

Mad Dog The Rise And Fall Of Johnny Adair And C Company

A behind-the-scenes look at the most powerful voices on New York's AM dial, this is the all-encompassing history of WFAN. Created in 1987, WFAN was the nation's first 24-hour, all sports radio station and this work recounts how, a quarter-century later, it is the highest-rated station in New York and the home to many unforgettable radio personalities past or present, including Don Imus, Chris "Mad Dog" Russo, Mike Francesa, and Boomer Esiason. Seasoned journalist Tim Sullivan provides an account that soaks itself in the history, impact, egos, fans, and all the controversies of WFAN, making it an enthralling read for any sports fan.

The true story of one of pro wrestling's most charismatic, feared, and beloved icons Who was Maurice the man, and who was Mad Dog the character? Maurice "Mad Dog" Vachon was a gold medalist, a pro-wrestling legend, and a pop culture icon — but he was also a son, husband, and father. Mad Dog explores Vachon's career and personal struggles with painstakingly detailed historical research and through both Maurice's own recollections and those of the people who knew him best. As a young man, Maurice could have chosen a dark criminal path, but then wrestling and family changed him. Chronicling his slow but steady rise to prominence across America and internationally in some of pro wrestling's most important territories, this in-depth biography shows how Vachon's life came to be defined by the words of Mark Twain: "It's not the size of the dog in the fight, it's the size of the fight in the dog." Fiercely proud, motivated, and supremely talented, Vachon's story is also the amazing tale of how a lifelong make-believe heel became a real-life hero outside of the ring. With a foreword by his brother, Paul Vachon, and an afterword by his widow, Kathie Vachon.

Through the ages, rabies has exemplified the danger of diseases that transfer from wild animals to humans and their domestic stock. In South Africa, rabies has been on the rise since the latter part of the twentieth century despite the availability of postexposure vaccines and regular inoculation campaigns for dogs. In *Mad Dogs and Meerkats: A History of Resurgent Rabies in Southern Africa*, Karen Brown links the increase of rabies to the HIV/AIDS epidemic. Her study shows that the most afflicted regions of South Africa have seen a dangerous rise in feral dog populations as people lack the education, means, or will to care for their pets or take them to inoculation centers. Most victims are poor black children. Ineffective disease control, which in part depends on management policies in neighboring states and the diminished medical and veterinary infrastructures in Zimbabwe, has exacerbated the problem. This highly readable book is the first study of rabies in Africa, tracing its history in South Africa and neighboring states from 1800 to the present and showing how environmental and economic changes brought about by European colonialism and global trade have had long-term effects. *Mad Dogs and Meerkats* is recommended for public health policy makers and anyone interested in human-animal relations and how societies and governments have reacted to one of the world's most feared diseases.

A fascinating history of one of the hottest wrestling territories of all time Montreal was the proving ground for some of the biggest names in wrestling, including Andre the Giant, Abdullah the Butcher, and the infamous Mad Dog Vachon; it was the site of the first midget battle ever; and made famous worldwide for the infamous Survivor Series screw job that saw Vince McMahon, the Heartbreak Kid Shawn Michaels, and Bret Hart create the "attitude" that reshaped the business. *Mad Dogs, Midgets and Screw Jobs* is the ultimate guide to Montreal's legendary place in professional wrestling history. Get the lowdown on all the major wrestlers who made their name in the territory, from Yvon Robert, the Rougeaus, and Gino Brito to Edouard Carpentier. With a detailed account of the promotional war between the Rougeaus' AllStar Wrestling and the Vachons' Grand Prix, a complete history of how wrestling developed on Montreal TV, and an investigation of the murder of Dino Bravo, this book demonstrates how much of what has happened in wrestling, just may have happened first in Montreal.

