With each new issue, Beatles fans worldwide would voraciously devour the contents from cover-to-cover, discovering the Fab Four s latest news and activities and most of all, savouring the exclusive B&W photographs, captured by in-house photographer, Leslie Bryce. During the magazine s six-year run only a small fraction of these photographs were

printed and then often altered in some way. The Beatles Book captured the Beatles development from British provincial theatres through foreign tours including their ground-breaking first American visit - and onwards to the band's withdrawal into the recording studio. It was unique in its access as well as concert tours and television shows, the band were photographed off duty, at their homes and in the studio locales that were generally out-of-bounds to most Beatle observers. This unique and original photographic record preserves many important moments within the Beatles career, providing a historically important glimpse into the world's greatest ever entertainment phenomenon."

Slow Looking provides a robust argument for the importance of slow looking in learning environments both general and specialized, formal and informal, and its connection to major concepts in teaching, learning, and knowledge. A museum-originated practice increasingly seen as holding wide educational benefits, slow looking contends that patient, immersive attention to content can produce active cognitive opportunities for meaning-making and critical thinking that may not be possible through high-speed means of information delivery. Addressing the multi-disciplinary applications of this purposeful behavioral practice, this book draws examples from the visual arts, literature, science, and everyday life, using original, real-world scenarios to illustrate the complexities and rewards of slow looking. The poems included in this comprehensive anthology run the gamut of styles and themes, but all are by Latinos writing from the mid- twentieth century to the present. Some deal with issues specific to the Hispanic experience, such as displacement, identity and language. Others ponder universal concerns, such as

love, family and humanity. In "Letter to Arturo," Mexican-American poet Lucha Corpi pens a song of love to her son: "You've hardly left / and already I miss the light / caress of your hands / on my hair, / and your laughter and your tears, / and all your questions / about seas, / moons and deserts. / And all my poems / are tying themselves together / in my throat." More than 60 Latino poets are represented in this wide-ranging collection that focuses on poetry from the four largest groups in the United States: Mexican Americans, Cuban Americans, Puerto Ricans and Dominican Americans. Included are distinguished poets such as Julia Álvarez, Gloria Anzaldúa, Jimmy Santiago Baca, Martín Espada and Pedro Pietri, as well as less well-known writers who deserve more recognition. Whether writing about timeless issues or themes specific to their community, the poets in this volume craft a multilayered look at what it means to be Latino in the United States. Looking Out, Looking In is an indispensable and welcome addition to American and Latino literatures.

**WARNING:** This is not the actual book *Looking for Alaska* by John Green. Do not buy this reading Sidekick if you are looking for a full copy of this great book. Use this expert sidekick to dissect these themes in *Looking for Alaska*, while enjoying a detailed analysis of each chapter of the book. If that wasn't enough, we close with potential questions and responses to help you get the conversation started with co-workers, friends, or fellow book club members. This newly discovered gem from the past (2005) has become a must-read, thanks in no small part to the success of Green's 2012 masterpiece: *The Fault in Our Stars*. As many Green fans have already discovered, our sidekick is the ultimate go-to source for understanding the complexities of John Green's tales of teen angst and tragedy. *Looking for Alaska* tells the story of Miles Halter, a 16-year-old with a nondescript life who is seeking a "Great Perhaps." In his quest, he finds himself at the Culver Creek Boarding School, where his past life of boredom and safety takes a back seat to adventure and sexual experimentation. His trek to the other side of the tracks takes him only a few steps, as he meets Alaska Young just down the hall at school. She is sexy, funny, and everything else that makes teenage

