When Mastin Kipp found himself at rock bottom—addicted to drugs and parties, living in the tiny pool house of his ex-girlfriend's parents, jobless, and with nowhere to go—he looked to the divine for help. What he found moved him from a life filled with the excesses of Hollywood—as a manager in the music industry—to one powered by self-acceptance and service. To spread the love beyond his personal circle, Mastin started his Twitter account, @TheDailyLove (now with more than half a million followers), and his popular website, TheDailyLove.com, which features writers from many walks of life—from Russell Simmons to Wayne W. Dyer. Now Mastin has written a book based on his spiritual experiences in order to help other young seekers discover their own paths. In *Daily Love*, Mastin shares some of his personal stories of darkness and light, embracing them all as part of his journey to becoming who he really is. He also speaks of various spiritual leaders who have influenced his life, such as Joseph Campbell, Caroline Myss, Tony Robbins, George Lucas, Oprah, his parents, and Jenna (his girlfriend). Giving details about the concepts and spiritual principles they put forth, he shows how these people have helped to guide him to success.

The grandson of the famous World War II general discusses a little-known chapter of U.S. military history and describes how American privateering, or pirating, during the Revolutionary War ravaged the British economy and helped America win independence. Reprint. Like speech, the species-specific vocalizations or calls of non-human primates mediate social interactions, convey important emotional information, and in some cases refer to objects and events in the caller's environment. These functional similarities suggest that the selective pressures which shaped primate vocal communication are similar to those

Carolyn Haywood's stories about her irrepressible character Betsy have never been out of print, and now, thanks to dynamic new covers, the Betsy books will find their way onto the bookshelves of modern young readers—and into the hearts of a whole new generation. Betsy is scared about going to first grade, but it turns out school is a great place. She learns about tadpoles and the true meaning of Thanksgiving, makes new friends, and has more fun than she'd ever imagined.

Communication is both a prerequisite and manifestation of social organization and in this sense several chapters of this volume are aimed to investigate the way vocal communication serves its ultimate function of maintaining social organization. Although manifold parallels exist to vocal communication in birds, additional mechanisms of vocalization are found in primates. Treating the various psychological, ecological, behavioral, and neurobiological aspects of vocalization this book provides an interdisciplinary approach for the understanding of biocommunication in primates including humans. Conceptual as well as methodological considerations are given in a balanced way. The addition of a comprehensive glossary gives an overview also to nonspecialists in this field.

"Black Liberation/Red Scare is a study of an African-American Communist leader, Ben Davis, Jr. (1904-64). Though it examines the numerous grassroots campaigns that he was involved in, it is first and foremost a study of the man and secondarily a study of the Communist party from the 1930s to the 1960s. By examining the public life of an important party leader, Gerald Horne uniquely approaches the story of how and why the party rose - and fell." "Ben Davis, Jr., was the son of a prominent Atlanta publisher and businessman who was also the top African-American leader of the Republican party until the onset of the Great Depression. Davis was trained for the black elite at Morehouse, Amherst, and Harvard Law School. After graduating from Harvard, he joined the Communist party, where he remained as one of its most visible leaders for thirty years. In 1943, after being endorsed by his predecessor, Adam Clayton Powell, Jr., he was elected to the New York City Council from Harlem and subsequently reelected by a larger margin in 1945. Davis received support from such community figures as NAACP leader Roy Wilkins, boxer Joe Louis, and musician Duke Ellington. While on the council Davis fought for rent control and progressive taxation and struggled against transit fare hikes and police brutality." "With the onset of the Red Scare and the Cold War, Davis - like the Communist party itself - was marginalized. The Cold War made it difficult for the U.S. to compete with Moscow for the hearts and minds of African-Americans while they were subjected to third-class citizenship at home. Yet in return for civil rights concessions, African-American organizations such as the NAACP were forced to distance themselves from figures such as Ben Davis. In 1949 he was ousted unceremoniously (and perhaps illegally) from the City Council. He was put on trial, jailed in 1951, and not released until 1956, when the civil rights movement was gathering momentum. His friendship with the King family, based upon family ties in Atlanta, was the ostensible cause for the FBI surveillance of Dr. Martin Luther King, Jr. and COINTELPRO, the counterintelligence program of the FBI, which was aimed initially at the CP-USA, made sure to keep a close eye on Davis as well. But when the civil rights movement reached full strength in the 1960s Davis's controversial appearances at college campuses helped to set the stage for a new era of activism at universities." "Davis died in 1964. According to Horne, the time has now come when he, along with his good friend Paul Robeson and W. E. B. DuBois, should be regarded as a premier leader of African-Americans and the U.S. Left during the twentieth century."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. This practical manual for teaching acting is really a drama course or two in a book, and can be used by veteran teachers, new teachers, actors from junior high through college, and little theater groups. Written by an award-winning high school drama teacher with over twenty-five years of experience, it contains both an introductory course and an advanced course, in a lesson-by-lesson format, as well as sections on scene study and relaxation/warm-up exercises which are basic to both. These separate courses are sequential and cumulative but complement each other and are adaptable to any group. Each lesson - twenty-nine in the beginning course, and forty in the advanced - includes lists of materials needed, step-by-step procedures, and outlines of the objectives, all tempered with the practical advice of a wise and compassionate teacher. Sample charts, diagrams, forms, and worksheets are here, too. Theater games found in the introductory course may be used as warm-ups, or, in fact, entire classes, in either of the two courses. But apart from teaching acting techniques; blocking; stage areas; creating characters; improvisation; and all the skills of the stage, Mr. Schlusberg never loses sight of the fact that theater is meant to encourage growth. With subtlety and deftness he shows how acting training can increase awareness of character, environment, senses, and emotions in developing more fulfilled human beings.

