In this stellar memoir, Dr. Finley recounts his experiences with the stars on the revitalized Red Wings franchise in recent years, including Steve Yzerman and Nicklas Lidstrom, as well as heroes of previous generations, including 1972 Hockey Hall of Fame inductee Gordie Howe. At age seventeen Fred DeLuca borrowed \$1,000 from a friend and started SUBWAY(R). Today, with more than 38,000 stores in one hundred countries and annual sales exceeding \$16.6 billion, Fred DeLuca's SUBWAY is a success story with a message... START SMALL FINISH BIG Publishers Weekly Review: DeLuca was only 17 when he started what is now the Subway restaurant chain in 1965; he needed money to attend college and a friend offered to back him with \$1,000 to start a sandwich shop in Bridgeport, Conn. That beginning led DeLuca to an enormously successful career: in addition to being president of the chain, he runs MILE, a nonprofit organization that offers loans to entrepreneurs. According to DeLuca, there are 15 essential principles for anyone starting a small business, some of which, DeLuca confesses, he learned the hard way (he had never made a submarine sandwich before opening day of his first shop). Among these pillars: Believe in Your People; Never Run Out of Money; Keep the Faith; and Profit or Perish. DeLuca uses his own business experience as well as that of other successful entrepreneurs. e.g., the founders of Kinko's and Little Caesar's. In addition to those of less well-known business people. Written in a conversational style, the advice isn't especially original or creative. However, would-be millionaires who are sitting at their kitchen table wondering if they should take that big step and start a business will find the book both

instructive and inspirational. Agent, Bob Diforio. Library Journal DeLuca, co-founder in 1965 of SUBWAY Restaurants and founder in 1996 of the Micro Investment Lending Enterprise (MILE), a nonprofit organization making microloans to entrepreneurs/microentrepreneurs, has written this humorous, down-to-earth guide to success as a small business owner. Coauthor Hayes is a writer (Computer Architecture and Organization, 1998), public speaker, and business trainer. Each chapter describes one of DeLuca's 15 key lessons and is illustrated with a real-life case study. None of the people in these cases is a household name, but businesses such as Kinkos, Little Caesars, and SUBWAY are. DeLuca doesn't claim that his guides form a master plan for success, but he optimistically believes that anyone can become Bill Gates, Lillian Vernon, or Henry Lay and that his lessons will increase the chances. His book also promotes and supports MILE, and the last chapter and appendix are devoted to information about it and its programs. Recommended for most small business collections. Susan C. For my professional honors thesis project, I crafted a creative solution to address a marketing

problem for Little Caesars Pizza. Despite Little Caesars' emphasis on low prices and convenience, it currently struggles to attract college-aged consumers who live in college towns or areas where the Little Caesars location is far from campus and/or off-campus living. Because Little Caesars does not offer delivery and many store locations are not in reasonable walking distances, students rely on other pizza restaurants. The brand's current national advertising campaign is geared toward a more general population, failing to directly market to this demographic and allowing it to fall through the cracks. The challenge of my professional project was to increase sales of Little Caesars Pizza to college-aged consumers in the markets described above without disrupting the company's existing business structure. I conducted primary and secondary research to understand the pizza market and my target consumer group. I examined current trends to better understand the marketing landscape of the pizza industry. I also focused on purchasing habits, media usage, values, and lifestyle choices to better understand my target consumer group. This research came from studies, scholarly journals, and news articles. For my primary research, I conducted online surveys, personal interviews, and focus groups to understand how college-aged consumers feel, think, and make decisions about buying pizza. Then, I formed a strategy based on insights derived from my research. I created three personas for my target consumer group that illustrate the personalities and habits of current college-aged consumers. I also wrote a creative brief to direct my solution. I concluded my project with a creative solution that aims to address this marketing problem. A creative solution is an idea that solves a marketing communications problem in an innovative way within the client's requirements. In a real-world scenario, the creative solution in my project would be an integrated component of a broader advertising

campaign. My solution is the Little Caesars Pizzapreneurship Program. It connects college students with opportunities to deliver and run pop-up tents to sell Little Caesars pizza to make extra money. Students can also make large orders at a discounted price for student organizations.