boys drool. She is also a self-destructive sort, headed toward the "After" portion of *Looking for Alaska*, where everything comes crashing down. As our sidekick details, the themes of life and death weave their way through the novel, drawing the characters closer together while preparing them for something that will rip them apart. With the rise of review sites and social media, films today, as soon as they are shown, immediately become the topic of debates on their merits not only as entertainment, but also as serious forms of artistic expression. Philosopher Robert B. Pippin, however, wants us to consider a more radical proposition: film as thought, as a reflective form. Pippin explores this idea through a series of perceptive analyses of cinematic masterpieces, revealing how films can illuminate, in a concrete manner, core features and problems of shared human life. *Filmed Thought* examines questions of morality in Almodóvar's *Talk to Her*, goodness and naïveté in Hitchcock's *Shadow of a Doubt*, love and fantasy in Sirk's *All That Heaven Allows*, politics and society in Polanski's *Chinatown* and Malick's *The Thin Red Line*, and self-understanding and understanding others in Nicholas Ray's *In a Lonely Place* and in the Dardennes brothers' oeuvre. In each reading, Pippin pays close attention to what makes these films exceptional as technical works of art (paying special attention to the role of cinematic irony) and as intellectual and philosophical achievements. Throughout, he shows how films offer a view of basic problems of human agency from the inside and allow viewers to think with and through them. Captivating and insightful, *Filmed*

A New York Times Best Illustrated Children's Book  
A New York Public Library Best Book for Kids, 2016  
Told from the perspective of the tree outside Anne Frank's window—and illustrated by a Caldecott Honor artist—this book introduces her story in a gentle and incredibly powerful way to a young audience. The tree in the courtyard was a horse chestnut. Her leaves were green stars; her flowers foaming cones of white and pink. Seagulls flocked to her shade. She spread roots and reached skyward in peace. The tree watched a little girl, who played and laughed and wrote in a diary. When strangers invaded the city and warplanes roared overhead, the tree watched the girl peek out of the curtained window of the annex. It watched as she and her family were taken away—and when her father returned after the war, alone. The tree died the

summer Anne Frank would have turned eighty-one, but its seeds and saplings have been planted around the world as a symbol of peace. Its story, and Anne's story, are beautifully told and illustrated in this powerful picture book.

*I'm Looking Through You* is an expansive visual poem celebrating the glamorous surface of Los Angeles and its reach. Animating Tim Davis's wry observations and the mesmerizing, color-pop geometry of his images is the photographer and writer's decades long, gimlet-eyed meditation on making pictures. As Davis states, "The camera is a machine that sees only surfaces. The world casts its spell, and the camera gobbles up its glamour, uncritically, with pure certainty, assuming there is nothing underneath." Davis's keenly observational images, interspersed with a selection of his writings on the medium--the joys and pitfalls of camera seeing--solidify *I'm Looking Through You* as an unabashed celebration of photography.

This summer, Aperture presents a special issue focused on the relationship between photography,

urbanism, and activist trajectories from New Delhi. The issue explores multiple incarnations of the city's photographic culture, from Bharat Sikka's new series considering queer identity and youth culture, to OP Sharma's experimental photographic works from the 1960s. Interviews with revered writer Arundhati Roy and with Bangladesh's best-known photojournalist Shahidul Alam illuminate urban life as sites of protest, in the city and throughout South Asia, while an essay by Skye Arundathi Thomas revisits Sheba Chhachhi's feminist practice and signature staged portraits of women from the 1980s and '90s. Featuring a cross-section of dynamic image makers and thinkers, such as Ishan Tankha, Sunil Gupta, Sabeena Gadihoke, and Jyoti Dhar, and emerging voices Aditi Jain and Uzma Moshin, the issue pushes forward distinctive visions for thinking about regionalism, politics, identity, and photographic ideas, through archival and contemporary viewpoints.

