The Chicago, Rock Island & Pacific Railroad's history is one of big booms and bigger busts. When it became the first railroad to reach and then cross the Mississippi River in 1856, it emerged as a leading American railroad company. But after aggressive expansion and a subsequent change in management, the company struggled and eventually declared bankruptcy in 1915. What followed was a cycle of resurrections and bankruptcies; a grueling, ten-year, ultimately unsuccessful battle to merge with the Union Pacific; and the Rock Island's final liquidation in 1981. But today, long after its glory days and eventual demise, the "Mighty Fine Road" has left behind a living legacy of major and feeder lines throughout the country. In his latest work, railroad historian H. Roger Grant offers an accessible, gorgeously illustrated, and comprehensive history of this iconic American railroad.

Jerrilyn McGregory explores sacred music and spiritual activism in a little-known region of the South, the Wiregrass Country of Georgia, Alabama, and North Florida. She examines African American sacred music outside of Sunday church-related activities,

showing that singing conventions and anniversary programs fortify spiritual as well as social needs. In this region African Americans maintain a social world of their own creation. Their cultural performances embrace some of the most pervasive forms of African American sacred music—spirituals, common meter, Sacred Harp, shape-note, traditional, and contemporary gospel. Moreover, the contexts in which they sing include present-day observations such as the Twentieth of May (Emancipation Day), Burial League Turnouts, and Fifth Sunday. Rather than tracing the evolution of African American sacred music, this ethnographic study focuses on contemporary cultural performances, almost all by women, which embrace all forms. These women promote a female-centered theology to ensure the survival of their communities and personal networks. They function in leadership roles that withstand the test of time. Their spiritual activism presents itself as a way of life. In Wiregrass Country, “You don’t have to sing like an angel” is a frequently expressed sentiment. To these women, “good” music is God’s music regardless of the manner delivered. Therefore, Downhome Gospel presents gospel music as being more than a transcendent sound. It is local spiritual activism that is writ large. Gospel means joy, hope, expectation, and the good news that makes the soul glad.

"The Timber Construction Manual has become the definitive design and construction industry source for building with structural glued laminated timber. Revised to cover the 2011 National Design Specification for Wood from the

The contributions to this volume demonstrate how the principles of fiscal responsibility and individual accountability that have been applied to economic and social policies - essentially free market principles - can be applied successfully to environmental policy. The authors offer ten commonsense reforms as a starting point, all based on the compelling arguments that a new system of positive incentives can get us more environmental quality at lower cost. These reforms include land lease programs for nontraditional commodity production, long-term transferable land permits, landowner compensation for regulated endangered species property, and performance-based (as opposed to technology-based) water and air pollution laws.
