In the last few decades, yoga has helped millions of people to improve their concepts of themselves. Yoga realises that man is not only the mind, he is body as well. Yoga has been designed in a such a way that it can complete the process of evolution of the personality in every possible direction. Kundalini yoga is a part of the tantric tradition. Even though you may have already been introduced to yoga, it is necessary to know something about tantra also. Since the dawn of creation, the tantrics and yogis have realised that in this physical body there is a potential force. It is not psychological or transcendental; it is a dynamic potential force in the material body, and it is called Kundalini. This Kundalini is the greatest discovery of tantra and yoga. Scientists have begun to look into this, and a summary of the latest scientific experiments is included in this book.

The core teachings and riotous life of the psychedelic yogi Ganesh Baba • Presents the teachings of Ganesh Baba's "Crea" Yoga, which he derived from the tantric practices of traditional Kriya Yoga • Explains the basic exercises for following the Crea (creative) Yoga practice • Includes many anecdotes from the colorful life of this "psychedelic" baba Shri Mahant Swami Ganeshanand Saraswati Giri (ca. 1895-1987) was known to all who loved and studied with him simply as Ganesh Baba. At the age of four, he was brought back from death through an initiation by Lahiri Mahasaya and through this initiation descends from the same Kriya Yoga lineage as Paramahansa Yogananda. He became a swami under his guru Sivananda and later went on to run the Anandamayi Ma ashram. Drawn to the life of the Naga Babas, he became the head of the Ananda Akhara, Naga followers of Lord Shiva who consider cannabis and other entheogens to be the gift of the gods. The unique set of principles and exercises Ganesh Baba developed from the tantric practices of traditional Kriya Yoga and Shivaism became the core of his personal teachings of Crea (for creative) Yoga. Ganesh Baba's message of systematic synthesis of the spiritual and secular was carefully developed for and embraced by contemporary students in the 1960s, especially those whose path included the use of entheogens. This book contains the core of Ganesh Baba's Crea Yoga teachings, from the beginning stages of conscious control of one's posture, breath, and attention to finally extending one's awareness to the farthest reaches of the cosmos. Eve Baumohl Neuhaus shows that the life of this scholar and crazy saint was as instructive as his teachings. She includes many personal reminiscences of this inspirational and challenging teacher from her own life and those of fellow students, which demonstrate that Ganesh Baba's extraordinary life was in keeping with his own role as the embodiment of Lord Ganesh, the remover of obstacles.

Kundalini Yoga as taught by Yogi Bhajan®"The Kundalini is known as the nerve of the soul. This is to be awakened. Your soul is to be awakened. When soul gets awakened, there remains nothing... If your soul is awakened, what else do you need?"- Yogi Bhajan.Kundalini Yoga is an oral tradition dating back hundreds if not thousands of years. In the early 1970's, when this ancient technology was being presented, students would patiently wait to hear from fellow students and teachers what Yogi Bhajan had just taught. Students took notes, made drawings and passed them on... In a certain sense it was revolutionary that this sacred, once secret science was being recorded and distributed. Never, in history, had this been done before.It was very exciting when a Kriya-write up, manual or a "Beads of Truth"-magazine became available and when the Meditation Manual for Intermediate Students was published and distributed, it was a revelation. So many amazing Kriyas! It felt like as long as one had this manual, one could practice Kundalini Yoga for the rest of the life. It was like having the security of a treasure that would never diminish or get old.This wonderful book: KRIYA - Yoga Sets, Meditations & Classic Kriyas contains many of the Kriyas from the Meditation Manual for Intermediate Students as well as many previously unpublished Kriyas from that era. Some of the models in the book are children of original student-teachers of Yogi Bhajan...You will enjoy these effective and powerful Kundalini Yoga Kriyas. By practicing them, you can uplift yourself and inspire yourself to try some of these again and again!KRIYA - Yoga Sets, Meditations & Classic Kriyas from the Early Teachings of Yogi Bhajan contains:Challenging physical Kundalini Yoga Kriyas from the 1970s and 1980sMore than 100 Meditations, including Visualizations, Praanayams, Silent Meditations, and Meditations with MantraIncludes Material from the Meditation Manual for Intermediate Students, K.R.I.Y.A., Under the Blue Skies, and more!