Presents a compilation of essays, personal accounts, historical fiction, and poetry about the White House in each period of American history. A unique examination of the differences between the lived experiences of older persons and those who claim to be "experts" on their lives, namely Gerontologists and other providers of care. When you look at fine connections, it's hard to say exactly what relation "Alice in Wonderland" has to

this book, "Through the Looking-Glass," Oh, it's plainly the same girl, though she seems older, here, and some characters (like Tweedledum and Tweedledee) appear in both. But she doesn't get there the same way, and doesn't refer to her adventures in Wonderland so much as once. Oh well: maybe it's all a dream and she can't remember the last one -- or maybe the magic through the Looking-Glass has hold of her, just as it has hold of Humpty Dumpty, or the Walrus and the Carpenter. Presents a collection of window paintings by the artist shown in an exhibition at the National Gallery, with essays on the themes, symbolism, and style of the painter and a comparison of his work with that of Charles Sheeler and Edward Hopper.

"Stories that both dazzle and edify... This book is not just about life, but about discovery itself. It is about error and hubris, but also about wonder and the reach of science." —Siddhartha Mukherjee, New York Times Book Review We all assume we know what life is, but the more scientists learn about the living world—from protocells to brains, from zygotes to pandemic viruses—the harder they find it is to locate life's edge. Carl Zimmer investigates one of the biggest questions of all: What is life? The answer

seems obvious until you try to seriously answer it. Is the apple sitting on your kitchen counter alive, or is only the apple tree it came from deserving of the word? If we can't answer that question here on earth, how will we know when and if we discover alien life on other worlds? The question hangs over some of society's most charged conflicts—whether a fertilized egg is a living person, for example, and when we ought to declare a person legally dead. *Life's Edge* is an utterly fascinating investigation that no one but one of the most celebrated science writers of our generation could craft. Zimmer journeys through the strange experiments that have attempted to re-create life. Literally hundreds of definitions of what that should look like now exist, but none has yet emerged as an obvious winner. Lists of what living things have in common do not add up to a theory of life. It's never clear why some items on the list are essential and others not. Coronaviruses have altered the course of history, and yet many scientists maintain they are not alive. Chemists are creating droplets that can swarm, sense their environment, and multiply. Have they made life in the lab? Whether he is handling pythons in Alabama or searching for hibernating bats in the Adirondacks, Zimmer revels in astounding examples of life at its most bizarre. He tries his own hand at evolving life in a test tube with unnerving results. Charting the obsession with Dr. Frankenstein's monster and how

Coleridge came to believe the whole universe was alive, Zimmer leads us all the way into the labs and minds of researchers working on engineering life from the ground up.

A provocative new novel from bestselling author T.C. Boyle exploring the first scientific and recreational forays into LSD and its mind-altering possibilities In this stirring and insightful novel, T.C. Boyle takes us back to the 1960s and to the early days of a drug whose effects have reverberated widely throughout our culture: LSD. In 1943, LSD is synthesized in Basel. Two decades later, a coterie of grad students at Harvard are gradually drawn into the inner circle of renowned psychologist and psychedelic drug

enthusiast Timothy Leary. Fitzhugh Loney, a psychology Ph.D. student and his wife, Joanie, become entranced by the drug's possibilities such that their "research" becomes less a matter of clinical trials and academic papers and instead turns into a free-wheeling exploration of mind expansion, group dynamics, and communal living. With his trademark humor and pathos, Boyle moves us through the Loneys' initiation at one of Leary's parties to his notorious summer seminars in Zihuatanejo until the Loneys' eventual expulsion from Harvard and their introduction to a communal arrangement of thirty devotees—students, wives, and children—living together in a sixty-four room mansion and devoting themselves to all kinds of experimentation and questioning. Is LSD a belief system? Does it allow you to see God? Can the Loneys' marriage—or any marriage, for that matter—survive the chaotic and sometimes orgiastic use of psychedelic drugs? Wry, witty, and wise, *Outside Looking In* is an ideal subject for this American master, and highlights Boyle's acrobatic prose, detailed plots, and big ideas. It's an utterly engaging and occasionally trippy look at the nature of reality, identity, and consciousness, as well as our seemingly infinite capacities for creativity, re-invention, and self-discovery.
