This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

3D surface representation has long been a source of information describing surface character and facilitating an understanding of system dynamics from micro-scale (e.g. sand transport) to macro-scale (e.g. drainage channel network evolution). Data collection has been achieved through field mapping techniques and the use of remotely sensed data. Advances in this latter field have been considerable in recent years with new rapid-acquisition methods being developed centered around laser based technology. The advent of airborne and field based laser scanning instruments has allowed researchers to collect high density accurate data sets and these are revealing a wealth of new information and generating important new ideas concerning terrain characterisation and landform dynamics. The proposed book collates a series of invited peer reviewed papers presented at the a conference on geoinformatics and LIDAR to be held at the National Centre for Geocomputation based in the National University of Ireland, Maynooth. Current constraints in field survey and DEM construction are reviewed together with technical and applied issues around the new technology. The utility of the data in process modelling is also covered. The book will be of great value to researchers in the field of geomorphology, geostatistics, remote sensing and GIS and will prove extremely useful to students and practitioners concerned with terrain analysis. The proposed work will: Highlight major technological breakthrough in 3D data collection. Feature examples of application across a wide range of environmental areas. Critically evaluate the role of laser based

techniques in the environment. Detail theory and application of laser techniques in the natural environment.

The author has also published Lally-May's Farm Suss (2007) and Granny dead (2018, winner Commonwealth Anthology Novel award, 2018).

A boy learns a lesson about the destructive power of gossip.

In an age of skepticism and disenchantment, people long for something that satisfies our mind's search for truth and our heart's desire for beauty and meaning. Stand Firm: Apologetics and the Brilliance of the Gospel argues that the gospel satisfies both of these needs. It is true and rational, but it is also inherently attractive and provides meaning and purpose. In short, the gospel is brilliant. It is brilliant, in one sense, because of the broad variety of evidences for its truth. But it is also brilliant given its beauty, goodness and the meaningful life it offers. The book provides up to date responses to questions about the existence of God, the reliability of the Bible, Jesus and the resurrection, and the problem of evil. It also treats unique topics such as understanding truth, knowledge and faith, the claims of alternate faiths, religious disagreement, etc. Each chapter attempts to connect these considerations with the gospel so that we may stand firm in our faith.

Sasaki Kojiro, renowned for his deadly swallow-cut, is the man destined to be sword-saint Miyamoto Musashi's greatest rival and opponent in the most well-known duel in the annals of Japanese history. This is the tale of Kojiro's path, in the aftermath of the Battle of Sekigahara.

Three great novels in one volume from the worldwide bestseller, Michael Connelly. The Overlook sees Harry Bosch plunged into the dangerous world of international terrorism. When a physicist is murdered in LA it seems the killer has no fear of publicity, leaving the body on The Mulholland overlook, a site with a stunning view over the city. And when it's discovered that the victim turned over a quantity of a lethal chemical to his killer before he died, Harry knows he has more than just a single death to worry about. Alongside the forces of Homeland Security, Harry realizes he must solve the murder or face unimaginable consequences. In Nine Dragons, the shooting of a Chinese liquor store owner in LA brings Harry Bosch back to the Rodney King riots and the moment a stranger gave a young cop sanctuary. Now, the debt must be repaid, and Harry soon discovers the old man's death was no ordinary holdup. Homing in on clues disregarded by the cops on the scene, Harry builds a picture of corruption and intimidation, with the local Triads at the heart of it. But as he tries to build a case and breach the impenetrable wall of silence in the local community, he finds he is taking a dragon by the tail - a dragon whose talons reach well beyond LA, and even the States. Suddenly the most precious thing in Harry's life is under threat, and he will need to leave the familiarity of his home turf, alone and without backup, if he is going to stop his worst nightmare from happening. Harry Bosch is facing the end of the line in The Drop. He's been put

on the Deferred Retirement Option Plan - and given three years before his retirement is enforced. Seeing the end of the mission coming, he's anxious for cases. He doesn't have to wait long. First a cold case gets a DNA hit for a rape and murder which points the finger at a 29-year-old convicted rapist who was only eight at the time of the murder. Then a city councilman's son is found dead - fallen or pushed from a hotel window - and he insists on Bosch taking the case despite the two men's history of enmity. The cases are unrelated but they twist around each other like the double helix of a DNA strand. One leads to the discovery of a killer operating in the city for as many as three decades; the other to a deep political conspiracy that reached back into the dark history of the police department.

