

La Punizione This Man Trilogy

This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. *The Works of Elena Ferrante: Reconfiguring the Margins* brings together the most exciting and innovative research on Ferrante's treatment of the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond "Ferrante fever" to reveal the complexity and richness of a remarkable oeuvre.

30th Anniversary Edition with a new introduction by the author Robert Pendleton is a chemical genius with a fertilizer worth a fortune to whoever controls the formula. Not surprisingly, the Bank, his notoriously exclusive backer, wants to keep an eye on its investment. But so does the CIA. And the Chinese government. And a few shadier organizations. So when Pendleton disappears from a conference in San Francisco, along with all of his research, Neal Carey enters the picture. Neal knows the Bank is calling in its chips in return for paying his grad school bills. He thinks this assignment will be a no-brainer until he meets the beguiling Li Lan and touches off a deadly game of hide-and-seek that will lead him from San Francisco's Chinatown to the lawless back streets of Hong Kong, and finally into the dark heart of China. In a world where no one is what they seem, Neal must unravel the mystery of a beautiful woman and reach the fabled Buddha's Mirror, a mist-shrouded lake where all secrets are revealed.

Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. What is silence? In a series of short meditations, novelist and playwright John Biguenet considers silence as a servant of power, as a lie, as a punishment, as the voice of God, as a terrorist's final weapon, as a luxury good, as the reason for torture-in short, as an object we both do and do not recognize. Concluding with the prospects for its future in a world burgeoning with noise, Biguenet asks whether we should desire or fear silence-or if it is even ours to choose. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.

Ancestral fault is a core idea of Greek literature. 'The guiltless will pay for the deeds later: either the man's children, or his descendants thereafter', said Solon in the sixth century BC, a statement echoed throughout the rest of antiquity. This notion lies at the heart of ancient Greek thinking on theodicy, inheritance and privilege, the meaning of suffering, the links between wealth and morality, individual responsibility, the bonds that unite generations and the grand movements of history. From Homer to Proclus, it played a major role in some of the most critical and pressing reflections of Greek culture on divinity, society and knowledge. The burning modern preoccupation with collective responsibility across generations has a long, deep antecedent in classical Greek literature and its reception. This book retraces the trajectories of Greek ancestral fault and the varieties of its expression through the many genres and centuries where it is found.

In his *Histories*, Herodotus of Halicarnassus gave an account of Xerxes' invasion of Greece (480 BCE). Among the information in this work features a rich topography of the places visited by the army, as well as of the battlefields. Apparently there existed a certain demand among the Greeks to behold the exact places where they believed that the Greeks had fallen, gods had appeared, or Xerxes had watched over his men. This book argues that Herodotus' topography, long taken at face value as if it provided unambiguous access to the historical sites of the war, may partly be a product of Greek imagination in the approximately fifty years between the Xerxes' invasion and its publication, with the landscape functioning as a catalyst. This innovative approach leads to a new understanding of the topography of the invasion, and of the ways in which Greeks in the late fifth century BCE understood the world around them. It also prompts new suggestions about the real-world locations of various places mentioned in Herodotus' text.

The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

"The book is like a dream you want to last forever" (Roberta Silman, The New York Times Book Review), now with a gorgeous new cover by the famed designer Peter Mendelsund The Rings of Saturn—with its curious archive of photographs—records a walking tour of the eastern coast of England. A few of the things which cross the path and mind of its narrator (who both is and is not Sebald) are lonely eccentrics, Sir Thomas Browne's skull, a matchstick model of the Temple of Jerusalem, recession-hit seaside towns, wooded hills, Joseph Conrad, Rembrandt's "Anatomy Lesson," the natural history of the herring, the massive bombings of WWII, the dowager Empress Tzu Hsi, and the silk industry in Norwich. W.G. Sebald's *The Emigrants* (New Directions, 1996) was hailed by Susan Sontag as an "astonishing masterpiece perfect while being unlike any book one has ever read." It was "one of the great books of the last few years," noted Michael Ondaatje, who now acclaims *The Rings of Saturn* "an even more inventive work than its predecessor, *The Emigrants*."

The first book in #1 New York Times Bestselling Author Jodi Ellen Malpas' Smoke & Mirrors Duology following the scandal of a rebellious British princess who falls in love with a Hollywood actor.

