In the 1970s, a prominent journalist examined the immediate postwar period to find rampant political and social tensions. His survey offers a unique perspective on a critical era in American history. Includes a new Preface by the author.

Essays on the policies and motives of Winston Churchill

A life of unanswered questions, broken relationships, and poor decisions disrupts a relationship with God and creates crisis. Deanna Favre, a breast cancer survivor and wife of NFL legend Brett Favre, and Shane Stanford, an HIV-positive minister, have both lived such a life. Chronic hopelessness was part of their everyday lives as it is for many people. But Deanna and Shane discovered the transforming grace and strength of a God who provides answers for questions and possibilities for uncertainties. *The Cure for the Chronic Life* is a guide for the journey out of hopelessness. In its pages, discover the power of redeeming love and the hope of living in Christ.

The Encyclopedia of Religion and Nature, originally published in 2005, is a landmark work in the burgeoning field of religion and nature. It covers a vast and interdisciplinary range of material, from thinkers to religious traditions and beyond, with clarity and style. Widely praised by reviewers and the recipient of two reference work awards since its publication (see www.religionandnature.com/ern), this new, more affordable version is a must-have book for anyone interested in the manifold and fascinating links between religion and nature, in all their many senses.

while anchoring their vision in the Eucharistic center of Catholic faith, Fr. Michael White and lay associate Tom Corcoran present the compelling and inspiring story to how they brought their parish back to life. *Rebuilt: Awakening the Faithful, Reaching the Lost, and Making Church Matter* is a story of stopping everything and changing focus. When their parish reached a breaking point, White and Corcoran asked themselves how they could make the Church matter to Catholics, and they realized the answer was at the heart of the Gospel. Their faithful response not only tripled their weekend mass attendance, but also yielded increased giving, flourishing ministries, and a vibrant, solidly Catholic spiritual revival. White and Corcoran invite all Catholic leaders to share the vision, borrow their strategies, and rebuild their own parishes. They offer a wealth of guidance for anyone with the courage to hear them.

This book introduces the readers to the rapidly growing literature and latest results on financial, fundamental and seasonal anomalies, stock selection modeling and portfolio management. Fifty years ago, finance professors taught the Efficient Markets Hypothesis which states that the average investor could not outperform the stock market based on technical, seasonal and fundamental data. Many, if not most faculty and investors, no longer share that opinion. In this book, the authors report original empirical evidence that applied investment research can produce statistically significant stock selection and excess portfolio returns in the US, and larger excess returns in international and emerging markets.

Eanger Irving Couse (1866–1936) showed remarkable promise as a young art student. His lifelong interest in Native American cultures also started at an early age, inspired by encounters with Chippewa Indians living near his hometown, Saginaw, Michigan. After studying in Europe, Couse began spending summers in New Mexico, where in 1915 he helped found the famous Taos Society of Artists, serving as its first president and playing a major role in its success. This richly illustrated volume, featuring full-color reproductions of his artwork, is the first scholarly exploration of Couse's noteworthy life and artistic achievements. Drawing on extensive research, Virginia Couse Leavitt gives an intimate account of Couse's experiences, including his early struggles as an art student in the United States and abroad, his study of Native Americans, his winter home and studio in New York City, and his life in New Mexico after he relocated to Taos. In examining Couse's role as one of the original six founders of the Taos Society of Artists, the author provides new information about the art colony's early meetings, original members, and first exhibitions. As a scholar of art history, Leavitt has spent

decades researching her subject, who also happens to be her grandfather. Her unique access to the Couse family archives has allowed her to mine correspondence, photographs, sketchbooks, and memorabilia, all of which add fresh insight into the American art scene in the early 1900s. Of particular interest is the correspondence of Couse's wife, Virginia Walker, an art student in Paris when the couple first met. Her letters home to her family in Washington State offer a vivid picture of her husband's student life in Paris, where Couse studied under the famous painter William Bouguereau at the Académie Julian. Whereas many artists of the early twentieth century pursued a radically modern style, Couse held true to his formal academic training throughout his career. He gained renown for his paintings of southwestern landscapes and his respectful portraits of Native peoples. Through his depictions of the domestic and spiritual lives of Pueblo Indians, Couse helped mitigate the prejudices toward Native Americans that persisted during this era.

