Ernesto Cardenal and Sergio Ramírez are two of the most influential Latin American intellectuals of the late twentieth and early twenty-first centuries. Addressing Nicaragua's struggle for self-definition from divergent ethnic, religious, generational, political, and class backgrounds, they constructed distinct yet compatible visions of national history, anchored in a reappraisal of the early twentieth-century insurgent leader Augusto César Sandino. During the Sandinista Revolution of 1979-90, Cardenal, appointed Nicaragua's minister of culture, became one of the most provocative and internationally recognized figures of liberation theology, while Ramírez, a member of the revolutionary junta, and later elected vice-president of Nicaragua, emerged as an authoritative figure for third world nationalism. But before all else, the two were groundbreaking creative writers. Through a close reading of the works by Nicaragua's best-known and most prolific modern authors, *Sandino's Nation* studies the construction of Nicaraguan national identity during three distinct periods of the country's recent

Combining intellectual and social history, Teresita Martinez-Vergne explores the processes by which people in the Dominican Republic began to hammer out a common sense of purpose and a modern national identity at the end of the nineteenth and beginning of the twentieth centuries. Hoping to build a nation of hardworking, peaceful, voting citizens, the Dominican intelligentsia impressed on the rest of society a discourse of modernity based on secular education, private property, modern agricultural techniques, and an open political process. Black immigrants, bourgeois women, and working-class men and women in the capital city of Santo Domingo and in the booming sugar town of San Pedro de Macoris, however, formed their own surprisingly modern notions of citizenship in daily interactions with city officials. Martinez-Vergne shows just how difficult it was to reconcile the lived realities of people of color, women, and the working poor with elite notions of citizenship, entitlement, and identity. She concludes that the urban setting, rather than defusing the impact of race, class, and gender within a collective sense of belonging, as intellectuals had envisioned, instead contributed to keeping these distinctions intact, thus limiting what could be considered Dominican.

La esperanza y el delirio hace el recorrido puntual y crítico de la historia de la izquierda en el mundo y en América Latina. El especialista Ugo Pipitone ofrece un libro fundamental para entender la historia de la izquierda en América Latina, su situación actual y los retos y oportunidades que tiene delante de sí. La izquierda latinoamericana es muchas izquierdas. Su historia se remonta a finales del siglo XIX, cuando una incipiente clase obrera introdujo en sociedades dominadas por grandes terratenientes y comerciantes valores y conflictos inéditos. El anarquismo, que había llegado con la inmigración europea, fue su primer lenguaje político. Después vino el comunismo, con el empujón de un marxismo soviético que pronto se volvería estalinismo, convirtiendo una idea de emancipación social en una ideología dogmática. La

promesa comunista reencarnó después en la guerrilla -vía que, además de contar con la inspiración del éxito cubano, ofrecía la ilusión del cambio inmediato-. Finalmente, el populismo, con su retórica nacionalista y justiciera, se tiende como un manto intemporal sobre la región. La esperanza y el delirio hace el recorrido puntual y crítico de esta historia. Al llegar a la frontera del presente, su autor nos recuerda que la estación comunista está hoy clausurada; también el anarquismo y la opción guerrillera. Pervive el populismo, cuya visión maniquea parece fatalmente inscrita en el ADN de la región. Empieza a dibujarse, cada vez con mayor claridad, una quinta alternativa: la socialdemocracia, caracterizada por su pragmatismo reformador. Así, socialdemocracia y populismo se perfilan como las dos principales opciones de izquierda frente a los retos del siglo xxi. ¿Cómo mejorar la vida de las personas sin caer en delirios mesiánicos? ¿Cómo restaurar una convivencia civil en contra de una criminalidad cada vez más organizada y poderosa, instituciones frágiles y fragmentaciones sociales que se profundizan? La izquierda está obligada a demostrar que aún puede ser una fuente de esperanza y de justicia con libertad. [www.megustaleer.com.mx](http://www.megustaleer.com.mx)