"An eye-opening look into the story of Knight before his multibillion dollar company." —School Library Journal "A great story about how an ambition turned into a business...serves as a guide for accomplishing great things." —VOYA In this young reader's edition of the New York Times bestseller, Nike founder and board chairman Phil Knight "offers a rare and revealing look at the notoriously media-shy man behind the swoosh" (Booklist, starred review), opening up about how he went from being a track star at an Oregon high school to the founder of a brand and company that changed everything. You must forget your limits. It was only when Nike founder Phil Knight got cut from the baseball team as a high school freshman that his mother suggested he try out for track instead. Knight made the track team and found that not only could he run fast but also, more importantly, he liked it. Ten years later, young and searching, Knight borrowed fifty dollars from his father and launched a company with one simple mission: import high quality running shoes from Japan. Selling the shoes from the trunk of his car to start, he and his gang of friends and runners built one of the most successful brands ever. Phil Knight encountered risks and setbacks along the way, but always followed his own advice. Just keep going. Don't stop. Whatever comes up, don't stop. Filled with wisdom, humanity, humor, and heart, the young readers edition of the bestselling *Shoe Dog* is a story of determination that inspires all who read it. The Young Readers Edition is an abridged version of the internationally bestselling adult book and it features original front matter and back matter, including a new introduction and "A Letter to the Young Reader" containing advice from Phil Knight for budding entrepreneurs.

What was so fascinating about this Prohibition-era gangster? After all, dozens of such hoods roamed the streets of New York City in those desperate and violent years. But Vincent Coll took street violence to another level. He was a fearless soldier who became a leader. He forced Dutch Schultz, one of the toughest gang leaders of the era, into hiding. Coll and his crew revolutionized the art of the drive-by shooting, which is still used today by modern street gangs. His kidnapping schemes targeted other gangsters, who

couldn't go to the cops. He systematically cut down his opposition, even though he was outnumbered by more than ten to one. Then there was the real brains behind the Coll gang -- a woman. Known by the name Lottie Kreisberger, she was the quintessential gun moll and, when teamed with Vincent Coll, set their destiny for either greatness or disaster. In 1931, the year of the bloodiest gang war in New York City up until that time, Coll emerged as front-page news, with the roughest and toughest gangsters in the five boroughs running for cover from this ruthless and fearless killer and as the New York City Police Department hunting him as Public Enemy Number One. Coll's arrest, trial, and acquittal, and his murder in a drugstore phone booth at the tender age of 23, all served as inspiration to writers of gangster films that followed. The authors combine the meticulous research of investigative journalism with a novelist's flair for plot, character, setting, and style to make Mad Dog Coll as entertaining as it is informative.

Traces the rise and fall of Jeff Beck, the Wall Street legend and junk-bond dealmaker who used his connections with Drexel Burnham Lambert to make millions until his high-flying firm collapsed

Rustom Readymoney is an ambitious young Parsi who wants to be the biggest opium trader of Bombay standing against the opium baron Hirji Dorabji who will do anything to stop Rustom in his quest to find the truth about his father's death. Rehana, the beautiful daughter of Hirji is in love with Rustom. Henry, the ruthless strategist sent to stop the Malwa Opium trade that is hurting the East India Company wants to make Rehana his. Set in the 19th century India, the story spans many geographies across India and China. As Rustom's ambition pits him against the company. Characters from across the globe get entwined in this juggernaut as destinies of Williams- an American and Lee Chung -a Chinese get entwined with Rustom and his desire to found the biggest opium empire and dig out the secret behind his father's death. The company to show its supremacy hits at Bombay citizens by killing their pet dogs and the citizens rise against them to protect the street dogs of Bombay as the story races towards a Bloodcurdling climax.

In 1919, the US Government declared the production, distribution, and sale of alcohol illegal. America officially became a 'dry' land. That didn't stop people from drinking, however, and the rise of the 'speakeasy' offered huge new opportunities for organized crime. Soon, cities both large and small became battlegrounds as various crime syndicates vied for control of the underground alcohol trade. In Mad Dogs With Guns, players form their own small gangs of fedora-wearing, tommy gun-wielding gangsters and battle it out with their rivals. With numerous different gangs to choose from, including cops and G-men, a fully integrated campaign system, and rules for special situations such as car chases, the game offers a huge variety of tactical challenges. Bribe public officials, attend a gangland funeral, but always watch your back – there is always another gang waiting to poach your territory...