There's more to Michigan than beautiful forests, shuttered factories, and miles and miles of stunning shoreline. Armed with this offbeat travel guide, you'll soon discover the strange underbelly of the Great Lakes State. Michigan has monuments to fluoridation, snurfing, the designer of the Jefferson nickel, and the once-famous Mr. Chicken, as well as festivals honoring tulips, Christmas pickles, and a 38-acre fungus. It's where you'll find the World's Largest Lugnut, the Nun Doll Museum, Joe's Gizzard City, the Teenie-Weenie Pickle Barrel Cottage, Howdy Doody, and Thomas Edison's last breath. The state also has its share of weird history—it's where Harry Houdini perished on Halloween night in 1926, where skater Tanya Harding's posse whacked Nancy Kerrigan, and where the Kellogg brothers invented popular breakfast cereals and less-popular yogurt enemas. Along with humorous histories and witty observations, *Oddball Michigan* provides addresses, websites, hours, fees, and driving directions for each of its 450 entries.

*Judique on the Job: The Long Road to My Career* is a lighthearted memoir detailing the author's experiences growing up on Cape Breton Island, travelling, partying, and his never-ending trials and tribulations trying to find a career that would be satisfying on all levels. In his search, the author had about eighty different jobs, many of them unique and interesting. With a

friendly and folksy tone, the book takes the reader on a tour of his adventures in employment, including work in correctional services, automobile repossession, student recruitment, and the military. The author also gives us the inside scoop on working as a film extra, rickshaw runner, doorman, and working numerous positions in the hospitality industry. The book will inspire and reassure younger readers struggling to find success and happiness in their work lives. It will also appeal to anyone with a sense of humour and an appreciation for a good story filled with joie de vivre. The book's unique title was inspired by a spirited local saying in Judique, Cape Breton Island: "Judique on the floor!" The expression is well known in the area, but its certain origin is not. As Judique was long thought to have the best step dancers in the area, if a Judique native stepped onto the dance floor, people would shout "Judique on the floor!" to alert other dancers they might as well throw in the towel. There is a second part to the story, where apparently Judiquers also liked to fight, so if they were not in the mood to dance, someone would sound the battle cry: "Judique on the floor! Who will dare put us off?" and one or more fisticuffs would ensue. This bit of local colour makes for an apt moniker for this unique and humorous tale.

A landmark book, *Results-Based Leadership* challenges the conventional wisdom surrounding leadership. Authors Ulrich, Zenger, and Smallwood--world-renowned experts in human resources and training--argue that it is not enough to gauge leaders by personal traits such as character, style, and values. Rather, effective leaders know how to connect these leadership attributes with results. *Results-Based Leadership* shows executives how to deliver results in four specific areas: results for employees, for the organization, for its customers, and for its investors. The authors provide action-oriented guidelines that readers can follow to develop and hone their own results-based leadership skills. By shifting our focus to the connection between the attributes and the results of leadership, this perceptive new guide fundamentally improves our understanding of effective leadership. *Results-Based Leadership* brings a refreshing clarity and directness to the leadership discussion, providing a hands-on program to help executives succeed with their leadership challenges.

