A deliciously entertaining new series by the bestselling author of *The No. 1 Ladies' Detective Agency* The many fans of Precious Ramotswe will find further cause for celebration in the protagonist of Alexander McCall Smith's irresistibly funny trilogy, the eminent (if shamefully under-read) philologist Professor Dr. Mortiz-Maria von Igelfeld of the Institute at Regensburg. Unnaturally tall, hypersensitive to slights, and oblivious to his own frequent gaucheries, von Igelfeld is engaged in a never-ending quest to win the respect he knows is due him.

Portuguese Irregular Verbs follows the Professor from a busman's holiday researching old Irish obscenities to a flirtation with a desirable lady dentist. In *The Finer Points of Sausage Dogs*, von Igelfeld practices veterinary medicine without a license, transports relics for a schismatically challenged Coptic prelate and is mobbed by marriage-minded widows on board a Mediterranean cruise ship. In *At the Villa of Reduced Circumstances*, the final novel in the trilogy, we find our hero suffering the slings of academic intrigue as a visiting fellow at Cambridge, and the slings of outrageous fortune in an eventful Columbian adventure.

With bloodthirsty shadows on your tracks, will you fight? Or will you run? Kisa I've always stretched my time to the last minute. A job here, another there, doctor appointments, shopping, cleaning, cooking... Gosh, I sound like a single mother with four kids, but I am only 19, and the sole person in my care is my couple-of-minutes-younger brother. My dying brother. By what twist of fate I became the Keeper of a cursed Watch is still beyond my understanding, but it might prove useful, if it doesn't kill me first. Blake I had one mission, and failed it like a moron - take the Watch from point A to point B without getting in trouble. Fair to say trouble found me, and it has the face of a woman with dark hair and lonely eyes. Now, like it or not, we are stuck with each other and my main priority is her safety. But the Fates have a twisted sense of humour, and my presence in her life might do more harm than good. It might kill us all... This workbook is meant to introduce your child to the skills her or she will need in kindergarten. By practicing each of the skills taught in this workbook, your child will be ready for academic success.

After her boss became her ex-boyfriend and turned her life inside out, Rebecca is on the road looking for adventure and a place to call home. She never imagined the mysterious road she would take would lead her to a grumpy hot Sheriff, a gorgeous playboy and a group of gay fashionistas, or, that they would be bear and lion shifters. Reading about being a shifter's mate was one thing, living it was another. Aleks has sworn off human women. After working a brutal homicide he has returned to the shifter-only town of his birth to date the local shifter women and hopefully find a nice female bear to give him cubs. When Fate throws him an itty, bitty human as a mate, he refuses to have anything to do with her. As the attraction between them grows Aleks realizes that he can't seem to stay away from the tiny dark-haired human, but the realization may come too late, as he faces the fact that though her body was never in any danger, he may have shattered her heart. He wonders if she will be safe with him and she wonders if she will ever be what he always wanted. In the end they will both see that Fate Knows Best

The Phoenix and the Carpet - Edith Nesbit - The Phoenix and the Carpet is a fantasy novel for children, written in 1904 by E. Nesbit. It is the second in a trilogy of novels that began with Five Children and It (1902), and follows the adventures of the same five protagonists – Cyril, Anthea, Robert, Jane and the Lamb. Their mother buys the children a new carpet to replace the one from the nursery that was destroyed in an accidental fire. The children find an egg in the carpet which hatches into a talking Phoenix. The Phoenix explains that the carpet is a magical one that will grant them three wishes per day. The five children go on many adventures which eventually wears out their magical carpet. The adventures of the children are continued and conclude in the third book of the trilogy, The Story of the Amulet (1906). This middle volume of the trilogy that began with Five Children and It and concludes with The Story of the Amulet deviates somewhat from the other two because the Psammead gets only a brief mention, and because in this volume the children live with both of their parents and their younger brother—the Lamb—in their home in London. Consequently, there is less loneliness and sense of loss in this volume than in the other two. In both of the other volumes, circumstances have forced the children to spend a protracted period away from their familiar London home and their father; in Amulet, their mother and the Lamb are absent as well. A continuing theme throughout The Phoenix and the Carpet is, appropriately enough, the ancient element of fire. The story begins shortly before November 5, celebrated in England as Guy Fawkes Night. Traditionally, children light bonfires and set off fireworks on this night. The four children have accumulated a small hoard of fireworks but are too impatient to wait until November 5 to light

them, so they set off a few samples in the nursery. This results in a fire that destroys the carpet. Their parents purchase a second-hand carpet which, upon arrival, is found to contain an egg that emits a weird phosphorescent glow. The children accidentally knock this egg into the fire: it hatches, revealing a golden Phoenix who speaks perfect English. It develops that this is a magical carpet, which can transport the children to anywhere they wish in the present time, although it is only capable of three wishes per day. Accompanied by the Phoenix, the children have exotic adventures in various climes. There is one moment of terror for the children when their youngest brother, the Lamb, crawls onto the carpet, babbles some incoherent baby talk, and vanishes. Fortunately, the Lamb only desired to be with his mother. At a few points in the novel, the children find themselves in predicaments from which the Phoenix is unable to rescue them by himself; he goes to find the Psammead and has a wish granted for the children's sake. In addition, in the end, the carpet is sent to ask the Psammead to grant the Phoenix's wish. These offstage incidents are the only contribution made by the Psammead to this story.