Once upon a time there was an innocent lad from West Texas who wrote a novel and fell in with a rabble of Texas writers as they were bridging the literary gap between J. Frank Dobie and his paisanos and the current bumper crop of Texas writers who seem to be everywhere writing about everything. This rowdy rabble of gap bridgers bonded in a sort of literary and social club they called Maddog Inc. (Motto: Doing indefinable services to mankind.) But our hero managed to live through it all anyway. This is his story. Jay Milner was part of a generation of Texas writers whose heyday lasted from the late 1950s through the 1970s. The group comprised Billie Lee Brammer, Edwin "Bud" Shrake, Gary Cartwright, Dan Jenkins, Larry L. King, Pete Gent, and (peripherally) Larry McMurtry and Willie Morris, among others. From the musical scene there were the "picker poets" such as Willie Nelson, Jerry Jeff Walker, Guy Clark, Billy Joe Shaver, and Waylon Jennings. Some of the primary works coming from this generation of writers include Brammer's The Gay Place, Shrake's Strange Peaches, Cartwright's Confessions of a Washed-up Sportswriter, King's The Whorehouse Papers and None But a Blockhead, Jan Reid's The Improbable Rise of Redneck Rock, and Willie Nelson's album Phases and Stages.

Their Eyes Were Watching God is a 1937 novel by African-American writer Zora Neale Hurston. It is considered a classic of the Harlem Renaissance of the 1920s, and it is likely Hurston's best known work. Against the backdrop of the ongoing Rohingya crisis, this book takes a close and detailed look at the rise of militant Buddhism in Sri Lanka, Burma and Thailand, and especially at the issues of 'why' and 'how' around it. We are well aware of Christian fundamentalism, militant Judaism and Islamist Salafism-Jihadism. Extremist and violent Buddhism however features only rarely in book-length studies on religion and political violence. Somehow, the very idea of Buddhist monks as the archetypical 'world renouncers' exhorting frenzied mobs to commit acts of violence against perceived 'enemies of the religion' seems to be outright ludicrous. Recent events in Myanmar/Burma, but also in Thailand and Sri Lanka, however indicate that a militant strand of Theravada Buddhism is on the rise. How can this rise be explained, and what role do monks play in that regard? These are the two broad questions that this book explores.

The most fatal virus known to science, rabies-a disease that spreads avidly from animals to humans-kills nearly one hundred percent of its victims once the infection takes root in the brain. In this critically acclaimed exploration, journalist Bill Wasik and veterinarian Monica Murphy chart four thousand years of the history, science, and cultural mythology of rabies. From Greek myths to zombie flicks, from the laboratory heroics of Louis Pasteur to the contemporary search for a lifesaving treatment, Rabid is a fresh and often wildly entertaining look at one of humankind's oldest and most fearsome foes. "A searing narrative." -The New York Times "In this keen and exceptionally well-written book, rife with surprises, narrative suspense and a steady flow of expansive insights, 'the world's most diabolical virus' conquers the unsuspecting reader's imaginative nervous system. . . . A smart, unsettling, and strangely stirring piece of work." -San Francisco Chronicle "Fascinating. . . . Wasik and Murphy chronicle more than two millennia of myths and discoveries about rabies and the animals that transmit it, including dogs, bats and raccoons." -The Wall Street Journal

