The Walk-On Method features 31 underdog athletes who parlayed their college experience into habits that led to career and business success. While each walk-on's individual path is unique, the mindset, skills, and behaviors they developed and the post-college outcomes they achieved are similarly remarkable. These athletes applied The Walk-On Method first to college football, basketball, rowing, golf, or track & field, and then they parlayed that behavior pattern into success in business ownership, engineering, coaching, law, finance, broadcasting, medicine, insurance, film, management, education, banking, acting, and ministry. These former walk-ons were behaving subconsciously, unaware that scrambling to make a college sports team and fighting to keep their roster spot was foundational to their life's work. Going the extra mile in their profession is second nature, and they wonder why others don't take that same (and seemingly obvious) path. Most people don't realize they're in control of their career trajectory. When we read about a successful person, their accomplishments are often painted as a one-in-a-billion anomaly, a lightning strike of genius or opportunity. This book destroys those myths one walk-on success story at a time and reveals this important reality: your professional success is within your control. Ordinary people will accomplish extraordinary feats when their energy is properly channeled. The Walk-On Method To Career & Business Success shows you how through inspiring stories and the proven five-step Walk-On Method.

Gender equity in Islam presents an overview of the status and rights of Muslim women as defined by the Qur'an and Sunnah. Dr. Badawi examines the spiritual, social, economic and political aspects of women's position in Islam and, in doing so, effectively summarizes the role of women in Muslim society.

The nation of Pakistan was born out of the trauma of Partition from India in 1947. Its cricket team evolved in the chaotic aftermath. Initially unrecognised, underfunded and weak, Pakistan's team grew to become a major force in world cricket. Since the early days of the Raj, cricket has been entwined with national identity and Pakistan's successes helped to define its status in the world. Defiant in defence, irresistible in attack, players such as A.H.Kardar, Fazal Mahmood, Wasim Akram and Imran Khan awed their contemporaries and inspired their successors. The story of Pakistan cricket is filled with triumph and tragedy. In recent years, it has been threatened by the same problems affecting Pakistan itself: fallout from the 'war on terror', sectarian violence, corruption, crises in health and education, and a shortage of effective leaders. For twenty years, Pakistan cricket has been stained by the scandalous behaviour of the players involved in match-fixing. Since 2009, the fear of violence has driven Pakistan's international cricket into exile. No one knows when it will return home. But Peter Osborne's narrative is also full of hope. For all its troubles, cricket gives all Pakistanis a chance to excel and express themselves, a sense of identity and a cause for pride in their country. Packed with first-hand recollections, and digging deep into political, social and cultural history, Wounded Tiger is a major study of sport and nationhood.

In Mordin On Time, Nick Mordin sets out his method for answering the most fundamental question facing punters in any race, namely: which is the fastest horse? He was timing the sections of races with a stop watch, estimating wind strength and direction, adjusting for movements of running rails, using projected times and calculating average times years before the best-selling American books on speed rating were published. This new edition incorporates much new material, including standard times for all Irish racecourses (plus the major French ones). Mordin On Time enables the reader to construct their own speed ratings wherever they live.