TY: Pretty Thing--the moment Liam McKinney first uttered those words will be embedded in my mind forever. He's mysterious, intriguing...and off-limits since he's my father's friend. Easier said than done. The moment I laid eyes on the man with the dark eyes and intense stare, he awoke a primal hunger within me unlike anything I'd ever experienced before. For some time, I've been confused about my attraction toward men, but there's no confusion when I look at him--just pure, unfettered desire to feel his body against mine, taste his flesh, breathe in his scent. So many things an experienced man like Liam could show me. But I don't just want to sate my desire for his body--the physique of a Titan, those abs practically chiseled from stone, and one particular challenge that looks more than slightly intimidating...Yes, I want all that, but also so much more. To know everything about him. There's something behind the facade he presents to the world. Sometimes, it's as though I'm offered a glimpse behind the smokescreen--to who he really is. Yet it's tricky to know the real Liam when he's determined to keep his secrets. I assumed he had a dark past. But I didn't realize he hadn't left it behind and that I'd wind up roped into it--into a dangerous world so different from the one I've spent most my life living. It's a world of secrets, deception, and peril. I quickly discover there's a price to being with Liam McKinney. But no price is too great when the reward is being the man in his arms and his heart. Being his very own Pretty Thing. *Pretty Things features two men who can't get enough of each other, action/adventure involving secret government agencies and nefarious conspiracies, and sexy shenanigans that'll make it impossible for you to forget you're in a Devon McCormack novel. The book contains references to suicidal ideation and scenes of peril that could act as triggers for some readers.

Professor Malik Solanka, retired historian of ideas, irascible doll maker, and since his recent fifty-fifth birthday celibate and solitary by his own (much criticized) choice, in his silvered years found himself living in a golden age. Outside his window, a long humid summer, the first hot season of the third millennium, baked and perspired. The city boiled with money. Rents and property values had never been higher, and in the garment industry it was widely held that fashion had never been so fashionable. - from Fury From one of the world's truly great writers comes a wickedly brilliant and pitch-black comedy about a middle-aged professor who finds himself in New York City in the summer of 2000. Not since the Bombay of Midnight's Children have a time and place been so intensely captured in a novel. Salman Rushdie's eighth novel opens on a New York living at break-neck speed in an age of unprecedented decadence. Malik Solanka, a Cambridge-educated self-made millionaire originally from Bombay, arrives in this town of IPOs and white-hot trends looking, perversely, for escape. He is a man in flight from himself. This former philosophy professor is the inventor of a hugely popular doll whose multiform ubiquity – as puppet, cartoon and talk-show host – now rankles with him. He becomes frustratingly estranged from his own creation. At the same time, his marriage is disintegrating, and Solanka very nearly commits an unforgivable act. Horrified by the fury within him, he flees across the Atlantic. He discovers a city roiling with anger, where cab drivers spout invective and a serial killer is murdering women with a lump of concrete, a metropolis whose

population is united by petty spats and bone-deep resentments. His own thoughts, emotions and desires, meanwhile, are also running wild. He becomes deeply embroiled in not one but two new liaisons, both, in very different ways, dangerous. Professor Solanka's navigation of his new world makes for a hugely entertaining and compulsively readable novel. *Fury* is a pitiless comedy that lays bare, with spectacular insight and much glee, the darkest side of human nature.

What has happened to America, and what's become of the American dream? Behind the self-confident image of world's most influential country, we now see a nation tearing itself apart. The United States may be arguably the world's only superpower, but its internal tensions are a symptom of suffering and division, a condition only exacerbated by the election of President Donald Trump. In this searing account, expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens. Set against the backdrop of the 2016 presidential election campaign and the inauguration of President Trump, Friedman tells a vivid story of terrible inequality - from the excesses of Wall Street to the grinding poverty of Mississippi - and explores the issues, from racism and gun control to Obamacare, that have polarised a nation. Drawing on his personal interviews with Trump and with Russia's President Putin, Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world. Dark and provocative, *This Is Not America* may just be the most important book of the year.

Autrefois, je croyais aux contes de fées. Mais ensuite, il m'a prise. Et il m'a appris que la vie n'était pas un conte de fées. Il est abîmé, brisé. Une créature sombre et sauvage. Sa beauté est violente et ses mots cruels. Son cœur est un paysage plongé dans l'ombre, où rien ne peut pousser. Il affirme qu'il ne pourra jamais vraiment s'attacher à moi, et il me le prouve chaque jour. Il a détruit ma vie. Il m'a torturée. Et pire encore... Il m'a exercée à supplier pour quémander son affection. Dans cette prison, la lumière du jour ne perce pas. Il m'a appris que la haine naissait de l'obscurité. Mais ensuite il m'a appris que, parfois, l'amour aussi y trouvait racine.