This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

The men of the Bastion Club proved their bravery secretly fighting for their country. Now their leader faces that most dangerous mission of all: finding a bride. As the mysterious leader of the Bastion Club known as "Dalziel," Royce Varisey, tenth Duke of Wolverstone, served his country for decades, facing dangers untold. But as the holder of one of England's most august noble titles, he must now take on that gravest duty of all: marriage. Yet the young ladies the grand dames would have him consider are predictably boring. Far more tempting is his castle's willful and determinedly aloof chatelaine, Minerva Chesterton. Beneath her serene façade lies a woman of smoldering sensuality, one who will fill his days with comfort and his nights with sheer pleasure. Determined to claim her, he embarks on a seduction to prove his mastery over every inch of her body . . . and every piece of her heart.

"A superior book. . . . Many readers will be surprised to see that today's arguments about history education follow the culture wars that go back to almost the beginning of the republic. Moreau's writing is engaging, with brilliant flashes of insight, as well as balance and wit." -Gary B. Nash, Director of the National Center for History in the Schools Taking Frances FitzGerald's textbook study *America Revised* as a point of departure, Joseph Moreau in *Schoolbook Nation* challenges FitzGerald's premise that the 1960s were the beginning of the end of the glory days of American history education. Moreau recounts how in the late twentieth century, cultural commentators such as historian Arthur Schlesinger Jr. and politician Newt Gingrich preached that a new identity crisis had shaken American history in the sixties, and that the grand unified view of our past had given way to various interest groups, who dismantled the old national narrative

while demanding a more "inclusive" curriculum for their children. Moreau discovered, however, that American history, while grand, has never been unified. Delving into more than 100 history books from the last 150 years, the author reveals that the efforts of pressure groups to influence the history curriculum are nearly as old as the mustiest textbook. "For those who would influence textbooks and teaching-Protestant elites in the 1870s, Irish-Americans in the 1920s, and conservative politicians today-the sky has always been falling," according to Moreau. Schoolbook Nation offers a history lesson of its own: when the story of the past is written or rewritten, truth is often a victim. With its comprehensive treatment of the subjects of honesty and politics in the teaching of history, this is an essential book on the side of truth in a complex debate.

A decade ago, Tim Flannery's #1 international bestseller, *The Weather Makers*, was one of the first books to break the topic of climate change out into the general conversation. Today, Earth's climate system is fast approaching a crisis. Political leadership has not kept up, and public engagement with the issue of climate change has declined. Opinion is divided between technological optimists and pessimists who feel that catastrophe is inevitable. The publication of this new book is timed for the lead-up to the Climate Change Conference in Paris in December 2015, which aims to achieve a legally binding and universal agreement on climate from all the nations in the world. This book anticipates and will influence the debates. Time is running out, but catastrophe is not inevitable. Around the world people are now living with the consequences of an altered climate—with intensified and more frequent storms, wildfires, droughts and floods. For some it's already a question of survival. Drawing on the latest science, Flannery gives a snapshot of the trouble we are in and more crucially, proposes a new way forward, including rapidly progressing clean technologies and a "third way" of soft geo-engineering. Tim Flannery, with his inimitable style, makes this urgent issue compelling and accessible. This is a must-read for anyone interested in our global future.

In 2004 Dom Joly wrote a spoof autobiography called *Look At Me, Look At Me. In Here Comes the Clown*, he takes up the story of his life from 14th January 2000 when the very first episode of *Trigger Happy TV* aired on Channel 4 and everything changed for him. Suddenly he was famous; reality was weirder than any fiction he could conjure up. This is the story of what happened next, through snippets of recollections from his adventures in showbusiness...

This volume contains his two landmark books. Scientific Advertising--the classic primer still read by today's top copywriters--was originally written in 1923. Four years later, he finished his autobiography, My Life in Advertising.

Naketa West is not limited by geographic space neither will she fit into any stereotype. Her anthology takes you into an abyss of hurt and pain, love and hate, forgiveness and revenge. As the pages are turned she reveals the heart and soul of men and women and dances into her readers' subconsciousness. Naketa's journey into the catacombs of the readers' thoughts. Each reader will wonder who told her my story, her story, his story? Readers will dance to her "word tune" repeatedly while waiting for her new revelations of their experiences.

'Riot' is an intellectual and professional autobiography of the British artist and filmmaker Isaac Julien, whose trail-blazing career has moved through forms of documentary, biography, dance, narrative film, and multiscreen installation. Both visually sensuous and politically and socially engaged, Julien's films draw on influence as disparate as silent cinema, cultural studies, news stories, Chinese myth and popular music.

