Natural Language Processing - Image Recognition Description Most AI initiatives in organizations fail today not because of a lack of good AI solutions, but because of a lack of understanding of AI among its end users, decision makers and investors. Today, organizations need managers who can leverage AI to solve business problems and provide a competitive advantage. This book is designed to enable you to fill that need, and create an edge for your career. The chapters offer unique managerial frameworks to guide an organization's AI journey. The first section looks at what AI is; and how you can prepare for it, decide when to use it, and avoid pitfalls on the way. The second section dives into the different AI techniques and shows you where to apply them in business. The final section then prepares you from a strategic AI leadership perspective to lead the future of organizations. By the end of the book, you will be ready to offer any organization the capability to use AI successfully and responsibly - a need that is fast becoming a necessity. What will you learn ? Understand the major AI techniques & how they are used in business. ? Determine which AI technique(s) can solve your business problem. ? Decide whether to build or buy an AI solution. ? Estimate the financial value of an AI solution or company. ? Frame a robust policy to guide the responsible use of AI. Who this book is for This book is for Executives, Managers and Students on both Business and Technical teams who would like to use Artificial Intelligence effectively to solve business problems or get an edge in their careers. Since 2001, the Gallup Management Journal has provided leaders with essential insights into managing the human side of their businesses: their employees and customers. This book features articles from the first seven years of the journal that could not be more relevant today, as executives continue to struggle with the transition into a 21st century global economy. A range of voices is included in these pages. A Ritz-Carlton executive tells how his company is reinventing its world-class brand, while a leader at Ann Taylor describes how the retailer invests in talent. Nobel Prize winner Daniel Kahneman probes how customers think, while one of the founding fathers of the Internet, Vinton Cerf, speculates on the future of a connected world. With its lively writing and penetrating, research-driven insights, The Best of the Gallup Management Journal 2001-2007 is essential reading for leaders who want to engage employees and customers in a hyper-competitive and ever-changing global economy.

Foundations in Accountancy (FIA) awards are entry-level, core-skill focused qualifications from ACCA. They provide flexible options for students and employers, and as official ACCA Approved Learning Provider - Content, BPP Learning Media's study materials are tailored to the exams students will take.