Before his death in 2009, legendary Texas author Edwin "Bud" Shrake completed a final novel based on his real-life adventures as a Hollywood screenwriter in the 1970s and '80s. In this new book, we meet screenwriter Richard Swift, who has been lured away from his cushy job at Sports Illustrated to write a movie for Jack Roach, a matinee idol famous for his electric blue eyes, dimpled chin, and a swagger that makes women swoon. As Swift and his new movie star buddy hurtle through days and nights of Hollywood madness, Shrake's crystalline prose purrs like a Lamborghini speeding along the Pacific Coast Highway. There are spies and fake houses, mountains of drugs, weird sex, crimes, and bizarre feuds. In Hollywood Mad Dogs, Shrake deftly satirizes a world where a screenwriter is supplied with a bag of cocaine and given a week to write a script, a star demands that a pet cat be his sidekick on the trail, and two competing box office titans square off on a golf course, "each of them armed with a putter." This rollicking new novel, discovered among Shrake's literary papers at the Wittliff Collections, provides a hilarious and insightful look at the Hollywood meat grinder. It is a story only Bud Shrake could tell, and it is a worthy addition to the author's celebrated career, which includes some of the most highly praised novels written by a Texan.

Acclaimed author Karen Hesse's Newbery Medal-winning novel-in-verse explores the life of fourteen-year-old Billie Jo growing up in the dust bowls of Oklahoma.

It is the summer of 1728, and we are in the village of Sherburn, in the West Riding of Yorkshire, with its handsome church, boys' grammar-school, ancient tavern and tranquil rural population. Below the church lies the site of the palace of the kings of Elmete. Nearby, across the common and past the woods, are the grand houses of commissioner of the peace Squire Hawley at

Scarthingwell Hall and magistrate Sir Ralph Gascoigne at Parlinton Hall. An apparent conspiracy to re-establish the sixth-century Ancient British kingdom of Elmete has worrying, and sometimes hilarious, consequences for the hapless vicar, whose meagre detective skills are stretched to their limit. Both the squire and Sir Ralph are only too happy to leave it all to the vicar – until, that is, the vicar is arrested for gun-smuggling and the squire disappears. It then transpires, however, that the conspiracy is merely camouflage for a more interesting crime altogether ... This neat tale both faithfully recreates the atmosphere of an eighteenth-century Yorkshire village and offers the modern reader rare entertainment. Book reviews online: [PublishedBestsellers website](#).

Life During Wartime, As Seen Through the Eyes of Two Congolese Teenagers Set amid the chaos of West Africa's civil wars, Emmanuel Dongala's striking novel tells the story of two teenagers growing up while rival ethnic groups fight for control of their country. At age sixteen, Johnny is a member of the Death Dealers, a rebel faction bent on seizing power. Even as he is drawn into the rebels' program of terror, Johnny Mad Dog, as he calls himself, retains his youthful exuberance--searching for girls, good times, and adventure. Sixteen-year-old Laokolé, for her part, dreams of finishing high school and becoming an engineer, but as rogue militias prepare to sack the city, she is forced to leave home with her mother and brother--and then finds herself alone and running from the likes of Johnny. Acclaimed in France, *Johnny Mad Dog* is a coming-of-age story like no other; Dongala's masterful use of dual narrators makes the novel an unusually vivid and affecting tale of the struggle to survive--and to retain one's humanity--in terrifying times.

The result is a probing history of medicine that details the social world of New York physicians, their ideas about a rare and perplexing disorder, and the struggles of an ever-changing, ever-challenging urban society.

A mindless sectarian psychopath or a loyalist folk hero who took the war to the IRA's front door? The name Johnny 'Mad Dog' Adair is synonymous with a killing spree by loyalist terrorists that took Northern Ireland to the brink of civil war. From humble beginnings as a rioter and glue-sniffer on Belfast's Shankill Road, Adair rose through the ranks of the outlawed Ulster Freedom Fighters to head its merciless killing machine, 'C Company'. Surrounded by a group of trusted friends, his reign of terror in the early 1990s claimed the lives of up to 40 Catholics, picked out at random as Adair's hitmen roamed Belfast. Determined to lead from the front, his men even fired a rocket at Sinn Fein's headquarters, writing themselves into loyalist mythology and embarrassing the IRA in its republican heartland. Its desperate attempts to kill Adair culminated in October 1993, when a bomb on the Shankill Road, intended for the loyalist godfather, claimed the lives of nine Protestant civilians. *Mad Dog: The Rise and Fall of Johnny Adair and 'C Company'* describes in graphic detail Adair's criminal empire and an egomaniac's bloody war against Catholics and anybody else who got in his way. Adair's friends and enemies talk for the first time about the murders he ordered, his sordid personal life, and his attempts - ultimately disastrous - to become Northern Ireland's supreme loyalist figurehead.