Today we live in a culture that says, "Life should be easy and work well." This attitude,

called entitlement, influences our most important institutions: family, business, church, and government. Its devastating effects contribute to relational problems, work ethic issues, and emotional struggles. It comes down to this: People are not getting to where they want to go, because they don't know how to do life the hard way. Entitlement keeps them from tackling challenges and finding success. But whether readers are struggling with their own sense of entitlement or dealing with someone who acts entitled, *The Entitlement Cure* will equip them to turn away from a life of mediocrity to a life of engagement, satisfaction, and joy. Drawing from his experience as a counselor and leadership consultant, renowned psychologist and New York Times bestselling author Dr. John Townsend explores strategies for fighting entitlement, such as: Take a meaningful risk every week Find ways to minimize regret Grasp the value of keeping inconvenient commitments Understand why saying "I don't know" is the first step toward success. In a culture that encourages shortcuts and irresponsibility, *The Entitlement Cure* provides principles and skills to help you both navigate life with those around you who have an entitlement mindset and identify areas in your own life where you are stuck in "easy way" living. Dr. Townsend will show you how to become successful, resolve obstacles in life, and help those around you. Ultimately, *The Entitlement Cure* provides practical tools for a life of success that works for anyone. *Beyond Nice* is about creating excellent working relationships in Churches and other Christian organisations. It looks at why Christian bodies struggle with people issues and

people management. The author has taken his experience as a practising Christian in the business world and has sought to understand why Christian organisations often find it more difficult to manage people than businesses do. He also explores potential solutions to this problem, and central to this are almost 40 interviews conducted with Christian leaders; bishops, pastors, charity leaders, academics and consultants. He also looks at the example Jesus gives us of how to deal with and lead people. Together, these things are combined to offer potential solutions to current Christian leaders, and some food for thought to Christian followers about how best to support their leaders.

We are now in a whitewater world of ever greater turbulence that demands a new mind-set, skill-set and tool-set which can be summed up in one word - leadership. Effective leadership is becoming more important by the day for any individual or organization that hopes to compete in today's hypercompetitive environment. The key strategic competitive advantage now and into the future will be the development of leaders at all levels in the organization. The starting point of building of a high-performance organization is building high-performance people, which is precisely the purpose of this book. How much untapped energy, talent, creativity and commitment remain dormant within the human asset in your organization? What would it mean to unleash just 10% of the latent human potential? Using a fascinating blend of cutting-edge neuro-science research and ancient wisdom this comprehensive book offers proven strategies and

solutions that are highly practical and applicable to everyone in organization. In the 1950s, the exclusion of women and of black and Latino men from higher-paying jobs was so universal as to seem normal to most Americans. Today, diversity in the workforce is a point of pride. How did such a transformation come about? In this bold and groundbreaking work, Nancy MacLean shows how African-American and later Mexican-American civil rights activists and feminists concluded that freedom alone would not suffice: access to jobs at all levels is a requisite of full citizenship. Tracing the struggle to open the American workplace to all, MacLean chronicles the cultural and political advances that have irrevocably changed our nation over the past fifty years. *Freedom Is Not Enough* reveals the fundamental role jobs play in the struggle for equality. We meet the grassroots activists—rank-and-file workers, community leaders, trade unionists, advocates, lawyers—and their allies in government who fight for fair treatment, as we also witness the conservative forces that assembled to resist their demands. Weaving a powerful and memorable narrative, MacLean demonstrates the life-altering impact of the Civil Rights Act and the movement for economic advancement that it fostered. The struggle for jobs reached far beyond the workplace to transform American culture. MacLean enables us to understand why so many came to see good jobs for all as the measure of full citizenship in a vital democracy. Opening up the workplace, she shows, opened minds and hearts to the genuine inclusion of all Americans for the first time in our nation's history.

