A legendary painting by Rembrandt forms the centerpiece of this exploration of self-portraits by leading artists of the twentieth and twenty-first centuries.

Published to commemorate an exhibition presented by Gagosian in partnership with English Heritage, this stunning volume centers on Rembrandt's masterpiece *Self-Portrait with Two Circles* (c. 1665), from the collection of Kenwood House in London. The painting is considered to be Rembrandt's greatest late self-portrait and is accompanied here by examples of the genre from leading artists of the past one hundred years. These include works by Francis Bacon, Jean-Michel Basquiat, Lucian Freud, and Pablo Picasso, as well as contemporary artists such as Georg Baselitz, Glenn Brown, Urs Fischer, Damien Hirst, Howard Hodgkin, Giuseppe Penone, Richard Prince, Cindy Sherman, and Rudolf Stingel, among others. Also featured is a new work by Jenny Saville, created in response to Rembrandt's masterpiece. Full-color plates of the works, generous details, and installation views of the exhibition accompany an expansive essay by art historian David Freedberg that provides a close look at the self-portraits created by Rembrandt throughout his life and considers the role of the Dutch master as the precursor of all modern painting.

How can you become a more successful manager, a stronger team leader and a motivator who gets the best results from a group? Ken Blanchard's inspiring new book provides the answer. In a beguiling, sometimes humorous fashion, THE LEADERSHIP PILL conjures up a tantalizing possibility: What if there was a pill that could stimulate the natural powers of the mind and body to provide leadership? In the story, an amazing new pill heightens one leader's powers, but contains the wrong ingredients, stimulating him in a short-sighted direction. He is coercive, obsessed with immediate results and drives his team relentlessly until, after a brief spike in performance, they suffer early burnout. In contrast, the 'Effective Leader', working without a pill, inspires and supports his team. He supplies the right ingredients, earning the respect and trust of his team with a blend of integrity, partnership and affirmation. Ultimately it is recognised that there is more to effective leadership than a wonder 'pill'. Destined to be a transforming experience for thousands of readers, THE LEADERSHIP PILL shows how to apply the right techniques, no matter how pressured a business situation.

As Ruskin suggests in his *Seven Lamps of Architecture*: "We may live without [architecture], and worship without her, but we cannot remember without her." We remember best when we experience an event in a place. But what happens when we leave that place, or that place no longer exists? This book addresses the relationship between memory and place and asks how architecture captures and triggers memory. It explores how architecture exists as a material object and how it registers as a place that we come to remember beyond the physical site itself. It questions what architecture is in the broadest sense, assuming that it is not simply buildings. Rather, architecture is considered to be the mapping of physical, mental or emotional space. The idea that we are all architects in some measure - as we actively organize and select pathways and markers within space - is central to this book's premise. Each chapter provides a different example of the manifold ways in which the physical place of architecture is curated by the architecture in our "mental" space: our imaginary toolbox when we think of a place and look at a photograph, or visit a site and describe it later or send a postcard. By connecting architecture with other disciplines such as geography, visual culture, sociology, and urban studies, as well as the fine and performing arts, this book puts forward the idea that a conversation about architecture is not exclusively about formal, isolated buildings, but instead must be deepened and broadened as spatialized visualizations and experiences of place.

Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games. Located roughly 4 miles west of downtown Nashville and bordered by Charlotte Pike, Richland Creek, and the railroad lines, the area now known as Sylvan Park has a fascinating history.

The pioneer "Father of Nashville," Gen. James Robertson named it "Rich Land" and claimed it for his homestead. Natural springs, rich soil, and abundant game made it valuable to early Native Americans, pioneers, and plantation owners. The 1887 grand opening of the area as a residential development included the firing of cannon and a brass band. Envisioned as an independent satellite city of Nashville, the area became home to businesses, schools, grocery stores, and churches. Businesses that started here included one of the most famous makers of jeans and one of the most famous makers of doughnuts. The deadliest train accident in American history happened here in 1918, a catastrophic head-on collision between ponderous iron behemoths at a combined speed of 110 miles per hour. Images of America: Nashville's Sylvan Park includes more than a dozen previously unpublished pictures of the aftermath.
