From USA Today bestselling author Jennifer Sucevic comes a sexy, new standalone novel. Trust me when I say that Rowan Michaels fever is alive and well at Western University. His fanbase is legendary. The guy is a major player. Both on and off the field. Girls fall all over themselves to be with him. They fill the stands at football practice, show up at parties he's rumored to be at, and basically stalk him around campus. It's a little nauseating. Don't these girls have any self-respect when it comes to a hot guy? Fine...I'll admit it, he's good looking. If you're into that kind of thing. Which I'm not. I've got school and soccer to keep me busy which is exactly

why I avoid him like an unfortunate clap diagnosis. Too bad for me that Rowan is my father's star quarterback. He's practically part of the family, attending Wednesday night dinners with us. To make matters worse, we're in the same major and get stuck together in classes every semester. It's like the universe is trying to play a cosmic joke on me. The one guy I'd like to steer clear of is the very same one I can't seem to get away from. But what if Rowan isn't the manwhore I pegged him to be? What if one little secret has the capability to change everything between us?*

This is a mature New Adult novel with strong language and sexual situations intended for readers over the age of 18*

Bari, Southern Italy, December 2009. A triple homicide in the city centre two days before Christmas and the discovery, a week before, of a middle-aged woman's corpse in one of the city's parks catapult inspector Andrea Pantaleo into a double investigation with a totally unpredictable outcome. But it is Gianrico Salvemini, the Provincial Deputy Chief of Police, to call Pantaleo to the scene of the triple homicide. Something behind the brutal crime has terrified the Deputy Chief. Something from his past. The dead of the present and those of a nightmare started many years before are somehow connected. A nightmare that can be interrupted only by Andrea Pantaleo, an experienced inspector who grew up devouring Sherlock Holmes and Ellery Queen detective novels...

THE AUTHOR Claudio Calabrese is a well-known author on Amazon, in Italy. He is an engineer, author of detective novels, science fiction, fantasy and romantic comedies. In Italy he was successful mainly thanks to the inspector Pantaleo's series, which allowed him to abandon his profession and devote himself to writing full-time novels. He lives in Bari, the splendid capital of Puglia, in the south of Italy, with his wife Monica and their black cat Aramis.

From the award-winning novelist David Whitehouse, hailed by *The New York Times* as “a writer to watch,” a tragicomic adventure about a troubled adolescent boy who escapes his small town in a stolen library-on-wheels. “An archivist of his mother,” Bobby Nusku spends his nights meticulously cataloging her hair, clothing, and other traces of the life she left behind. By day, Bobby and his best friend Sunny hatch a plan to transform Sunny, limb-by-limb, into a cyborg who could keep Bobby safe from schoolyard torment and from Bobby's abusive father and his bleach-blonde girlfriend.

When Sunny is injured in a freak accident, Bobby is forced to face the world alone. Out in the neighborhood, Bobby encounters Rosa, a peculiar girl whose disability invites the scorn of bullies. When Bobby takes Rosa home, he meets her mother, Val, a lonely divorcee, whose job is cleaning a mobile library. Bobby and Val come to fill the emotional void in each other's lives, but their bond also draws unwanted attention. After Val loses her job and Bobby is beaten by his father, they abscond in the sixteen-wheel bookmobile. On the road they are joined by Joe, a mysterious but kindhearted ex-soldier. This “puzzle of people” will travel across England, a

picaresque adventure that comes to rival those in the classic books that fill their library-on-wheels. At once tender, provocative and darkly funny, *Mobile Library* is a fable about the intrinsic human desire to be loved and understood—and about one boy's realization that the kinds of adventures found in books can happen in real life. It is the ingenious second novel by a writer whose prose has been hailed as “outlandishly clever” (*The New York Times*) and “deceptively effortless” (*The Boston Globe*).

A poignant biographical novel about a WWI-era sculptor: “It's difficult not to love the eccentric, fragile Rembrandt Bugatti and suffer alongside him” (*The New York Times Book Review*). *The Animal Gazer* is a hypnotic novel inspired by the strange and fascinating life of sculptor Rembrandt Bugatti, brother of the fabled automaker. With World War I closing in and the Belle Époque teetering to a end, Bugatti leaves his native Milan for Paris, where he encounters Rodin and casts his bronzes at the same foundry used by the French master. In Paris and then Antwerp, he obsessively observes and sculpts the baboons, giraffes, and panthers in the municipal zoos, finding empathy with their plight and identifying with their life in captivity. But as the Germans drop bombs over the Belgian city, the zoo authorities are forced to make a heart-wrenching decision about the fate of the caged animals, and Bugatti is stricken with grief from which he'll never recover. Rembrandt Bugatti's work is displayed in major museums around the world, and in this prize-winning novel, “an irresistible, elegantly conceived example of biographical fiction,” Edgardo Franzosini recreates the young artist's life with lyricism, passion, and sensitivity (*Library Journal*). “*The Animal Gazer* takes you on a glorious journey into the heart of cosmopolitan Paris as you have never known it before. Through the life of Rembrandt Bugatti, a sculptor with the panache of his name, this lively, fast-paced narrative evokes

an exceptional epoch in all its color and eccentric charm.”

SWEET is the third book in the *Contours of the Heart* series

A provocative look at the new, digital landscape of childhood and how to navigate it. In *The New Childhood*, Jordan Shapiro provides a hopeful counterpoint to the fearful hand-wringing that has come to define our narrative around children and technology. Shapiro offers concrete, practical advice on how to parent and educate children effectively in a connected world, and provides tools and techniques for using technology to engage with kids and help them learn and grow. He compares this moment in time to other great technological revolutions in humanity's past and presents entertaining micro-histories of cultural fixtures: the sandbox, finger painting, the family dinner, and more. But most importantly, *The New Childhood* paints a timely, inspiring and positive picture of today's children, recognizing that they are poised to create a progressive, diverse, meaningful, and hyper-connected world that today's adults can only barely imagine.

"In recent years research into creative labour and cultural work has usually addressed the politics of production in these fields, but the sociotechnical and aesthetic dimensions of collaborative creative work have

been somewhat overlooked. This book aims to address this gap. Through case studies that range from TV showrunning to independent publishing, from the film industry to social media platforms such as Tumblr and Wattpad, this collection develops a critical understanding of the integral role collaboration plays in contemporary media and culture. It draws attention to diverse kinds of creative collaboration afforded via the intermediation of digital platforms and networked publics. It considers how these are incorporated into emergent market paradigms and investigates the complicated forms of subjectivity that develop as a consequence. But it also acknowledges historical continuities, not least in terms of the continued exploitation of 'support personnel' and of resulting artistic conflicts but also of alternative models that resist the precarious nature of contemporary cultural work. Finally, this volume attempts to situate creative collaboration in broader social and economic contexts, where the experience and outcomes of such work have proved more problematic than the rich potential of their promise would lead us to expect
