Sadhana brings us into an intimate alignment with the reality of who we are: as a creature of the Creator and as a human being. First published in 1974, Kundalini Yoga Sadhana Guidelines has become the best-selling Kundalini Yoga manual of all time. Within these pages, you'll find the inspiration to keep returning breath-by-breath to your Self and to your practice. Sadhana is everything we do on a daily basis as our self-discipline and our commitment to our higher self. It is a spiritual practice in which we confront the tendencies of our mind and ego and, out of love, we invite in the dimensions of our soul, spirit, and intuition. In its essence, it is a process of refinement, development, and mastery. As we learned from eastern traditions, a sadhu is a being who has disciplined himself. Likewise, the definition of a yogi is a person who has totally leaned on the supreme consciousness, which is God. The purpose of sadhana is to arrive at the place where we go beyond our ego and its limitations. Morning sadhana—done before the sunrise—is a special time when we sit before the altar of our own consciousness and have the opportunity to clean up our inner world before we engage in the outer world—our jobs, our families, our responsibilities. This manual exists to serve you and to help you uplift yourself and others. It is designed for both the new and the experienced student. It focuses on the essential practice of Kundalini Yoga. A material that offers lectures, essays, insights, and a series of exercises that one can experience and improve one's own personal practice.

Integrative tools for healing the traumatized mind and body • Combines cutting-edge Western cognitive-behavioral therapy (CBT) and ancient Eastern wisdom to heal Post-Traumatic Stress Disorder (PTSD) • Teaches Kundalini yoga practices specifically designed to reset parts of the brain and body affected by PTSD • Presents a fast-acting, holistic, evidence-based, and drug-free program for eliminating PTSD symptoms and restoring health, vitality, and joy Trauma, the Greek word for “wound,” is the most common form of suffering in the world today. An inescapable part of living, the bad things that happen to us always leave aftereffects in both body and mind. While many people experience these aftereffects and move on, millions of others develop Post-Traumatic Stress Disorder (PTSD)—a painful, chronic, and debilitating barrier to happiness.

Reclaiming Life after Trauma addresses both the physical and psychological expressions of PTSD, presenting an integrative, fast-acting, evidence-based, and drug-free path to recovery. Authors Daniel Mintie, LCSW, and Julie K. Staples, Ph.D., begin with an overview of PTSD and the ways in which it changes our bodies and minds. They present research findings on cognitive-behavioral therapy (CBT) and yoga, giving the reader insights into how these powerful modalities can counteract and reverse the physical and mental aftereffects of trauma. The authors provide a suite of simple, powerful, and easily learned tools readers can put to immediate use to reset their traumatized bodies and minds. On the physical side, they teach four Kundalini yoga techniques that address the hypervigilance, flashbacks, and insomnia characteristic of PTSD. On the psychological side, they present 25 powerful CBT tools that target the self-defeating beliefs, negative emotions, and self-sabotaging behaviors that accompany the disorder. Drawing on many years of clinical work and their experience administering the successful Integrative Trauma Recovery Program, the authors help readers understand PTSD as a mind-body disorder from which we can use our own minds and bodies to recover. Woven throughout the book are inspiring real-life accounts of PTSD recoveries showing how men and women of all ages have used these tools to reclaim their vitality, physical health, peace, and joy.

Kundalini Yoga as taught by Yogi Bhanjan®"The Kundalini is known as the nerve of the soul. This is to be awakened. Your soul is to be awakened. When soul gets awakened, there remains nothing... If your soul is awakened, what else do you need?"- Yogi Bhanjan. Kundalini Yoga is an oral tradition dating back hundreds if not thousands of years. In the early 1970's, when this ancient technology was being presented, students would patiently wait to hear from fellow students and teachers what Yogi Bhanjan had just taught. Students took notes, made drawings and passed them on... In a certain sense it was revolutionary that this sacred, once secret science was being recorded and distributed. Never, in history, had this been done before. It was very exciting when a Kriya-write up, manual or a "Beads of Truth"-magazine became available and when the Meditation Manual for Intermediate Students was published and distributed, it was a revelation. So many amazing Kriyas! It felt like as long as one had this manual, one could practice Kundalini Yoga for the rest of the life. It was like having the security of a treasure that would never diminish or get old. This wonderful book: KRIYA - Yoga Sets, Meditations & Classic Kriyas contains many of the Kriyas from the Meditation Manual for Intermediate Students as well as many previously unpublished Kriyas from that era. Some of the models in the book are children of original student-teachers of Yogi Bhanjan... You will enjoy these effective and powerful Kundalini Yoga Kriyas. By practicing them, you can uplift yourself and inspire yourself to try some of these again and again! KRIYA - Yoga Sets, Meditations & Classic Kriyas from the Early Teachings of Yogi Bhanjan contains: Challenging physical Kundalini Yoga Kriyas from the 1970s and 1980s More than 100 Meditations, including Visualizations, Praanayams, Silent Meditations, and Meditations with Mantra Includes Material from the Meditation Manual for Intermediate Students, K.R.I.Y.A., Under the Blue Skies, and more!

In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.