An important work of early New Guinea anthropology, including a whole chapter devoted to the Aborigines of Melville Island, Port Essington (Cobourg Peninsula) and North Australia in general. There are numerous discussions of Australian Aborigines throughout the text, and one of the folding plates gives anthropometric comparisons between North Australian Aborigines and New Guineans. Earl lived at Port Essington for more than ten years, as the settlement grew from a meagre outpost in 1838 up until its abandonment in 1849 and became a widely published expert on the region. The fine full-page lithographs, produced in London, were based on drawings done on the spot by the Dutch artists Van Oort and Van Raalten.

"In the fall, I went for walks and brought home bones. The best bones weren't on trails—deer and moose don't die conveniently—and soon I was wandering so far into the woods that I needed a map and compass to find my way home. When winter came and snow blew into the mountains, burying the bones, I continued to spend my days and often my nights in the woods. I vaguely understood that I was doing this because I could no longer think; I found relief in walking up hills. When the night temperatures dropped below zero, I felt visited by necessity, a baseline purpose, and I walked for miles, my only objective to remain upright, keep moving, preserve warmth. When I was lost, I told myself stories . . ." So Charles D'Ambrosio recounted his

life in Philipsburg, Montana, the genesis of the brilliant stories collected here, six of which originally appeared in *The New Yorker*. Each of these eight burnished, terrifying, masterfully crafted stories is set against a landscape that is both deeply American and unmistakably universal. A son confronts his father's madness and his own hunger for connection on a misguided hike in the Pacific Northwest. A screenwriter fights for his sanity in the bleak corridors of a Manhattan psych ward while lusting after a ballerina who sets herself ablaze. A Thanksgiving hunting trip in Northern Michigan becomes the scene of a haunting reckoning with marital infidelity and desperation. And in the magnificent title story, carpenters building sets for a porn movie drift dreamily beneath a surface of sexual tension toward a racial violence they will never fully comprehend. Taking place in remote cabins, asylums, Indian reservations, the backroads of Iowa and the streets of Seattle, this collection of stories, as muscular and challenging as the best novels, is about people who have been orphaned, who have lost connection, and who have exhausted the ability to generate meaning in their lives. Yet in the midst of lacerating difficulty, the sensibility at work in these fictions boldly insists on the enduring power of love. D'Ambrosio conjures a world that is fearfully inhospitable, darkly humorous, and touched by glory; here are characters, tested by every kind of failure, who struggle to remain human, whose lives have been sharpened rather than numbed by adversity, whose apprehension of truth and beauty has been deepened rather than defeated by their troubles. Many writers speak of the abyss. Charles D'Ambrosio writes as if he is inside of it, gazing upward, and the gaze itself is redemptive, a great yearning ache, poignant and wondrous, equal parts grit and grace. A must read for everyone who cares about literary writing, *The Dead Fish Museum* belongs on the same shelf with the best American short fiction.
