Brion Gysin (1916–1986) was a visual artist, historian, novelist, and an experimental poet credited with the discovery of the ‘cut-up’ technique -- a collage of texts, not pictures -- which his longtime collaborator William S. Burroughs put to more extensive use. He is also considered one of the early innovators of sound poetry, which he defines as ‘getting poetry back off the page and into performance.’ Back in No Time gathers materials from the entire Gysin oeuvre: scholarly historical study, baroque fiction, permuted and cut-up poetry, unsettling memoir, selections from The Process and The Last Museum, and his unproduced screenplay of Burroughs’ novel Naked Lunch. In addition, the

Reader contains complete texts of several Gysin pieces that are difficult to find, including “Poem of Poems,” “The Pipes of Pan,” and “A Quick Trip to Alamut.” A beloved adventure classic, *The Swiss Family Robinson* is a tale of courage in the face of the unknown that has endured the test of time. This title provides a theoretically and methodologically new and distinct approach to gender through the frameworks of biopolitics and genealogy, theorising it as a historically specific apparatus of biopower. Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into

the ideal productive and reproductive subjects of White, middle-class postwar America.

Author Ned Mohan has been a leader in EES education and research for decades. His three-book series on Power Electronics focuses on three essential

topics in the power sequence based on applications relevant to this age of sustainable energy such as wind turbines and hybrid electric vehicles. The three topics include power electronics, power systems and electric machines. Key features in the first Edition build on Mohan's successful MNPERE texts; his systems approach which puts dry technical detail in the context of applications; and substantial pedagogical support including PPT's, video clips, animations, clicker questions and a lab manual. It follows a top-down systems-level approach to power electronics to highlight interrelationships between these sub-fields. It's intended to cover fundamental and practical design. This book also follows a building-block approach to power electronics that allows an in-depth discussion of several important topics that are usually left. Topics are carefully sequenced to maintain continuity and interest.

With the extraordinary investigative acumen and sensitive narrative skills that informed her best-selling *Little Gloria . . . Happy at Last*, Barbara Goldsmith now gives us the most sensational case of a contested will in American history—weaving a hypnotic tale of vast wealth and moral corruption. When J. Seward Johnson, the pharmaceutical heir, died in 1983 at the age of eighty-seven, his six children (each of whom was already in possession of an immense fortune) were outraged to learn that he had willed his entire \$500-million estate to

their stepmother Basia—a woman forty-two years Seward’s junior, a Polish refugee who had once worked as a chambermaid in his household. They came to believe that Basia had used undue influence to “enchant” their father, prying his fortune away from him and turning him against his own children. They wanted “justice.” The legal battle that followed spawned a seventeen-week-long trial, the involvement of 210 lawyers (some of whose behavior was legally and ethically questionable), \$24 million in legal fees, and public disclosures of the often scandalous details of the lives of many of the parties involved, including attempted suicide, drug addiction, and accusations of a murder plot. Going beyond the courtroom itself, Goldsmith delves into the family’s past and present, demonstrating that, from the start, the poisonous effects of overwhelming wealth were a tacit but powerfully felt subtext to the proceedings. From her insider’s position, she reveals the true Johnson legacy—one of profound emotional damage. In their own voices Seward’s children, his first wife, relatives, friends, employees, and Basia herself express their thoughts and feelings with a startling degree of frankness, revealing a past of incest, malignant neglect, and betrayal. Through this deepening of the story, Goldsmith has been able to elucidate the profoundly complex reasons why each of the Johnsons believed that what was most emphatically at stake was not financial remuneration but emotional

reparation. Throughout the four-month trial, Goldsmith (who researched the case for over a year and examined thousands of pages of documentation) was in constant attendance, and she tells the dramatic story of what occurred in spellbinding detail. We see the contesting parties, their innumerable lawyers, and the trial's remarkable judge, Marie Lambert ("part Portia, part Tugboat Annie"), playing out their roles in a courtroom packed with press and spectators, and rife with animosity, mistrust, and uncontrolled emotions (which erupted into a near-riot and death threats against the judge). Goldsmith illuminates how and why, as the trial progressed, it was transmuted almost entirely into a battle among lawyers, about lawyers, and for lawyers. She provides a masterful and devastating indictment of American law and lawyers, seen here as an out-of-control juggernaut fueled by a seemingly inexhaustible supply of money. Family drama, courtroom drama, explosive psychological drama, a trenchant and sometimes shocking portrayal of lawyers at work today—*Johnson v. Johnson* is a brilliant synthesis of the legal, the social, and the human aspects of a society in disarray.

In "Danger: Memory!" Two contrasting but thematically related one-act plays, I

Can't Remember Anything and Clara, are concerned with remembrance. The first play portrays the shared and disputed recollections of two elderly friends, and Clara dramatizes the resistance to brutal present-day fact when a young woman's father speaks with a detective investigating her murder. Like all of Miller's plays, *Danger: Memory!* holds the powerful emotional charge and social perceptions associated with his work while reaching for one of the fundamental issues of mankind, the selective amnesia of the past.

