Accessories which we use in alternative and old photographic processes are difficult to find and are sometimes quite expensive through regular sales channels. Most users, therefore, produce them at home, with the help of varied and sometimes quite conflicting information that can be found on the Internet. We try to some extent to overcome this lack of resources with this book, because in it are collected the most frequently used photographic tools, the operation of which has been verified in practice. As in all the books from the collection of Historical and Alternative Photography, the content of this book is also presented in an extremely comprehensible manner, since the procedures are described step-by-step, with rich pictorial support. The descriptions are presented without drawing plans, so that the devices can be adapted to the needs of readers who come from all over the world, and this regardless of the "standard" dimensions of different materials found in various countries. In the instructions where this is necessary, of course, the applied dimensions are written in both metric and imperial units.

The Unity of the Capitalist Economy and State A Systematic-Dialectical Exposition of the Capitalist System Historical Materialism

Rodgers and Hammerstein's Tony and Pulitzer Prize-winning musical "South Pacific" has remained a mainstay of the American musical theater since it opened in 1949, and its powerful message about racial intolerance continues to resonate with twenty-first century audiences. Drawing on extensive research in the Rodgers and the Hammerstein papers, including Hammerstein's personal notes on James A. Michener's Tales of the South Pacific, Jim Lovensheimer offers a fascinating reading of "South Pacific" that explores the show's complex messages and demonstrates how the presentation of those messages changed throughout the creative process. Indeed, the author shows how Rodgers and

especially Hammerstein continually refined and softened the theme of racial intolerance until it was more acceptable to mainstream Broadway audiences. Likewise, Lovensheimer describes the treatment of gender and colonialism in the musical, tracing how it both reflected and challenged early Cold War Era American norms. The book also offers valuable background to the writing of "South Pacific," exploring the earlier careers of both Rodgers and Hammerstein, showing how they frequently explored serious social issues in their other works, and discussing their involvement in the political movements of their day, such as Hammerstein's founding membership in the Hollywood Anti-Nazi League. Finally, the book features many wonderful appendices, including two that compare the original draft and final form of the classic songs "I'm Gonna Wash That Man Right Out-a My Hair" and "I'm In Love With a Wonderful Guy." Thoroughly researched and compellingly written, this superb book offers a rich, intriguing portrait of a Broadway masterpiece and the era in which it was created.

Liam Christianson is the devil-may-care, rhythm guitarist for Bayou Stix, the hottest rock band around. He's a playboy and likes to do things his way. No regrets. He knows that women love him, and he uses that to his advantage. He's cocky and shallow. Or so it seems. Clove Rodrigue is the baby sister of Liam's bandmate and friend. She's a sweet, fairly innocent young woman who was dealt a bad hand and became a victim of circumstance. After finishing culinary school, she returns home to Baton Rouge. She finds herself living under the same roof as Liam and they quickly realize they are like oil and water. He hates how perfect she is, and she can't stand his treatment of women. Both Liam and Clove are accustomed to letting others see only what they want them to see, each hiding behind false pretenses. What happens when polar opposites realize that their hatred of one another is really attraction? Will they succumb to the allure? What happens when the

things that you fight so hard against are the very things you need the most in the world?

Every person has a story, a personal narrative that informs their life, their decisions, and their way of thinking. But did you know that it also affects the wiring of your brain? Renowned psychiatrist and professor at Harvard Medical School John Sharp, M.D., offers an eight-step process to discovering your unconscious narrative and using your new insight to eradicate the "false truth" that has been at the core of your self-sabotage. His unique approach integrates four core domains of applied psychology—control mastery theory, attachment theory, narrative therapy, and positive psychology—with his own research and professional experience to construct an insightful and soul-searching path to insight. Throughout his step-by-

step process, Dr. Sharp provides: - The “Sharp Focus” to distill and emphasize important concepts - Quizzes to help you analyze your internal and external tendencies - “First Impressions” case studies from his professional practice - Awareness, insight, change, and narrative tools to facilitate your transformation - “Gut Checks” to help you figure out if you are ready to move on to the next step in the process Dr. Sharp’s approach is simple and accessible, with the power to wield profound results. Through exercises, quizzes, thorough exploration of case studies, and clear guidance, you will be able to find your false truth, rewrite your story, and transform your life. Once you have flipped the switch of insight, nothing can hold back the light that shines from within.

Brimming with humor, excitement, and the romance of the Yellowstone landscape, *Letters from Yellowstone* is a love letter to the joys of scientific discovery and America's majestic natural beauty, as well as a thoughtful reflection on environmentalism, Native American displacement, and feminism at the dawn of a new century.

