Tax-Free Wealth is about tax planning concepts. It's about how to use your country's tax laws to your benefit. In this book, Tom Wheelwright will tell you how the tax laws work. And how they are designed to reduce your taxes, not to increase your taxes. Once you understand this basic principle, you no longer need to be afraid of the tax laws. They are there to help you and your business—not to hinder you. Once you understand the basic principles of tax reduction, you can begin, immediately, reducing your taxes. Eventually, you may even be able to legally eliminate your income taxes and drastically reduce your other taxes. Once you do that, you can live a life of Tax-Free Wealth.

America's runaway inequality has an engine: our unjust tax system. Even as they became fabulously wealthy, the ultra-rich have had their taxes collapse to levels last seen in the 1920s. Meanwhile, working-class Americans have been asked to pay more. *The Triumph of Injustice* presents a forensic investigation into this dramatic transformation, written by two economists who revolutionized the study of inequality. Eschewing anecdotes and case studies, Emmanuel Saez and Gabriel Zucman offer a comprehensive view of America's tax system, based on new statistics covering all taxes paid at all levels of government. Their conclusion? For the first time in more than a century, billionaires now pay lower tax rates than their secretaries. Blending history and cutting-edge economic analysis, and writing in lively and jargon-free prose, Saez and Zucman dissect the deliberate choices (and sins of indecision) that have brought us to today: the gradual exemption of capital owners; the surge of a new tax avoidance industry, and the spiral of tax competition among nations. With clarity and concision, they explain how America turned away from the most progressive tax system in history to embrace policies that only serve to compound the wealth of a few. But *The Triumph of Injustice* is much more than a laser-sharp analysis of one of the great political and intellectual failures of our time. Saez and Zucman propose a visionary, democratic, and practical reinvention of taxes, outlining reforms that can allow tax justice to triumph in today's globalized world and democracy to prevail over concentrated wealth. A pioneering companion website allows anyone to evaluate proposals made by the authors, and to develop their own alternative tax reform at taxjusticenow.org.

Scott A Jefferys is a Certified Public Accountant, author, and entrepreneur, with a Master's Degree in Taxation. Scott is an expert in individual and business taxes, and has helped clients lower their taxes for over 25 years. For the last 19 years, he has managed his own growing CPA firm in Exton, Pennsylvania, specializing in accounting, tax planning, and consulting services for small businesses and middle to high-income individuals. Scott believes that small businesses are the lifeblood of our economy, and that the best way for a small business to grow is by keeping money in the business, not by paying too much in taxes. Not a week goes by without someone in his firm researching tax planning opportunities, and he wants to share this information and knowledge with everyone. Scott and his wife live in the suburbs of Philadelphia with their two children. Between 1995 and 2010, millions of Americans moved between the states, taking with them over \$2 trillion in adjusted gross incomes. Two trillion dollars is equivalent to the GDP of California, the ninth largest in the world. It's a lot of money. Some states, like Florida, saw tremendous gains (\$86.4 billion), while others, like New York, experienced massive losses (\$58.6 billion). People moved, and they took their working wealth with them. The question is, why? Why did Americans move so much of their income from state to state? Which states benefitted and which states suffered? And why does it matter? Using official statistics from the IRS, *How Money Walks* explores the hows, whys, and impact of this massive movement of American working wealth. Consider these facts. Between 1995 and 2010: The nine states with no personal income taxes gained \$146.2 billion in working wealth The nine states with the highest personal income tax rates lost \$107.4 billion The 10 states with the lowest per capita state-local tax burdens gained \$69.9 billion The 10 states with the highest per capita state-local tax burdens lost \$139 billion Money—and people—moved from high-tax states to low-tax ones. And the tax that seemed to matter the most? The personal income tax. The states with no income taxes gained the greatest wealth, while the states with the highest income taxes lost the most. Why does this matter? Because the robust presence of working wealth is the leading indicator of economic health. The states that gained working wealth are growing and thriving.

The states that lost working wealth lost their most precious cargo—their tax base—and the consequences are dire: stagnation, deterioration, an economic death spiral as they continue to raise taxes and lose people, businesses, and working wealth. The numbers don't lie.

“When I read *How Money Walks*, I thought, ‘It’s about time.’ Finally, we have a book that addresses one of our nation’s most critical (yet rarely discussed) fiscal issues: the migration of working wealth as a direct result of personal income tax rates. Brown’s book paints a clear portrait of where money goes and why. *How Money Walks* should be required reading for anyone who wants to understand why some states struggle to retain people and businesses while others welcome billions of new dollars each year.” Dr. Arthur Laffer Founder and chairman, Laffer Associates and Laffer Investments Former economic advisor to President Ronald Reagan