KRST - Ges? un Mito Solare: Una nuova esegesi svela contenuti mitici e allegorici dei Vangeli. Nuova ipotesi sul Ges? storico. Una ricerca mitografica in antitesi alla canonica linea di ricerca storiografica sull'origine del Cristianesimo. La trattazione ? volta immediatamente a ricercare elementi mitici derivanti da religioni antecedenti che possano aver ispirato alcuni passi e descrizioni evangeliche. Nel capitolo centrale, tuttavia, il metodo comparativo viene presto abbandonato per introdurre una nuova analisi esegetica suggerita da una originale ipotesi di decodifica del mito solare egizio. L'ipotesi mitica per? non preclude la ricerca di una possibile figura del Ges? storico. Numerose corrispondenze rilevate tra Mitraismo-Massoneria e Cristianesimo e una esplicita indicazione di Raimondo de Sangro in una lettera cifrata prospettano un preciso profilo del fondatore di una setta ermetica iniziatica.

Afrikan life into the coming millennia is imperiled by White and Asian power. True power must nest in the ownership of the real estate wherever Afrikan people dwell. Economic destiny determines biological destiny. 'Blueprint for Black Power' details a master plan for the power revolution necessary for Black survival in the 21st century. White treatment of Afrikan Americans, despite a myriad of theories explaining White behavior, ultimately rests on the fact that they can. They possess the power to do so. Such a power differential must be neutralized if Blacks are to prosper in the 21st century ... Aptly titled, 'Blueprint for Black Power' stops not at critique but prescribes radical, practical theories, frameworks and approaches for true power. It gives a biting look into Black potentiality. What does it mean to be British? It is now recognized that being British is not innate, static or permanent, but that national identities within Britain are constantly constructed and reconstructed. *Britishness since 1870* examines this definition and redefinition of the British national identity since the 1870s. Paul Ward argues that British national identity is a resilient force, and looks at how Britishness has adapted to changing circumstances. Taking a thematic approach, *Britishness since 1870* examines the forces that have contributed to a sense of Britishness, and considers how Britishness has been mediated by other identities such as class, gender, region, ethnicity and the sense of belonging to England, Scotland, Wales and Ireland.

Detergent mixed with flour, museum relics sold to U.N. peacekeepers, the magic power of laminated accreditation—all of the folly and the horror of a wartime situation are revealed in the sarcastic report of the novel's teenage would-be authoress. Maja lives in the basement of a Sarajevo museum, enduring with equal annoyance Serb artillery and vegetarian meals that taste like fried sponge. Her father, the museum director, zealously guards the treasures upstairs while their aged co-lodger Julio plots to trade them away. Maja's mother copes with yoga while dour stepbrother Davor endures the endless crying and cravings of

his pregnant wife. Floating amidst it all is Maja's grandmother, blind and deaf, yet drawn to any conversation involving food.

This volume contains his two landmark books. *Scientific Advertising*--the classic primer still read by today's top copywriters--was originally written in 1923. Four years later, he finished his autobiography, *My Life in Advertising*.

Like *The Group*, Mary McCarthy's classic tale about coming of age in New York, Joanna Smith Rakoff's richly drawn and immensely satisfying first novel details the lives of a group of Oberlin graduates whose ambitions and friendships threaten to unravel as they chase their dreams, shed their youth, and build their lives in Brooklyn during the late 1990s and the turn of the twenty-first century. There's Lil, a would-be scholar whose marriage to an egotistical writer initially brings the group back together (and ultimately drives it apart); Beth, who struggles to let go of her old beau Dave, a onetime piano prodigy trapped by his own insecurity; Emily, an actor perpetually on the verge of success -- and starvation -- who grapples with her jealousy of Tal, whose acting career has taken off. At the center of their orbit is wry, charismatic Sadie Peregrine, who coolly observes her friends' mistakes but can't quite manage to avoid making her own. As they begin their careers, marry, and have children, they must navigate the shifting dynamics of their friendships and of the world around them. Set

against the backdrop of the vast economic and political changes of the era -- from the decadent age of dot-com millionaires to the sobering post-September 2001 landscape -- Smith Rakoff's deeply affecting characters and incisive social commentary are reminiscent of the great Victorian novels. This brilliant and ambitious debut captures a generation and heralds the arrival of a bold and important new writer.

There is no death in the Osirian religion, only decay and change, and periodic renewal; only evolution and transformation in the domain of matter and the transubstantiation into spirit. In the so-called death of Osiris it is rebirth, not death, exactly the same as in the changes of external nature. At the close of the day the solar orb went down and left the sun god staring blankly in the dark of death. Taht the moon god met him in Amenta with the eye of Horus as the light the was to illuminate the darkness of the subterranean world. from Egyptian Book of the Dead and the Mysteries of Amenta It goes unappreciated by modern Egyptologists, but it is embraced by those who savor the concept of a hidden history of humanity, and those who approach all human knowledge from the perspective of the esoteric. Gerard Massey 's massive Ancient Egypt: The Light of the World first published in 1907 and the crowning achievement of

the self-taught scholar redefines the roots of Christianity via Egypt, proposing that Egyptian mythology was the basis for Jewish and Christian beliefs. Here, Cosimo proudly presents Book 4 of *Ancient Egypt*, in which Massey discusses the Egyptian Book of the Dead as the pre-Christian word of God, and explores the idea that Amenta, the threshold to the Egyptian underworld, is the first overt expression of a human desire for a noncorporeal afterlife. Massey goes on to connect the mystery of the mummy to the mystery of the Christ by likening the Christian dogma of physical resurrection to the Egyptian impetus for mummification. Peculiar and profound, this work will intrigue and delight readers of history, religion, and mythology. British author GERALD MASSEY (1828-1907) published works of poetry, spiritualism, Shakespearean criticism, and theology, but his best-known works are in the realm of Egyptology, including *A Book of the Beginnings* and *The Natural Genesis*.