Roman Egypt is a critical area of interdisciplinary research, which has steadily expanded since the 1970s and continues to grow. Egypt played a pivotal role in the Roman empire, not only in terms of political, economic, and military strategies, but also as part of an intricate cultural discourse involving themes that resonate today - east and west, old world and new, acculturation and shifting identities, patterns of language use and religious belief, and the management of agriculture and trade.

Roman Egypt was a literal and figurative crossroads shaped by the movement of people, goods, and ideas, and framed by permeable boundaries of self and space. This handbook is unique in drawing together many different strands of research on Roman Egypt, in order to suggest both the state of knowledge in the field and the possibilities for collaborative, synthetic, and interpretive research. Arranged in seven thematic sections, each of

which includes essays from a variety of disciplinary vantage points and multiple sources of information, it offers new perspectives from both established and younger scholars, featuring individual essay topics, themes, and intellectual juxtapositions.

From the author of *Fire and Fortitude*, a white-knuckle account of the 1st Infantry Division's harrowing D-Day assault on the eastern sector of Omaha Beach--acclaimed historian John C. McManus has written a gripping history that will stand as the last word on this titanic World War II battle. Nicknamed the Big Red One, 1st Division had fought from North Africa to Sicily, earning a reputation as stalwart warriors on the front lines and rabble-rousers in the rear. Yet on D-Day, these jaded combat veterans melded with fresh-faced replacements to accomplish one of the most challenging and deadly missions ever. As the men hit the beach, their equipment destroyed or washed away, soldiers cut down by the dozens, courageous heroes emerged: men such as Sergeant Raymond Strojny, who grabbed a bazooka and engaged in a death duel with a fortified German antitank gun; T/5 Joe Pinder, a former minor-league pitcher who braved enemy fire to save a vital radio; Lieutenant John Spalding, a former sportswriter, and Sergeant Phil Streczyk, a truck driver, who together demolished a German strong point overlooking Easy Red, where hundreds of Americans had landed. Along the way, McManus explores the Gap Assault Team engineers who dealt with the extensive mines and obstacles, suffering nearly a fifty percent casualty rate; highlights officers such as Brigadier General Willard

Wyman and Colonel George Taylor, who led the way to victory; and punctures scores of myths surrounding this long-misunderstood battle. *The Dead and Those About to Die* draws on a rich array of new or recently unearthed sources, including interviews with veterans. The result is history at its finest, the unforgettable story of the Big Red One's nineteen hours of hell--and their ultimate triumph--on June 6, 1944.

The most common way of constructing portfolios is to use traditional asset allocation strategies, which match the client's risk appetite to a weighted allocation strategy of fixed income, equities, and other types of assets. This method focuses on how the money is allocated, rather than on future returns. The Sortino method presents an innovative change from this traditional approach. Rather than using the client's risk as the main factor, this method uses the client's desired return.

- Only book to describe the Sortino method and Desired Target Return™ in a way that enables portfolio managers to adopt the method
- Software to implement the portfolio construction method is included free of charge to book buyers on a password protected Elsevier website. Book buyers can use the software to construct portfolios using this method right away, in real time. They can also load in their current portfolios and measure them against these measures.
- The Sortino method has been tested over 20 years at the Pension Research Institute. Portfolio managers can be confident of the success of the method, even returns in the economic crisis, in which the method has still beaten all S&P benchmarks.

Sergeant Steve Maharidge returned from World War II

an angry man. The only evidence that he'd served in the Marines was a photograph of himself and a buddy tacked to the basement wall. On one terrifyingly memorable occasion his teenage son, Dale, witnessed Steve screaming at the photograph: "They said I killed him! But I didn't kill him! It wasn't my fault!" After Steve died, Dale Maharidge began a twelve-year quest to face down his father's wartime ghosts. He found more than two dozen members of Love Company, the Marine unit in which his father had served. Many of them, now in their eighties, finally began talking about the war. They'd never spoken so openly and emotionally, even to their families. Through them, Maharidge brilliantly re-creates Love Company's battles and the war that followed them home. In addition, Maharidge traveled to Okinawa to experience where the man in his father's picture died and meet the families connected to his father's wartime souvenirs. The survivors Dale met on both sides of the Pacific Ocean demonstrate that wars do not end when the guns go quiet—the scars and demons remain for decades. *Bringing Mulligan Home* is a story of fathers and sons, war and postwar, silence and cries in the dark. Most of all it is a tribute to soldiers of all wars—past and present—and the secret burdens they, and their families, must often bear.

Somebody knows Otto's secret, and as comedy and tragedy combine he is transported back to his pre-American past in Germany, Zurich, and finally, Auschwitz. Winner of the National Jewish Book Award and finalist for the National Book Critics Circle Award, *The Prince of West End Avenue* was a critical sensation on its first publication in 1994. A youthful tale of geriatric amateur theatrics, its dramatic curtain call ensures this is one of the most powerful and affecting comedies of modern times.
