PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling

community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid

running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

A book for everybody in India and abroad who wants to know anything about the Constitution of India during its first fifty years. Meets the requirements of the various Universities of India for the LL.B., LL.M., B.A. and M.A. (Political Science) and Competitive examinations held by the Union and State Public Service Commissions. Jose Carlos Mariategui is one of Latin America's most profound but overlooked thinkers. A self-taught journalist, social scientist, and activist from Peru, he was the first to emphasize that those fighting for the revolutionary transformation of society must adapt classical Marxist theory to the particular conditions of Latin American. He also stressed that indigenous peoples must take an active, if not leading, role in any revolutionary struggle. Today Latin America is the scene of great social upheaval. More progressive governments are in power than ever before, and grassroots movements of indigenous peoples, workers, and peasants are increasingly shaping the political landscape. The time is perfect for a rediscovery of Mariategui, who is considered an intellectual precursor of today's struggles in Latin America but virtually unknown in the English-speaking world. This volume collects his essential writings, including many that have never been translated and some that have never been published. The scope of

Rules thinker"--

Yoga is flying across the shores of Bharatha all over the world like an eagle. The entire humanity needs yoga today. If going after Yoga to get rid of diseases is one dimension, using Yoga to make our body healthy so that we can enjoy material pleasures is the other dimension. This was not what those great Rshis who evolved Yoga had in mind. Yoga is another name for pure living. If man lives, being aware of the purpose for which he was created, what else can it be excepted in Yoga? Human body is a temple. In a larger sense, it is the dwelling place of gods. Whatever one finds in the world is present in the human body. We have 72,000 Nerves in the body, also we have 72,000 Nadies which are subtle channels and centres of energy. We get a detailed account of these in books on Hatayoga. In this background Mudras and Bandhas occupy a place of great significance. We have a considerably difficult challenge to convert this Annamaya body into one, the object of which is Dharma Sadhana. Kalidasa has announced, "Shareeramadyam khalu dharma sadhanam". Our sages have said, "Manaeva manushyanam karanam bandha mokshayoho" Our mind is the cause of both Bandha and Moksha. In that case how can we make use of the techniques available to us to the best of our advantage? "Mudras" help us to keep our body and mind pure and chaste. They are tools to lead us to life fulfilment. When we activate the nerve and nadi centres in the body, they make the flow of energy smooth. Our body is a fantastic machine designed by the Creator. He has set in it a super computer called the 'Brain'. All the

activities in our body are controlled by the Mind. The pressure exerted on certain key points in the body and in hands, energises the centres in the brain. We have come to know this truth as a result of experiments conducted in different parts of the world. Acupressure specialists assert that if we activate certain points in the legs, hands and ears, we can ward off a number of disorders of the body. In our ancient Tantra Marga we hear about "Khechari Mudra". During five thousand years after sage Vedavyasa, our ancestors have devised a number of ways to help man keep himself fit. They are simple and workable. We get a sea of information about Mudra Science in a number of books on Yoga shastra and Tantra Shastra. In a few of our epics also, we get references to these Mudras.
