

Libro Quimica Organica Bailey Slibforme

Principles of Medical Pharmacology covers all aspects of medical pharmacology, making it the ideal text for students in pharmacology courses in medicine, biological sciences, pharmacy, and dentistry. The book provides a solid foundation of the principles of pharmacology. Principles are explained through the use of practical examples and case studies. The text covers all aspects of medical pharmacology, including a comprehensive discussion of the clinically important features of pharmacokinetics. This new Seventh Edition has been completely revised and updated to reflect the latest research in the field. Most chapters have been extensively rewritten, with many new authors involved in the preparation of this edition.

Appointments with Heaven The True Story of a Country Doctor's Healing Encounters with the Hereafter Tyndale House Publishers, Inc. When Dr. Reggie Anderson is present at the bedside of a dying patient, something miraculous happens. Sometimes as he sits vigil and holds the patient's hand . . . he can experience what they feel and see as they cross over. Because of these God-given glimpses of the afterlife—his “appointments with heaven”—Reggie knows beyond a doubt that we are closer to the next world than we think. Join him as he shares remarkable stories from his life and practice, including the tragedy that nearly drove him away from faith forever. He reveals how what he's seen, heard, and experienced has shaped what he believes about living and dying; how we can face the passing of our loved ones with the courage and confidence that we will see them again; and how we can each prepare for our own “appointment with heaven.” Soul-stirring and hope-filled, Appointments with Heaven is a powerful journey into the questions at the very core of your being: Is there more to life than this? What is heaven like? And, most important: Do I believe it enough to let it change me?

Black and White Edition

A fresh approach to the interdisciplinary humanities course that takes a strong multicultural approach to the visual and performing arts. Organized thematically, the text covers painting, printmaking, sculpture, camera arts, architecture, music, and drama. History is taught from the perspective of the individual - artists come alive as students discover the artists' backgrounds and where they fit in the social history and cultural context. The text builds an appreciation for the language of the arts with discussion of techniques, vocabulary, and definitions.
