Using the playful, orally inspired, and partially invented language for which he is renowned, Patrick Chamoiseau recalls the brilliant, magical universe of his early childhood in Martinique. At the center of this universe is his extraordinarily vigorous mother and her creative, pragmatic ways of coping with poverty and five children. As Chamoiseau presents these first impressions of an exceptional child growing up in a rich Creole culture, he also reflects in oblique but incisive ways on colonialism. He probes the boundary between reality and imagination, between the child's awakening understanding and the adult's memory of those earlier days.

Fill the pages your own color and style--it's the perfect way to cultivate creativity and fun! School Days (Chemin-d'Ecole) is a captivating narrative based on Patrick Chamoiseau's childhood in Fort-de-France, Martinique. It is a revelatory account of the colonial world that shaped one of the liveliest and most creative voices in French and Caribbean literature today. Through the eyes of the boy Chamoiseau, we meet his severe, Francophile teacher, a man intent upon banishing all remnants of Creole from his students' speech. This domineering man is succeeded by an

equally autocratic teacher, an Africanist and proponent of “Negritude.” Along the way we are also introduced to Big Bellybutton, the class scapegoat, whose tales of Creole heroes and heroines, magic, zombies, and fantastic animals provide a fertile contrast to the imported French fairy tales told in school. In prose punctuated by Creolisms and ribald humor, Chamoiseau infuses the universal terrors, joys, and disappointments of a child’s early school days with the unique experiences of a Creole boy forced to confront the dominant culture in a colonial school. *School Days* mixes understanding with laughter, knowledge with entertainment—in ways that will fascinate and delight readers of all ages.

"In order to allow us to listen to our thoughts, someone came up with the idea of inventing words. Someone thought that the sound of the words could in some way represent the wanderings of our thoughts, of some of our thoughts. Someone else got the idea of representing thoughts by making marks, by making them with light, with something you could see. I make marks. What I mean is that I always, and only, draw in order to represent certain thought that pursue me. A strong, idiomatic translation of Italy's greatest modern poet. Eugenio Montale is universally recognized as having brought the great Italian lyric tradition that began with Dante into the twentieth century with unrivaled power and brilliance. Montale is a love poet whose deeply beautiful, individual work confronts the dilemmas of modern history, philosophy, and faith with courage and subtlety; he has been widely translated into English and his work has influenced two generations of American and British poets. Jonathan Galassi's versions of Montale's major works--*Ossi di seppia*, *Le occasioni*, and *La bufera e altro*--are the clearest and most convincing yet, and his extensive notes discuss in depth the sources and difficulties of this dense, allusive poetry. This book offers English-language readers uniquely informed and readable access to the work of one of the greatest of all modern poets. This volume examines the flourishing of Futurist aesthetics in the European art and literature of the early twentieth century. Futurism was an artistic and social movement that was largely an Italian phenomenon, though there were parallel movements in Russia, England and elsewhere. The Futurists admired speed, technology, youth and violence, the car, the airplane and the industrial city, all that represented the technological triumph of humanity over nature. This work looks at the prose, visual art, poetry, and the manifestos of Futurists from Russia to Italy. The author reveals the Moment's impulses and operations, tracing its echoes through the years to the work of "postmodern" figures like

Creolizing Europe critically interrogates creolization as the decolonial, rhizomatic thinking necessary for understanding the cultural and social transformations set in motion through trans/national dislocations. Exploring the usefulness, transferability, and limitations of creolization for thinking post/coloniality, raciality and othering not only as historical legacies but as immanent to and constitutive of European societies, this volume develops an interdisciplinary dialogue between the social sciences and the humanities. It juxtaposes US-UK debates on 'hybridity', 'mixed-race' and the 'Black Atlantic' with Caribbean and Latin American theorizations of

cultural mixing in order to engage with Europe as a permanent scene of Édouard Glissant's creolization. Further, through a comparative methodological angle, the focus on Europe is broadened in order to understand the role of Europe's colonial past in the shaping of its post/migrant and diasporic present. 'Europe' thus becomes an expanded and contested term, unthinkable without reference to its historical legacies and possible futures. While not all the contributions in this volume explicitly address Edouard Glissant's approach to creolization, they all engage with aspects of his thinking. All of the chapters explore the usefulness, transferability, and limitations of creolization to the European context. As such, this edited collection offers a significant contribution and intervention in the fields of European Studies, Postcolonial Studies, and Cultural Studies on two levels. First, by emphasizing that race and "cultural mixing" are central to any thinking about and theorization on/of Europe, and second, by applying Glissant's perspective to a variety of empirical work on diasporic spaces, conviviality, citizenship, aesthetics, race, racism, sexuality, gender, cultural representation and memory.

A beautiful hardcover Pocket Poets selection of the works of Nobel Prize-winning Italian poet Eugenio Montale, one of the giants of twentieth-century poetry. Eugenio Montale (1896-1981) is not only Italy's greatest modern poet but a towering figure in twentieth-century literature. His incandescently beautiful body of work is deeply rooted in the venerable lyric tradition that began with Dante, but he brilliantly reinvents that tradition for our time, probing the depths of love, death, faith, and philosophy in the bracing light of modern history. Dynamic innovation and a coiled, fierce energy fuel the poet's quest for liberation from the self. Marked by musicality and rhythmic variety, Montale's poems manage to be buoyant with allusion and metaphor while also densely studded with things--with concrete, elemental images that keep his complex and restless musings firmly tethered to the world. Montale's reputation is international and enduring; his widely translated work has profoundly influenced generations of poets around the world. This volume

This is the first published summary of the entire complex of the great necropolises of Rome, which were situated on Vatican Hill. The work concerns one of the most extensive, richest, and least-known Roman archaeological phenomena and bears witness to the work of creating an underground museum that has been followed internationally as a model of conservation practice. From the submerged world of the necropolises emerges the funeral 'normality' of the Roman world, from poorer cremations in wooden urns, to sumptuous sarcophagi, to sepulchres adorned with frescoes and mosaics. One can also observe Egyptian cults influencing the practice of epicurean philosophy. In addition, we can catch a glimpse of the first traces of Christianity, which include the