Johnny Adair was born in the Shankill Road area of Belfast, Northern Ireland. The youngest of seven children he was raised a Protestant. As a teenager Johnny and his gang would roam the streets looking for Catholics for no other reason than religion and he bears many scars and war wounds from endless street battles. A young Loyalist, Johnny earned his reputation as a paramilitary leader long before he fully understood the politics but quickly came to realise the purpose of the paramilitary antics - freedom and peace in Northern Ireland - and this belief fuelled his passion for the campaign, making him unstoppably ruthless in his quest. The authorities hold him responsible for 41 murders and he became known as the most feared and infamous terrorist of them all. Now he breaks his silence to tell his true spine-chilling story. In 1995 Johnny was sentenced to 16 years for 'Directing Terrorism' but in 1999 he was the 293rd prisoner to be released from the Maze Prison under the Good Friday Agreement. In total there have been ten attempts on his life and he has a hole in the back of his head the size of a 50p piece where he was shot whilst at a UB40 concert, plus a hole in the side of one leg from another attack. But his story is not one about money or grudges - he was simply fighting for what he truly believes in -peace in Northern Ireland, a lifelong struggle in which he became known as the hardest man in the UK.

The meteoric rise of the largest unregulated financial market in the world-for contemporary art-is driven by a few passionate, guileful, and very hard-nosed dealers. They can make and break careers and fortunes. The contemporary art market is an international juggernaut, throwing off multimillion-dollar deals as wealthy buyers move from fair to fair, auction to auction, party to glittering party. But none of it would happen without the dealers-the tastemakers who back emerging artists and steer them to success, often to see them picked off by a rival. Dealers operate within a private world of handshake agreements, negotiating for the highest commissions. Michael Shnayerson, a longtime contributing editor to *Vanity Fair*, writes the first ever definitive history of their activities. He has spoken to all of today's so-called mega dealers-Larry Gagosian, David Zwirner, Arne and Marc Glimcher, and Iwan Wirth-along with dozens of other dealers-from Irving Blum to Gavin Brown-who worked with the greatest artists of their times: Jackson Pollock, Andy Warhol, Cy Twombly, and more. This kaleidoscopic history begins in the mid-1940s in genteel poverty with a scattering of galleries in midtown Manhattan, takes us through the ramshackle 1950s studios of Coenties Slip, the hipster locations in SoHo and Chelsea, London's Bond Street, and across the terraces of Art Basel until today. Now, dealers and auctioneers are seeking the first billion-dollar painting. It hasn't happened yet, but they are confident they can push the price there soon.

Half of me was thinking, Georgina, don't do this. Stealing a dog is just plain wrong. The other half of me was thinking, Georgina, you're in a bad fix and you got to do whatever it takes to get yourself out of it. Georgina Hayes is desperate. Ever since her father left and they were evicted from their apartment, her family has been living in their car. With her mama juggling two jobs and trying to make enough money to find a place to live, Georgina is stuck looking after her younger brother, Toby. And she has her heart set on improving their situation. When Georgina spots a missing-dog poster with a reward of five hundred dollars, the solution to all her problems suddenly seems within reach. All she has to do is "borrow" the right dog and its owners are sure to offer a reward. What happens next is the last thing she expected. With unmistakable sympathy, Barbara O'Connor tells the story of a young girl struggling to see what's right when everything else seems wrong. *How to Steal a Dog* is a 2008 Bank Street - Best Children's Book of the Year. This title has Common Core connections.