The Deluxe Edition of *The Self-made Billionaire Effect* includes seven videos of authors John Sviokla and Mitch Cohen expanding on the book's themes and their findings, along with behind-the-scenes insights into what makes self-made billionaires unique. A study of self-made billionaires reveals the key distinction between "producers" and "performers" There are about 800 self-made billionaires in the world today. What enables this elite group to create truly massive value, and what can the rest of us learn from them? John Sviokla and Mitch Cohen set out to answer this question with the first systematic study of 120 self-made billionaires, including extensive interviews with icons like Steve Case, Mark Cuban, and T. Boone Pickens, Jr. The authors conclude that self-made billionaires aren't necessarily smarter, harder working, or luckier than their peers. The key difference is what they call the "producer" mindset, in contrast to the far more common "performer" mindset. Performers strive to excel in well-defined areas, and they are essential to any company. But producers are even more valuable because they redefine what's possible, rather than simply meeting pre-existing goals and standards. Producers think up entirely new products, services, strategies, and business models, with dramatic results. This book offers fresh stories and insights into producers' habits

Stand-up comedian and author Jim Gaffigan has made his career rhapsodizing over the most treasured dishes of the American diet (“choking on bacon is like getting murdered by your lover”) and decrying the worst offenders (“kale is the early morning of foods”). Fans flocked to his New York Times bestselling book *Dad is Fat* to hear him riff on fatherhood but now, in his second book, he will give them what they really crave—hundreds of pages of his thoughts on all things culinary(ish). Insights such as: why he believes coconut water was invented to get people to stop drinking coconut water, why pretzel bread is #3 on his most important inventions of humankind (behind the wheel and the computer), and the answer to the age-old question “which animal is more delicious: the pig, the cow, or the bacon cheeseburger?”

The Big 50: Detroit Red Wings is an amazing look at the fifty men and moments that

have made the Red Wings the Red Wings. Longtime sportswriter Helene St. James explores the living history of the team, counting down from number fifty to number one. This dynamic and comprehensive book brings to life the iconic franchise's remarkable story, including greats like Howe, Yzerman, Lidstrom, Datsyuk, and more. Imagine what Atari might have achieved if Steve Jobs had stayed there to develop the first massmarket personal computer. Or what Steve Case might have done for PepsiCo if he hadn't left for a gaming start-up that eventually became AOL. What if Salomon Brothers had kept Michael Bloomberg, or Bear Stearns had exploited the inventive ideas of Stephen Ross? Scores of top-tier entrepreneurs worked for established corporations before they struck out on their own and became self-made billionaires. People like Mark Cuban, John Paul DeJoria, Sara Blakely, and T. Boone Pickens all built businesses—in some cases, multiple businesses—that are among today's most iconic brands. This fact raises two profound questions: Why couldn't their former employers hang on to these extraordinarily talented people? And why are most big companies unable to create as much new value as the world's roughly 800 self-made billionaires? John Sviokla and Mitch Cohen decided to look more closely at self-made billionaires because creating \$1 billion or more in value is an incredible feat. Drawing on extensive research and interviews, the authors concluded that many of the myths perpetuated about billionaires are simply not true. These billionaires aren't necessarily smarter, harder working, or luckier than their peers. They aren't all prodigies, crossing

the billionaire finish line in their twenties. Nor, most of the time, do they create something brand-new: More than 80 percent of the billionaires in the research sample earned their billions in highly competitive industries. The key difference is what the authors call the “Producer” mind-set, in contrast with the far more pervasive “Performer” mind-set. Performers strive to excel in well-defined areas, and are important. But Producers are critical to any company looking to create massive value because they redefine what’s possible, rather than simply meeting preexisting goals and standards. Combining sound judgment with imaginative vision, Producers think up entirely new products, services, strategies, and business models. Big companies tend to reward Performers and discourage the unconventional ways of Producers. But it’s the latter who integrate multiple ideas, perspectives, and actions, and who trust their insights enough to make game-changing bets. This book breaks down the five critical habits of mind of massive value-creators, so you can learn how to identify, encourage, and retain such individuals—and maybe even become one yourself. The Self-made Billionaire Effect will forever change the way you think about talent and business value. In honor of The Self-Made Billionaire Effect purchases, PricewaterhouseCoopers LLP is making a significant contribution to DonorsChoose.org, an online charity that connects public school teachers in need of classroom materials and experiences with individual donors who want to help.
