability. In this stunning and groundbreaking work, however, engagement expert, Mark C. Crowley, provides irrefutable proof that we were wrong. Crowley begins by showing us how traditional leadership practices are failing. Across the globe, employee engagement and job satisfaction scores have fallen to crisis levels. According to astonishing research from Gallup, 70% of the US workforce is now disengaged. It once was that a job and a paycheck kept workers satisfied and productive. Today, pay barely makes the list of what inspires people to put their hearts into their work and contribute to their highest capacity. Right before our eyes, human beings have evolved in what they need and want in exchange for work. 21st Century employees are seeking to find purpose, meaning and feelings of significance. What drives their engagement is feeling valued, respected, developed and cared for. Crowley's profound insight draws upon recent medical science discoveries which prove it's the heart, and not the mind, that drives human motivation and achievement. There's nothing soft about *Lead From The Heart*. It represents the future of workplace management and a roadmap to driving uncommon engagement, productivity and

"This book is game changing in a way I have never seen in a business book. I learned about myself and gained new insights into the work I've been doing for thirty years. It is a spectacular read." – John Riccitiello, CEO, Electronic Arts This is not a management book. This is a book for managers. Ever have the feeling that no matter how rewarding your job is that there's an entirely different level of success and fulfillment available to you? Linger in the mist, just out of reach... There is, and Stan Slap is going to help you get it. You hold in your hands the book that entirely redraws the potential of being a manager. It will show you how to gain the one competency most critical to achieving business impact, but it won't stop there. This book will put a whole new level of meaning into your job description. You will never really work for your company until your company really works for you. Bury My Heart at Conference Room B is about igniting the massive power of any manager's emotional commitment to his or her company-worth more than financial, intellectual and physical commitment combined.

Sometimes companies get this from their managers in the early garage days or in times of tremendous gain, but it's almost unheard of to get it on a sustained, self-reinforced basis. Of course your company is only going to get it if you're willing to give it. Slap proves that emotional commitment comes from the ability to live your deepest personal values at work and then provides a remarkable process that allows you to use your own values to achieve tremendous success. This is not soft stuff; it is the stuff of hard-core results. Bury My Heart at

Conference Room B is the highest-rated management development solution at a number of the world's highest-rated companies—companies that don't include "patience" on their list of corporate values. It has been exhaustively researched and bench tested with tens of thousands of real managers in more than seventy countries. You'll hear directly from managers about how this legendary method has transformed their careers and their lives. As Big as It Gets Stan Slap is doing nothing less than making the business case for a manager's humanity—for every manager and the companies that depend on them. Bury My Heart at Conference Room B gives managers the urgency to change their world and the energy to do it. It will stir the soul, race the heart, and throb the foot used for acceleration. Buckle Up. We're Going Off-Road. Slap is smart, provocative, wickedly funny and heartfelt. He fearlessly takes on some of the most cherished myths of management for the illogic they are and celebrates the experience of being a manager in all of its potential and potential weirdness. And he talks to managers like they really talk to themselves.

Imagine that you are a corporate executive or small business owner in a midwestern city under water after weeks of extreme weather and drenching rainfall. Infrastructure has been damaged beyond repair, transportation arteries are closed, and your supply chain is broken. Families have been driven from homes, food and water are in short supply, and people are becoming unruly. Government agencies are not in a position to help. Declining revenue and partisan antipathy fueled by ideological differences have eroded confidence in government. The city is in total disrepair and unable to deliver desperately needed services. It is edging toward implosion and community leaders have turned to you for help. Catastrophe that would have been unthinkable in earlier times is a reality in a world coming out of pandemic and facing

existential threats such as climate change, inequality and global conflict. *Catastrophic Risk: Business Strategy for Managing Turbulence in a World at Risk* challenges business to step up and assume a pivotal role with communities under stress due to prolonged exposure to risk. When powerful societal forces meet behavior that deters response to risk, the consequences of risk are exacerbated. The compounding effect of behavior on risk has opened an important role for business in mobilizing people and communities in times of crisis. It is a role that cannot be fulfilled, however, without purpose, strategy and plans sufficiently robust to overcome the threat of risk. To prosper in this environment, business will need to make a significant contribution to society as well as to deliver financial performance. For companies, this will mean involvement in community in ways that significantly depart from current practice. For leaders, it will mean new skills—contextual sensitivity, a greater understanding of behavioral dynamics, and enhanced capacity to relate to people on an emotive basis. This book is about the relationship between risk, societal forces and human behavior—a relationship informed by the sciences that is critically important for business. Its goal is two-fold: to bring catastrophic risk to the world of business and to further business engagement in service to the common good.

