In the tradition of Cormac McCarthy and Flannery O'Connor, Bill Cheng's *Southern Cross the Dog* is an epic literary debut in which the bonds between three childhood friends are upended by the Great Mississippi Flood of 1927. In its aftermath, one young man must choose between the lure of the future and the claims of the past. Having lost virtually everything in the fearsome storm—home, family, first love—Robert Chatham embarks on an odyssey that takes him through the deep South, from the desperation of a refugee camp to the fiery and raucous brothel Hotel Beau-Miel and into the Mississippi hinterland, where he joins a crew hired to clear the swamp and build a dam. Along his journey he encounters piano-playing hustlers, ne'er-do-well Klansmen, well-intentioned whores, and a family

of fur trappers, the L'Etangs, whose very existence is threatened by the swamp-clearing around them. The L'Etang brothers are fierce and wild but there is something soft about their cousin Frankie, possibly the only woman capable of penetrating Robert's darkest places and overturning his conviction that he's marked by the devil. Teeming with language that renders both the savage beauty and complex humanity of our shared past, *Southern Cross the Dog* is a tour de force that heralds the arrival of a major new voice in fiction.

Nicholas Sarkozy was elected President of France with a broken heart. Shortly after he took office, his second wife, Ceceila, left him for another man. Sick of his own company, he asked a friend to arrange a dinner party - and Carla Bruni was included on the guest list. A former supermodel and chart-topping singer-songwriter, Carla had a reputation as a man-eater: and she dined on the most exclusive Cordon Bleu. Her former suitors and boyfriends included Eric Clapton, Mick Jagger, Primer Minister Laurent Fabius and billionaire Donald Trump. But more than wealth and artistic brilliance, 'I want a man with nuclear power', she said: and Sarkozy had his finger on the button. The two flirted all night: and their first private date came twneety-four hours later. Within a few months, the

Since its introduction in 1998, Finding Freedom in the Classroom has impacted countless educators and preservice teachers by providing provocative questions about taken-for-granted educational routines as well as an alternative, imaginative view of what classrooms might become. This revised edition brings the conversation to the present day with contemporary examples and references to the best current thinking and writing on relevant issues. By defining terms in everyday language and demonstrating their relevance to everyday life in and out

of the classroom, the book demystifies such formidable concepts as hegemony, epistemology, and praxis for readers with little or no background in educational philosophy. Each chapter in this edition ends with several thought-provoking discussion questions and an annotated list of suggestions for further reading, which together provide a sturdy bridge between the theoretical and the practical. Finding Freedom in the Classroom can help teachers both imagine and build new classroom worlds, empowering students and teachers alike to actively shape - rather than passively accept - their fates.

Intended for scholars in the fields of political theory, and the history of political thought, this two-volume examines David Hume's Political Thought (1711-1776) and that of his contemporaries, including Smith, Blackstone, Burke and Robertson. This book is unified by its temporal focus on the middle and later decades of the eighteenth century and hence on what is usually taken to be the

core period of the Enlightenment, a somewhat problematic term. Covering topics such as property, contract and resistance theory, religious establishments, the law of nations, the balance of power, demography, and the role of unintended consequences in social life, Frederick G. Whelan convincingly conveys the diversity--and creativity--of the intellectual engagements of even a limited set of Enlightenment thinkers in contrast to dismissive attitudes, in some quarters, toward the Enlightenment and its supposed unitary project. *Political Thought of Hume and his Contemporaries: Enlightenment Projects Vol. 2* contains six in-depth studies of eighteenth-century political thought, including both normative issues and examples of Enlightenment social science, including international relations and law, the problem of double standards, political economy, demography, and the causes of imperial decline. The central figure is David Hume, with substantial attention to William Robertson, Adam Smith, Montesquieu, Malthus, and others.
