Education has become one of our major concerns, at the heart of any strategy for prosperity and social cohesion. But young people are having more difficulty than ever before in adapting to the world they will enter as adults. Tom Bentley argues that if education is to meet the emerging challenges of the twenty-first century, we must recognise that learning takes place far beyond the formal education sector. We cannot rely solely on dedicated teachers to deliver the understanding and personal qualities young people will need. Instead we must connect what happens in schools to wider opportunities for learning. Drawing on a wide-ranging review of educational innovation and on contemporary analysis of economic, social and technological change, this book shows that creating an education revolution requires us to think far more radically about young people and the options for reform, and outlines a vision of education fit for the twenty-first century. Tom Bentley is a senior researcher at Demos, the independent think-tank. He was born and educated in East London and at Oxford University. His research areas include: young people, education, the future of work and combating of social exclusion.

#1 NEW YORK TIMES BESTSELLER • The twentieth anniversary edition of the classic story of an incredible group of students and the teacher who inspired them, featuring updates on the students' lives, new journal entries, and an introduction by Erin Gruwell Now a public television documentary, *Freedom Writers: Stories from the Heart* In 1994, an idealistic first-year teacher in Long Beach, California, named Erin Gruwell confronted a room of "unteachable, at-risk" students. She had intercepted a note with an ugly racial caricature and angrily declared that this was precisely the sort of thing that led to the Holocaust. She

was met by uncomprehending looks—none of her students had heard of one of the defining moments of the twentieth century. So she rebooted her entire curriculum, using treasured books such as Anne Frank’s diary as her guide to combat intolerance and misunderstanding. Her students began recording their thoughts and feelings in their own diaries, eventually dubbing themselves the “Freedom Writers.” Consisting of powerful entries from the students’ diaries and narrative text by Erin Gruwell, *The Freedom Writers Diary* is an unforgettable story of how hard work, courage, and determination changed the lives of a teacher and her students. In the two decades since its original publication, the book has sold more than one million copies and inspired a major motion picture *Freedom Writers*. And now, with this twentieth-anniversary edition, readers are brought up to date on the lives of the Freedom Writers, as they blend indispensable takes on social issues with uplifting stories of attending college—and watch their own children follow in their footsteps. *The Freedom Writers Diary* remains a vital read for anyone who believes in second chances. Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

A popular clinical psychologist explores an often misunderstood and unrecognized emotion that's the root cause of many self-defeating and harmful behaviors. Emotional paralysis, a distorted view of self, a feeling of being a fraud, lack of trust in others, fear of criticism resulting in underdeveloped talents, and a chronic sense of being worthless, invisible, or disposable--these are typical symptoms of shame. In this book, psychologist Stephan B. Poulter delves into this "primary emotional wound." Distinguishing it from commonplace guilt over a particular moral failing, he describes this toxic emotion as a pervasive but largely unrecognized "emotional cancer," with the power of undermining many aspects of life. Dr. Poulter guides the

reader through exercises that teach one to expose this "big secret" and to recognize the triggers in daily life that arouse fears and other negative emotions. Beyond these first steps, he shows how we can continue the healing process of self-acceptance, self-forgiveness, empathy, and a new sense of inner well-being. Based on thirty years of experience with patients of all ages and from many walks of life, this is a book full of insight and understanding, one that can help most of us discover and realize our full potentials.

The COVID-19 pandemic has presented unprecedented challenges to the nation's K-12 education system. The rush to slow the spread of the virus led to closures of schools across the country, with little time to ensure continuity of instruction or to create a framework for deciding when and how to reopen schools. States, districts, and schools are now grappling with the complex and high-stakes

questions of whether to reopen school buildings and how to operate them safely if they do reopen. These decisions need to be informed by the most up-to-date evidence about the SARS-CoV-2 virus that causes COVID-19; about the impacts of school closures on students and families; and about the complexities of operating school buildings as the pandemic persists. Reopening K-12 Schools During the COVID-19 Pandemic: Prioritizing Health, Equity, and Communities provides guidance on the reopening and operation of elementary and secondary schools for the 2020-2021 school year. The recommendations of this report are designed to help districts and schools successfully navigate the complex decisions around reopening school buildings, keeping them open, and operating them safely.

Quiet on the Western Front is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review
