The first 1,000 days, from conception to two years of age, is a critical period of growth and development. Exposures to dietary, environmental, hormonal, and other stressors during this window have been associated with an increased risk of poor health outcomes, some of which are irreversible. The book addresses this crucial interval of early life across biological disciplines, linking concepts related to all biological fields to outcomes during the first 1,000 days (e.g. fetal growth and pregnancy outcomes) and beyond (e.g. gut microbiome and cardiovascular disease later in life). The strength of this book lies in its cross-disciplinary nature.

This book captures George G. Duarte's political imprisonment under the Castro regime in Cuba. All the tribulations, discrimination and abuses suffered. Jailed for over 10 years he escaped 3 times from prison and tried 3 times to escape from the island only to be captured again and again. His ordeals as a fugitive and his suffering enduring severe punishment confined into inhumans dungeons and prison cells. His rebelliousness refusing to accept his sentence and trying always to maintain his communication with his mother and daughter until finally obtain his freedom.

A classic children's story from the world's best-loved children's author, Enid Blyton. Malory Towers is about everything school should stand for – friendships, lessons, sports, plays and especially mischief. Goodbye, Malory Towers After taking their Higher Certificate, the sixth formers want to relax this term. But the Head has a surprise: a finishing school course, with old girl Gwendoline Lacey as teacher. Yet someone is determined to drive her out - and it takes the return of Darrell to solve the mystery. Enid Blyton is arguably the most famous children's author of all time, thanks to series such as The Wishing-

Discusses both depictions of Buddhism in film and Buddhist takes on a variety of films. In 1989, the same year the Dalai Lama was awarded the Nobel Peace Prize, a decade-long boom of films dedicated to Buddhist people, history, and culture began.

Offering the first scholarly treatment of Buddhism and cinema, the editors advise that there are two kinds of Buddhist film: those that are about Buddhists and those that are not. Focusing on contemporary American offerings, the contributors extend a two-pronged approach, discussing how Buddhism has been captured by directors and presenting Buddhist-oriented critiques of the worlds represented in films that would seem to have no connection with Buddhism. Films discussed range from those set in Tibet, such as Kundun and Lost Horizon, to those set well outside of any Buddhist milieu, such as Groundhog Day and The Matrix. The contributors explain the Buddhist theoretical concepts that emerge in these works, including karma, the bardo, and reincarnation, and consider them in relation to interpretive strategies that include feminism, postcolonialism, and contemplative psychological approaches.

Youth, Identity, Power is a study of the origins and development of Chicano radicalism in America. Written by a leader of the Chicano Student Movement of the 1960s who also played a role in the creation of the wider Chicano Power Movement, this is the first full-length work to appear on the subject. It fills an important gap in the history of political protest in the United States. The author places the Chicano movement in the wider context of the political development of Mexicans and their descendants in the US, tracing the emergence of Chicano student activists in the 1930s and their initial challenge to the dominant racial and class ideologies of the time. Munoz then documents the rise and fall of the Chicano Power Movement, situating the student protests of the sixties within the changing political scene of the time, and assessing the movement's contribution to the cultural development of the Chicano population as a whole. He concludes with an account of Chicano politics in the 1980s. Youth, Identity, Power was named an Outstanding Book on Human Rights in the United States by the Gustavus Myers Center in 1990.

Magic and divination in early Islam encompassed a wide range of practices, including belief in jinn, warding off the evil eye, the production of amulets and other magical equipment, conjuring, wonder-working, dream interpretation, predicting the weather, casting lots, astrology, and physiognomy. The ten studies here are

concerned with the pre-Islamic antecedents of such practices, and with the theory of magic in healing, the nature and use of amulets and their decipherment, the arts of astrometeorology and geomancy, the refutation of astrology, and the role of the astrologer in society. Some of the studies are highly illustrated, some long out of print, some revised or composed for this volume, and one translated into English for the first time. These fundamental investigations, together with the introductory bibliographic essay, are intended as a guide to the concepts, terminology, and basic scholarly literature of an important, but often overlooked, aspect of classical Islamic culture.