A bestselling modern classic—both poignant and funny—about a boy with autism who sets out to solve the murder of a neighbor's dog and discovers unexpected truths about himself and the world. Nominated as one of America's best-loved novels by PBS's *The Great American Read* Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. He relates well to animals but has no understanding of human emotions. He cannot stand to be touched. And he detests the color yellow. This improbable story of Christopher's quest to investigate the suspicious

death of a neighborhood dog makes for one of the most captivating, unusual, and widely heralded novels in recent years.

Travis Maddox, Eastern University's playboy, makes a bet with good girl Abby that if he loses, he will remain abstinent for a month, but if he wins, Abby must live in his apartment for the same amount of time. Provides an entertaining and thought-provoking look at some of the most hotly debated controversies in sports history, from who is the best quarterback of all time, to who would win in a confrontation between Muhammad Ali and Joe Louis, to whether or not today's athletes are as good as the greats from the past. Reprint.

Rabies was a constant threat in Victorian Britain and gripped popular imagination, not least because its human form, hydrophobia, produced a vile death with the mind and body out of control. This book explores the changing understanding of rabies amongst veterinarians, animal welfare campaigners, state officials, politicians and the public.

NATIONAL BESTSELLER • The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword. "Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection." —The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup "unicorn" promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees.

Sectarian murder, torture, bloody power struggles and racketeering are what for many define their image of the Ulster Defence Association. Yet as Northern Ireland's Troubles worsened in 1971 and 1972, it emerged with a mass membership to defend Loyalist areas against the IRA and to uphold the Union with Britain. By 1974 it was able to defy the will of an elected government and it went on to formulate political strategies for working-class Loyalism. Ian S. Wood uses his specialist knowledge as well as extensive interviews to recount these events and the ruthless war waged by the UDA on the nationalist community. He explores issues such as the UDA's descent into criminality and its relationship with the 'secret war' conducted by Britain's undercover services and he assesses what impact the organisation had on the outcome of Europe's worst political and ethnic conflict between 1945 and the break-up of the Soviet Union and Yugoslavia after 1990.

"In Mad Dogs and Meerkats, Karen Brown links the increase of rabies in Southern Africa to the HIV/AIDS epidemic. Her study shows that the most afflicted regions of South Africa have seen a dangerous rise in feral dog populations as people lack the education, means, or will to care for their pets or take them to inoculation centers. Ineffective disease control, which in part depends on management policies in neighboring states, has exacerbated the problem. The book traces the history of rabies in South Africa and neighboring states from 1800 to the present and shows how environmental and economic changes brought about by European colonialism and global trade have had long-term effects"--Provided by publisher.

At the height of the sixties, a group of Texas writers stood apart from Texas' conservative establishment. Calling themselves the Mad Dogs, these six writers—Bud Shrake, Larry L. King, Billy Lee Brammer, Gary Cartwright, Dan Jenkins, and Peter Gent—closely observed the effects of the Vietnam War; the Kennedy assassination; the rapid population shift from rural to urban environments; Lyndon Johnson's rise to national prominence; the Civil Rights Movement; Tom Landry and the Dallas Cowboys; Willie Nelson, Jerry Jeff Walker, the new Outlaw music scene; the birth of a Texas film industry; Texas Monthly magazine; the flowering of "Texas Chic"; and Ann Richards' election as governor. In Texas Literary Outlaws, Steven L. Davis makes extensive use of untapped literary archives to weave a fascinating portrait of writers who came of age during a period of rapid social change. With Davis's eye for vibrant detail and a broad historical perspective, Texas Literary Outlaws moves easily between H. L. Hunt's Dallas mansion and the West Texas oil patch, from the New York literary salon of Elaine's to the Armadillo World Headquarters in Austin, from Dennis Hopper on a film set in Mexico to Jerry Jeff Walker crashing a party at Princeton University. The Mad Dogs were less interested in Texas' mythic past than in the world they knew firsthand—a place of fast-growing cities and hard-edged political battles. The Mad Dogs crashed headfirst into the sixties, and their legendary excesses have often overshadowed their literary production. Davis never shies away from criticism in this no-holds-barred account, yet he also shows how the Mad Dogs' rambunctious personae have deflected a true understanding of their deeper aims. Despite their popular image, the Mad Dogs were deadly serious as they turned their gaze on their home state, and they chronicled Texas culture with daring, wit, and sophistication.

