This is the first book published with recipes, methodology and tips on how to make Melt and Pour Soap from Scratch. It is written from the perspective of a Cosmetic Formulator on the production of the popular cosmetic base known as, Melt and Pour Soap. Whether you are a crafter, hobbyist or business owner this book has everything that you need. This book give you guidance on how, as a small home based business, you can follow the regulations, labeling laws and industry standards for selling soap and cosmetics. My entire journey into the cosmetic industry started with Melt and Pour Soap shortly after I discovered aromatherapy. The roots of our business, Essential Wholesale, all started in December of 1998. Over the years we moved from our home kitchenette to a 600 square foot space, to a 2500 square foot building, to a 10,000 square foot space in a bigger building, and from there we have expanded into 30,000 square feet of that same building. In 2011 our business will be moving to an even larger 58,000 square foot building. As our business expanded we began to focus on natural cosmetics and personal care products. However, I never lost my curiosity and fascination with Melt and Pour Soap. Our relationship with Melt and Pour Soap changed over the years. At first we sold retail customized Melt and Pour Soaps. We then bought and sold the company Critter Soaps. Later we sold thousands of pounds worth of wholesale Melt and Pour Soap base and eventually discontinued selling Melt and Pour Soap because the price kept rising. At the time Melt and Pour Soap was the only cosmetic base we sold that we didn't manufacture ourselves. It simply didn't make sense to wholesale someone else's base when our business model had changed to selling only the bases we manufactured ourselves. It was at this point in our business that I decided it was time to formulate our own Melt and Pour Soap ourselves. It didn't take long to have working formulas, but at that moment we were using up every inch of space in our 30,000 square foot building. We were bursting at the seams and couldn't accommodate the manufacturing and cooling of the Melt and Pour Soap Base in bulk. Our space was so tight we couldn't possibly cool an 8,000 lb batch of Melt and Pour Soap base into multiple 1 lb, 20 lb and 40 lb blocks to sell in bulk. But we got continued requests to manufacture and sell Melt and Pour Soap base. My solution is this book. I decided to share these basic recipes with you to give you the freedom to make your own Melt and Pour base in the quantities that work best for your business. These recipes will teach you the foundational information that you need and

Natural & Organic Liquid Soap Making Business Startup Learn How to Make Shampoo, Conditioner, Body Wash, Sunscreen Lotion, Muscle Balm, Hand Sanitizers, Pet Shampoo & So Much More I started making Body wash, shampoo and conditioners in 2004 when after a couple of allergy tests my dermatologist advised me not to use any store bought soap or shampoo. The doctor said my skin discoloration issue was an adverse chemical reaction from the soap. Soon my necessity to make soap became a true passion. It wasn't until 2012 when my husband got laid off from his job, I had to seriously think about how to turn my passion into a small home based business, and I did. I grew my business into a decent business making not only Shampoos or liquid soaps, but I ventured into making body scrubs, body wash, SPF lotions, muscle rubs, bug repellent, hand scrub(mostly for my husband, so he can use after working on his 65 Mustang), hand sanitizer and even dog shampoo for our 10 years old Dalmatian. This book is not about my success in business, but I want to focus on you and your ability to make your passion into a home based business which can potentially grow into a big business. Lately, the new trend is all organic and all natural Beauty products, so I think this is the right time to get into this business. I put my best efforts to make this book easy to read and follow so you can get started and see a big success in a short period of time. In this book, my goal is to you make you understand and learn how each ingredient works with each other and how to create your own recipes and flavors, so your creative side comes out and creates something unique that is truly yours and only yours. *****RECOMMENDED BY THE HANDCRAFTED SOAP & COSMETIC GUILD***** "Should become THE book for soapmaking. . . . It's about time someone wrote a book like this. Most are idealistic and inaccurate. This book has a wonderful common sense approach that is SO long overdue. . . . I can recommend it with 100% confidence." -- Susan Kennedy, Oregon Trail Soaps, Rogue River, Oregon "Smart it is A simple, no-nonsense book that cuts through the curmudgery of stifling soap bibles like no other." -- Shellie Humphries, Harstine Island, Washington "Way overdue. . . . A gift of common sense caution, proven methods, tried-and-true shortcuts, and some excellent recipes as well, for both the professional/experienced soapmaker and the eager beginner." -- Deb Petersen, Shepherd's Soap Co., Shelton, Washington "A great book for beginners, with clear and easy instructions." -- Anne-Marie Faiola, Bramble Berry Inc., Bellingham, Washington "I learned more from Smart Soapmaking than from any other soaping book, and I have read quite a few. . . . It's written with the average person in mind, not a chemistry major. Directions are very simple and easy to understand. It really takes the mystery out of making soap." -- Jackie Pack, Stuart, Virginia "Groundbreaking Anne L. Watson [is the] universally respected and loved author/crafter/curator of this lost art for thousands of aspiring soapers Unquestionably the best book with which to begin.