A Fine Romance - Falling in Love with the English Countryside is travel writing at its best by New York Times best-selling author Susan Branch. This charming book is part love story, part travel guide - a hand-written and watercolored diary/journal of Branch's six-day transatlantic crossing on board the Queen Mary 2 and two-month ramble over the backroads of rural England. There are over three hundred photos, countless watercolor illustrations, wonderful quotes, recipes, a book list, a movie list, hand-drawn maps and much more. Travel with Susan as she makes her way around hedgerows and through wildflower meadows to visit the homes and gardens of her literary and artistic heroes, including Beatrix Potter and Jane Austen. It's a travel guide that will help you plan a trip of your own, lovely for the armchair traveler because Susan really does take you there, and perfect for all Downton Abbey anglophiles. When you are finished, go to Susan's website where there is an interactive Appendix to the book .... you can experience driving across the Dales with Susan's own videos and find links to everything she writes about, the cottages and gardens you will want to see yourself. A Fine Romance is book three of Susan Branch's autobiographical trilogy. First in order is The Fairy Tale Girl, followed by Martha's Vineyard - Isle of Dreams, and finally A Fine Romance - Falling in Love with the English Countryside. All three are hand-lettered, watercolored, filled with photos, recipes and quotes and, as Susan says, "as much magic as I could possibly stuff between the covers." Bon Voyage!

Why is the word madre, "mother," so complicated in Spanish—especially in Mexico? Leaping off the page with

energy, insight, and attitude, Liza Bakewell's exploration of language is anything but "just semantics." Why does *me vale madre* mean worthless, while *!qué padre!* means fabulous, she asks? And why do one hundred *madres* disappear when one *padre* enters the room, converting the group from *madres* to *padres*? Thus begins a journey through Mexican culture in all its color: weddings, dinner parties, an artist's studio, heart-stopping taxi rides, angry journalists, corrupt politicians, Blessed Virgins, and mothers both sacred and profane. Along the way, a reader discovers not only an invaluable lexicon of Mexican slang (to be used with caution or not at all) but also thought-provoking reflections on the evolution of language; its winding path through culture, religion, and politics; and, not least, what it means—and what it threatens—to be a creative female, a *madre*.

Lateralization of brain and behaviour is now considered a common feature for all vertebrates, from agnathans and fish to birds and mammals. An important place in this field of research is occupied by amphibians and reptiles - the key classes to understand evolution of lateralization of behaviour and its relations to structure and development. This special issue of *Laterality* comprises a collection of papers, presented at the International Symposium on Behavioural and Morphological Asymmetries in Amphibians and Reptiles - the first of its kind. This is the first attempt to integrate and overview the works in the young field of study of lateralization in herpetological subjects, which is only about five years old. The issue is focused on amphibians (as reptiles are less involved so far) and specifically on the relations of behavioural and morphological directional asymmetries. It might serve as a starting point for future meetings and raise a number of evolutionary and developmental questions, directing the ways of prospective research. The issue consists of six review and original papers written by invited experts in the field. It provides references to almost all the available literature on the subject. Being a 'state-of-the-art' book, the issue is suitable for both advanced students and researchers specializing in behavioural sciences, neuroscience, developmental biology and morphology, who might wish to join the study of asymmetry in lower tetrapods for deeper insights into its evolution, development and function.

special obstacles they faced and overcame as women practicing in a demanding, traditionally all-male field. They also chronicle the history of medicine in the state generally since, although there was discrimination and resistance to accepting them, their accomplishments paralleled and in some instances led the development of medical practice and specialization. Using vignettes and biographical details garnered from sparse available literature, newspaper archives, typescripts found in various libraries around the state, and interviews, Elizabeth Silverthorne and Geneva Fulgham have created profiles of women ranging from traditional roles such as native herbalists and midwives through contemporary pioneers in fields like genetics and nuclear medicine. Drawing on subjects across the centuries throughout Texas' geographical regions and from diverse ethnic groups, they have painted rounded portraits of the women, showing their educational achievements, personalities, commitments, family lives, and hobbies. The stories of these pioneering women, told in clear and compelling prose, are fascinating and even inspiring. The accomplishments of the women heighten our understanding of the ways in which women have defied stereotype. Through personal persistence and dedication to their chosen fields, often against great odds, the women profiled here contributed to an elevated status for all women in the state.