Rightly called the saddest story in rock 'n' roll history, this Creedence biography--newly updated with stories from band members, producers, business associates, close friends, and families--recounts the tragic and triumphant tale of one of America's most beloved bands. Hailed as the great American rock band from 1968 to 1971, Creedence Clearwater Revival captured the imaginations of a generation with classic hits like "Proud Mary," "Down on the Corner," "Green River," "Born on the Bayou," and "Who'll Stop the Rain." Mounting tensions among bandmates over vibrant guitarist and lead vocalist John Fogerty's creative control led to the band's demise. Tracing the lives of four musicians who redefined an American roots-rock sound with unequalled passion and power, this music biography exposes the bitter end and abandoned talent of a band left crippled by debt and dissension.

Fourteen-year-old Daniel and his friends enjoyed the best that childhood could offer during the summer of 1975 in a northern mining town until someone started brutally killing family pets. Daniel, who wants nothing more than be the hero from his books, convinces his friends to help search for the 'sicko', but this only brings him to the attention of the killer. When evidence surfaces that points at Daniel as the killer and his two friends turn against him, he soon realizes that there is much more to being a hero than what he has read. Running away from home, he enlists two seniors and a neighborhood bully to help trap the real killer.

"An impressive combination of diligence and verve, deploying Ackerman's deep stores of knowledge as a national security journalist to full effect. The result is a narrative of the last 20 years that is upsetting, discerning and brilliantly argued." —The New York Times "One of the most illuminating books to come out of the Trump era." —New York Magazine An examination of the profound impact that the War on Terror had in pushing American politics and society in an authoritarian direction For an entire generation, at home and abroad, the United States has waged an endless conflict known as the War on Terror. In addition to multiple ground wars, it has pioneered drone strikes and industrial-scale digital surveillance, as well as detaining people indefinitely and torturing them. These conflicts have yielded neither peace nor victory, but they have transformed America. What began as the persecution of Muslims and immigrants has become a normalized, paranoid feature of American politics and security, expanding the possibilities for applying similar or worse measures against other targets at home. A politically divided

country turned the War on Terror into a cultural and then tribal struggle, first on the ideological fringes and ultimately expanding to conquer the Republican Party, often with the timid acquiescence of the Democratic Party. Today's nativist resurgence walked through a door opened by the 9/11 era. Reign of Terror will show how these policies created a foundation for American authoritarianism and, though it is not a book about Donald Trump, it will provide a critical explanation of his rise to power and the sources of his political strength. It will show that Barack Obama squandered an opportunity to dismantle the War on Terror after killing Osama bin Laden. That mistake turns out to have been portentous. By the end of his tenure, the war metastasized into a broader and bitter culture struggle in search of a demagogue like Trump to lead it. A union of journalism and intellectual history, Reign of Terror will be a pathbreaking and definitive book with the power to transform how America understands its national security policies and their catastrophic impact on its civic life.

Maddox - Mad Dog - White hates everything the name Vitiello stands for, after he witnessed his father and his men getting butchered by the Capo of the Italian mob in their territory. Raised by his uncle, the president of the Tartarus MC, Maddox is destined to follow in his footsteps. Now their chapter is on the rise again, but for their ultimate triumph they need to destroy the Vitiello empire. And what better way to do it than to steal the spoilt Vitiello princess and break her piece by piece until her father begs for mercy. Known as the spoilt princess of New York, Marcella Vitiello grew up in a golden cage. If your father is the most feared man in New York, people gift you with reverence. Destined to marry the boyfriend approved by her father, Marcella is sick of being treated like an untouchable porcelain doll. She resents the life forced upon her by her family until everything she took for granted is ripped from her. Where she's now, her name doesn't bring awe, only pain and humiliation. If you've grown up in a high castle, the fall is all the deeper. Sins of the fathers have a way of catching up, who's going to bleed for them?