A.W. Tozer calls God the "Composer of the Cosmos," the "Chief Musician of the Universe." God signals the birds to chirp their beautiful tune in the coolness and tranquility of a spring morning, simply because that is what He designed them to do. Each note is wonderfully constructed by God, uniquely bringing praise to His name. With this inspiring perspective on worship, Tozer invites readers to take a deep look at the ways in which we worship and why. He reminds us that we were created solely for this purpose and that worshipping the Father and seeking His fellowship is our primary task. It is also His delight. The newest revised edition now includes "Worship: The Missing Jewel of the Evangelical Church," first published in the Alliance Life magazine in 1965, and still so profound today.

This powerful drama examines the fears of parents driven to do "the right thing" when the safety of their daughter is in doubt. A mother and father who learn that the next door neighbor is a convicted child molester consider both vigilance and vigilantism before being forced into action by a pair of child advocacy crusaders. The shocking climax hits a raw nerve, leaving the audience to consider where the line between right and wrong lies. The wildly inventive debut collection of stories by the Oscar-nominated star of The Social Network. "Hilarious . . . It's a hoot" (People, The Best New Books). Jesse Eisenberg, known for his iconic film roles, his regular pieces in the New Yorker and two critically acclaimed plays, proves himself "a deeply original comic voice" in these 28 stories" about the funniness, sadness, and strangeness of everyday life and they really made me laugh" (Roz Chast). Moving from contemporary LA to the dorm rooms of an American college to ancient Pompeii, Eisenberg throws the reader into a universe of social misfits, reimaged scenes from history, and ridiculous overreactions; a college freshman forced to live with a roommate is stunned when one of her ramen packets

goes missing (“She didn’t have ‘one’ of my ramens. She had a chicken ramen.”); Alexander Graham Bell has teething problems with his invention (“I’ve been calling Mabel all day, she doesn’t pick up! Yes, of course I dialed the right number—2!”); and in the title story, a precocious and privileged nine-year-old boy finds himself in the uncomfortable position as an amateur restaurant critic. Featuring illustrations by award-winning cartoonist Jean Jillian, this “alphabet soup of sketches, riffs, and innovations” (Seattle Times) explores the various insanities of the modern world, “playfully bringing both familiar and wholly original scenarios to life” (Marie Claire). The dangers of illegal drugs are well known and rarely disputed, but how harmful are alcohol and tobacco by comparison? What are we missing by banning medical research into magic mushrooms, LSD and cannabis? Can they be sources of valuable treatments? The second edition of *Drugs without the hot air* looks at the science to allow anyone to make rational decisions based on objective evidence, asking: \*What is addiction? Is there an addictive personality? \*What is the role of cannabis in treating epilepsy? \*How harmful is vaping? \*How can psychedelics treat depression? \*Where is the opioid crisis taking us?

The unique format allows the viewer to absorb each page individually or to hang the entire project. The visual testimony to the events of the the first days after the event are provided by award-winning photographer Ron Haviv and the essay by esteemed writer Simon Winchester.

*Hotel Gwales* is the eagerly anticipated new collection from award winning poet Nigel Jenkins. It is as diverse as it is rousing, featuring some eighty poems varying in length from a three-line Haiku to an extended meditation of nearly 400 lines. Welsh themes and references, ancient and modern, are interspersed with works of an undeniably international flavour to bring together this exceptional collection. From a poem commemorating the execution of a man known as the Welsh 'Braveheart' to an elegy for a Welsh bus driver, *Hotel Gwales* truly has something for everyone. *Hotel Gwales* offers Nigel Jenkins's distinctive voice at its best in his first collection of poetry in almost four years. Nigel is well known both in Wales and internationally and is a frequent performer of his work. He has previously undertaken reading tours of countries including the USA and Switzerland. His trademark experimentation with form and ability to engage with his subject is at its finest.

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. (Back cover).

“There has never been a book provoking more delirium, foolishness and irrational movements, without any relationship to Jesus Christ [than the Book of Revelation].” —Jacques Ellul, Introduction Known for his trenchant critique of modernity and of those Christians who celebrate their captivity to it, Ellul here cuts to the heart of the theological intention of the Book of Revelation, and thereby reveals the liberating gospel in all its offensiveness. Neither an exhaustive commentary nor a work of historical-exegetical analysis, Apocalypse is a provocative, independent interpretation. Ellul seeks to rescue Revelation from the reassuring and orthodox banality to which commentators often reduce it. The goal is to perceive the totality of the book in its movement and structure. “Architecture in movement” is the key to understanding Revelation’s puzzling but simple message. This edition also comes with a new foreword by Jacob Marques Rollison who provides an essential aid for guiding readers through Ellul’s thorough engagement with Revelation.
