Published annually at the start of each year, Am Gov provides unmatched currency and is the first student-centered American Government text. It provides instructors who normally choose a big, brief, or essentials text with scholarly, succinct, and conventionally organized core content. A magazine format engages students and motivates active participation in our democracy (all this, and at a price that students prefer). Painstaking student and instructor reviews, surveys, and focus groups; as well as ethnographic research into student study behaviors, preferences, and needs, make Am Gov the product of serious scholarship. Am Gov brings serious fun to American Government through its quality, currency, features, and format.

Many of us, especially since 9/11, have become personally concerned about issues of security, and this is no surprise. Security is near the top of government and corporate agendas around the globe. Security-related stories appear on the front page everyday. How well though, do any of us truly understand what achieving real security involves? In *Beyond Fear*, Bruce Schneier invites us to take a critical look at not just the threats to our security, but the ways in which we're encouraged to think about security by law enforcement agencies, businesses of all shapes and sizes, and our national governments and militaries. Schneier believes we all can and should be better security consumers, and that the trade-offs we make in the name of security - in terms of cash outlays, taxes, inconvenience, and diminished freedoms - should be part of an ongoing negotiation in our personal, professional, and civic lives, and the subject of an open and informed national discussion. With a well-deserved reputation for original and sometimes iconoclastic thought, Schneier has

a lot to say that is provocative, counter-intuitive, and just plain good sense. He explains in detail, for example, why we need to design security systems that don't just work well, but fail well, and why secrecy on the part of government often undermines security. He also believes, for instance, that national ID cards are an exceptionally bad idea: technically unsound, and even destructive of security. And, contrary to a lot of current nay-sayers, he thinks online shopping is fundamentally safe, and that many of the new airline security measure (though by no means all) are actually quite effective. A skeptic of much that's promised by highly touted technologies like biometrics, Schneier is also a refreshingly positive, problem-solving force in the often self-dramatizing and fear-mongering world of security pundits. Schneier helps the reader to understand the issues at stake, and how to best come to one's own conclusions, including the vast infrastructure we already have in place, and the vaster systems--some useful, others useless or worse--that we're being asked to submit to and pay for. Bruce Schneier is the author of seven books, including *Applied Cryptography* (which *Wired* called "the one book the National Security Agency wanted never to be published") and *Secrets and Lies* (described in *Fortune* as "startlingly lively...! [a] jewel box of little surprises you can actually use."). He is also Founder and Chief Technology Officer of Counterpane Internet Security, Inc., and publishes *Crypto-Gram*, one of the most widely read newsletters in the field of online security.

In *News from Heaven*, Jennifer Haigh—bestselling author of *Faith* and *The Condition*—returns to the territory of her acclaimed novel *Baker Towers* with a collection of short stories set in and around the fictionalized coal-mining town of Bakerton, Pennsylvania. Exploring themes of restlessness, regret, redemption and acceptance, Jennifer Haigh depicts men and women of different generations shaped by dreams and haunted by disappointments. Janet Maslin of the *New York Times* has called Haigh's Bakerton stories "utterly, entrancingly alive on the page," comparable to Richard Russo's *Empire Falls*.

From snappy and urbane to passionate and divine, the writing of tomorrow's novelists dances in burnished reds and icy blues. The largest collection from our most gifted young writers is set to define the landscape of Australian literature.

Judy Nunn's exciting new novel, a no.1 bestseller, is inspired by a true wartime story that has remained a well-kept secret for over seventy years. It seems to have happened overnight, Val thought. How extraordinary.

We've become a khaki town. It's March 1942. Singapore has fallen. Darwin has been bombed. Australia is on the brink of being invaded by the Imperial Japanese Forces.

And Val Callahan, publican of The Brown's Bar in Townsville, could not be happier as she contemplates the fortune she's making from lonely, thirsty soldiers.

Overnight the small Queensland city is transformed into the transport hub for 70,000 American and Australian soldiers destined for combat in the South Pacific. Barbed wire and gun emplacements cover the beaches. Historic buildings are commandeered. And the dance halls are in full swing with jazz, jitterbug and jive. The Australian troops begrudge the confident, well-fed 'Yanks' who have taken over their town and their women. There's growing conflict, too, within the American ranks, because black GIs are enjoying the absence of segregation. And the white GIs don't like it. As racial violence explodes through the ranks of the military, a young United States

'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.' - Ben Fogle

In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she

had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.

One hundred years ago, a lord lived happily in his castle. Alcohol flowed freely and the festivities were endless. One day, while he was out hunting, he jostled a young goose herder who was saved in the nick of time by a bonnet maker. The lord always said "Everything in the right place!" and that is what happened, to the lord's great chagrin. Over the years, things would change a lot. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The Little Mermaid", "The Nightingale", "The Steadfast Tin Soldier", "The Snow Queen", "The Ugly Duckling" and "The Little Match Girl". His books have been translated into every living language, and today there is no child or adult that has not met Andersen's whimsical characters. His fairy tales have been adapted to stage and

screen countless times, most notably by Disney with the animated films "The Little Mermaid" in 1989 and "Frozen", which is loosely based on "The Snow Queen", in 2013. Thanks to Andersen's contribution to children's literature, his birth date, April 2, is celebrated as International Children's Book Day.