Are you living in crisis or in Christ?

This book uniquely explores how the notion of vision is presented in modern science and the Bible, and how it can be applied to contemporary Christian contexts. The word "vision", our ability to see, has been described by an increasing body of scholarship in the social sciences as our capacity for mental imagery and imagination. As such, this unique cognitive capability has been utilised in many fields for a variety of purposes, from arts and psychotherapy to politics and business management, and even for performance enhancement in sports. The current book argues that a better understanding of vision can have far-reaching practical implications for Christian life and ministry by helping people to align themselves with God's specific purposes. After a theoretical overview that integrates scientific and theological insights, the final chapters present a variety of strategies that can help believers to discern God's call through the use of mental imagery and then to develop and cultivate the perceived vision. The book examines the scientific and biblical principles of vision in a comprehensive manner, with a special emphasis on the practical implications of the issue. As such, it will be of great interest to scholars of Theology, Biblical Studies and Church Growth/Leadership, as well as Organisational Behaviour, Business Management and Psychology.

The United States Merchant Marine has a tradition of being in the forefront of every American military action and has served with distinction in every conflict. New York Times bestselling author Brian Herbert chronicles the amazing exploits of these gallant seamen, assembling a fascinating array of data from historical documents, government records, diaries, and interviews with surviving veterans. This brilliant history details the heroism, self-sacrifice and

grim determination that have always been the hallmark of the United States Merchant Marine. Herbert also reveals one of the great injustices of American history. The civilian fighters of the Merchant Marine performed feats of extraordinary bravery during World War II; they were the lifeline of the entire Allied war effort, delivering troops, materiel, food, fuel, and every essential needed for victory over the Axis. In doing so, the Merchant Marine suffered losses so high that the casualty rates were kept secret. At war's end, the men and women of every other service branch were honored by parades and given medical and educational benefits--but the members of the Merchant Marine, who were so vital to our victory, have received neither the benefits nor the recognition they deserved. Herbert is part of a growing movement across the United States to right the wrong. *The Forgotten Heroes* is a history of these unsung heroes and a plea for justice. People are desperate for leaders who are credible – those who possess a moral center and exhibit sound leadership skills. Given our global realities, we need strategic leaders who possess cultural intelligence and theological discernment. The aim of this book is to shape such leaders. Each chapter combines careful research with contributions from leaders around the world. These voices bring much-needed insight to leadership issues when translated and applied in different settings, especially the many urban multi-cultural contexts that exist today. Present and emerging leaders, no matter the culture or field, will find this book invaluable in sustaining their call to godly leadership.

Examining Teach For All brings together research focused on Teach For All and its affiliate programmes to explore the organisation's impact on education around the world. Teach For All is an expanding global network of programmes in more than 50 countries that aim to radically transform education systems by recruiting talented graduates to teach for two years in under-resourced schools and developing them into lifelong advocates of reform. The volume offers nuanced insights into the interests and contexts shaping Teach For All and the challenges and possibilities inherent in broader efforts to enact education reform on a global scale. This volume is the first of its kind to present empirical research on the emergence and expansion of Teach For All programmes, which replicate and adapt the Teach For America model around the world. The volume traces the network's expansion from its initial launch in 2007 to its growing international presence, as chapters present new research from national contexts as diverse as Bangladesh, Lebanon, and Spain. Using evidence from a range of perspectives

and research methodologies, the chapters collectively highlight the ways in which Teach For All and its affiliate programmes are working to alter educational landscapes worldwide. This book will be of great interest for scholars, educators, post-graduate students, and policymakers in the fields of comparative education, teacher education, education leadership, and education policy. It paves the way for future critical inquiry into this expanding global network as well as further investigations of educational change around the world.
