Tulsian's Quick Revision for Financial Accounting is a self-study handbook. Loaded with practical questions, this book is a perfect revision text - comprises structured questions based on pattern and scheme adopted in examinations.

US foreign policy during the Cold War has been analysed from a number of

perspectives, generating large bodies of literature attempting to explain its origins, its development and its conclusion. However, there are still many questions left only partially explained. In large part this is because these accounts restrict themselves to a single level of analysis, either the international system, or the structure of the state and society. The first level of analysis, focusing on the role of individuals, has largely been excluded. This book argues that structural theories, and any approach that limits itself to one level of analysis, are inadequate to explain the development of US foreign policy. Instead, it is necessary to incorporate the first level of analysis in order to bring human agency back and provide a more detailed explanation of US foreign policy. Bilisland proposes an analytical framework which incorporates presidential agency into a multi-level analysis of US foreign policy during the Cold War, constructing a multi-level case study comparison of the foreign policies of Presidents Truman and Reagan. He argues that the worldview of the president is central to agenda setting in US foreign policy making and that the management style of the president influences both decision-making and the implementation of US foreign policy. Evidence to support this is drawn from detailed empirical analysis of Truman's foreign policy of containment in Korea and Reagan's foreign policy of rollback in Nicaragua. This work will be of interest to students and scholars of US Foreign Policy, US History and International Relations Anthropology Previous Question Papers NET JRF UGC CBSE Net Jrf previous year solved papers, net jrf paper 1 and paper 2, net jrf paper – I and paper-II, teaching and research aptitude paper -1, paper – I, net jrf exam guide manual books, net jrf previous year questions mcq

The OECD Science, Technology and Industry Outlook 2014 reviews key trends in science, technology and innovation (STI) policies, and performance in more than 45 economies, including OECD countries and major emerging economies.

The Kurds, once marginal in the study of the Middle East and secondary in its international relations, have moved to center stage in recent years. In Turkey, where the Kurdish question is an issue of national significance, and in Iraq, where the gains made by the Kurdistan Regional Government have allowed it to impose its authority, moves are afoot to solve 'the Kurdish Question' once and for all. In Syria, where the Kurds have borne the brunt of the Islamic State's onslaught as they defended their three self-declared cantons of Afrin, Kobane, and Cezire, and in Iran, where they struggle to express their cultural distinctiveness and suffer disproportionately at the hands of the Islamic Republic's security and intelligence services, the picture is less positive. Yet the situations in both countries remain in flux, affected by developments in

Iraq and Turkey in a manner that suggests we may have to revise the notion of the Kurds being forever divided by the boundaries of the Middle East and subsumed into the state projects of other nations. The contributors to *The Kurdish Question Revisited* offer insights into how this once seemingly intractable, immutable phenomenon is being transformed amid the new political realities of the Middle East.

With its comprehensive coverage of political and security matters, human rights issues, economic and social questions, legal issues, and administrative and budgetary matters, the Yearbook of the United Nations stands as the authoritative reference work on the annual activities and concerns of the Organization. Fully indexed, the Yearbook includes all major General Assembly, Security Council and Economic and Social Council resolutions and decisions, uniquely placing them in a narrative context of United Nations consideration, deliberation and action. This sixty-eighth volume presents the work of the United Nations in dealing with recurring conflicts with severe humanitarian consequences including in the Syrian Arab Republic, where more than 12 million people were in need of basic food, clothing and shelter. The volume also highlights the Organization's rapid response to an escalatory global health emergency—the Ebola virus disease outbreak across West Africa. It documents the Organization's coordination of policy discussions to finalize a global sustainable development agenda, with the security of future generations as the core concern; and its efforts to rebuild societies emerging from conflict while keeping the fragile peace in other places. It further details the entry into force of the landmark Arms Trade Treaty, the missile downing of a passenger airliner in the midst of a geopolitical crisis in eastern Ukraine, and securing international human rights and humanitarian law and prosecuting abusers.