“A profoundly illuminating account of how the brain works ... Rebecca Schwarzlose is a neuroscientist with a novelist's literary flair.”—Cass R. Sunstein, author of *Too Much Information* A path-breaking journey into the brain, showing how perception, thought, and action are products of maps etched into your gray matter—and how technology can use them to read your mind. Your brain is a collection of maps. That is no metaphor: scrawled across your brain's surfaces are actual maps of the sights, sounds, and actions that hold the key to your

survival. Scientists first began uncovering these maps over a century ago, but we are only now beginning to unlock their secrets—and comprehend their profound impact on our lives. Brain maps distort and shape our experience of the world, support complex thought, and make technology-enabled mind reading a modern-day reality, which raises important questions about what is real, what is fair, and what is private. They shine a light on our past and our possible futures. In the process, they invite us to view ourselves from a startling new perspective. ? In *Brainscapes*, Rebecca Schwarzlose combines unforgettable real-life stories, cutting-edge research, and vivid illustrations to reveal brain maps' surprising lessons about our place in the world—and about the world's place within us.

The visionary entrepreneur and inventor shares an inspirational blueprint for promoting personal success and fulfillment, sharing stories from her childhood, family, and career experiences that illustrate how healthier perspectives can significantly improve one's life. Twelve-year-old Henry's grand adventures spell disaster for best chums Riley and Reed, who always seems to land in a pile of "smelly goo."

"Rich Sheridan's JOY, INC told the story of how his tiny software company in Ann Arbor, Michigan achieved success and renown by embracing offbeat culture and human-centered values. of purpose to their work building others"--

A fundamental shift is underway that will change how we conceive of value. In an era of increasing interconnectedness, individuals, as opposed to institutions, stand at the center of value creation. To adapt to this tectonic shift, organizations can no longer unilaterally devise products and services. They must engage stakeholders—from customers and employees to suppliers, partners, and citizens at large—as co-creators. Co-creation guru Venkat Ramaswamy and Kerimcan Ozcan call for enterprises to be mindful of lived experiences, to build engagement platforms and management systems that are designed for creative collaboration, and to develop "win more-win more" strategies that enhance our wealth, welfare, and, well-being. Richly illustrated with examples of co-creation in action, *The Co-Creation Paradigm* provides a blueprint for the co-creative enterprise, economy, and society, while presenting a conceptual framework that will guide organizations across sectors in adopting this transformational approach. Challenging some of our most deeply held ideas about business and value, this book outlines the future of "business as usual."

Solving today's environmental and sustainability challenges requires more than expertise and technology. Effective solutions will require that we engage with other people, wrestle with difficult questions, and learn how to adapt and make confident decisions despite uncertainty. We need new approaches to leadership that empower professionals at all levels to tackle wicked problems and work towards sustainability. *Leadership for Sustainability* gives readers perspective and skills for promoting creative and collaborative solutions. Blending systems thinking approaches with leadership techniques, it offers dozens of strategies and specific practices that build on the foundation of three main skills: connecting, collaborating, and

adapting. Inspiring case studies show how the book's strategies and principles can be applied to diverse situations: Coordinating the activities of widely dispersed individuals and groups who may not even know they are connected, illustrated by the work of urban planners, local businesses, citizens, and other stakeholders advancing ambitious climate action goals via a Community Energy Plan in Arlington County, Virginia Collaborating with diverse stakeholders to span boundaries despite their differences of opinion, expertise, and culture, as illustrated by the bold actions of a social entrepreneur who transformed the global food service industry with the "plant-forward" movement Adapting to continuous change and confounding uncertainty, as a small nonprofit organization mobilizes partners to tackle poverty, water scarcity, sanitation, and climate change in rural India Readers will come away with a holistic understanding of how to lead from where they are by applying leadership principles and practices to a wide range of wicked situations. While the challenges we face are daunting, the authors argue that these situations present opportunities for creating a more just, healthy, and prosperous world.
