The importance of being other-oriented-being mindfully considerate of the thoughts, needs, and values of others- was the foundation of the first five Canadian editions of *Interpersonal Communication: Relating to Others*, and it continues as the central theme of the sixth Canadian edition. Updated to include new research, statistics and Canadian content, this edition offers exceptional coverage of diversity and an expanded discussion integrated throughout on technology's impact on communication and its relevance to communication in students' daily lives.

*Managerial Accounting, 3rd Edition* by Charles and Elizabeth Davis offers a modern, practical approach to teaching and learning managerial accounting based on a unique integration of concepts, practice, and business context within distinct and flexible learning units. Praised for its decision-making framework, *Managerial Accounting, 3rd Edition*, provides students with a better understanding of decisions made by organizations through the inclusion of a Continuing CaseStory, which puts business decisions into context and allows students to see the relevance of managerial accounting to their future careers.

Pooling the expertise of leading researchers *Issues in Management Accounting* critically explores a broad range of issues in a concise, digestible style. Both students and practitioners specialising in this area will find this book an essential guide to the many developments affecting management accounting theory and practice.

For courses in Financial and Managerial Accounting. Expanding on proven success with Horngren's financial and managerial accounting *Horngren's Financial and Managerial Accounting, The Financial Chapters* presents the core content of principles of accounting courses in a fresh format designed to help today's learners succeed. As teachers first, the author team knows the importance of delivering a student experience free of obstacles. Their pedagogy and content uses leading methods in teaching students critical foundational topics and concentrates on improving student results--all tested in class by the authors themselves. With this in mind, the 6th Edition continues to focus on readability and student comprehension.

*Guns. Acid. Cameras. School.* The themes behind the controversial *Hellblazer: Shoot* by Warren Ellis and Phil Jimenez merge with the attitude of the Grant Morrison and Philip Bond masterpiece of teenage revolt, *Kill Your Boyfriend*, deliver a story of magic, passion, and disinformation. *Wild Children: A different type of education.*

*Introduction to Managerial Accounting, 4/e* by Brewer/Garrison/Noreen is based on the market-leading text, *Managerial Accounting*, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

Intended primarily for Managerial Economics courses, this text also provides practical content to current and aspiring industry professionals. Economics is a powerful tool that can help managers to manage effectively. In *Managerial Economics* Jeffrey Perloff and James Brander use real-world issues and examples from actual markets to show future managers how economic principles can be used in business decisions. In text examples and boxed mini-cases use actual data to illustrate how to use basic models. For example, to illustrate rivalry in oligopolistic markets, the authors look at rivalry between United and American Airlines and between Coke and Pepsi. Mini-case examples include why American Apparel is vertically integrated and why upscale manufacturers limit the number of designer hand-bags a customer is allowed to buy. To help future managers learn to solve new problems, Perloff and Brander repeatedly demonstrate problem-solving through in-text Q&As. Each Q&A poses an important managerial or economic issue and demonstrates how to solve it using a step-by-step approach. For undergraduate and MBA cost or management accounting courses. Horngren's *Cost Accounting* spells out the cost accounting market and continues to innovate by consistently integrating the most current practice and theory into the text. This acclaimed, market-leading text emphasises the basic theme of "different costs for different purposes," and reaches beyond cost accounting procedures to consider concepts, analyses, and management. The 17th Edition incorporates the latest research and most up-to-date thinking into all relevant chapters, so that students are prepared for the rewards and challenges they will face in the professional cost accounting world of today and tomorrow.

Lo/Fisher is praised for its readability and conversational writing style that helps students better understand difficult concepts in Accounting. Lo/Fisher presents the how and why of reporting accounting information from within an easily-understood theoretical framework. Lo/Fisher has a clean layout that engages the reader with a clear writing style using plain English. This text is built on the current International Financial Reporting Standards (IFRS) and incorporates Accounting Standards for Private Enterprise (ASPE) where appropriate. Our philosophy is that when students understand the current standards, they will be able to analyze and interpret changes in the future. Note: You are purchasing a standalone product; MyAccountingLab does not come packaged with this content. This book provides an introduction to investment appraisal and presents a range of methods and models, some of which are not widely known, or at least not well covered by other textbooks. Each approach is thoroughly described, evaluated and illustrated using examples, with its assumptions and limitations analyzed in terms of their implications for investment decision-making practice. Investment decisions are of vital importance to all companies. Getting these decisions right is crucial but, due to a complex and dynamic business environment, this remains a challenging management task. Effective appraisal methods are valuable tools in supporting investment decision-making. As organisations continue to seek a competitive edge, it is increasingly important that management accountants and strategic decision-makers have a sound knowledge of these tools.

*Financial Accounting for Management: An Analytical Perspective* focuses on the analysis and interpretation of financial information for strategic decision making to enable students and managers to formulate business strategies for revenue enhancement, cost economies, efficiency improvements, restructuring of operations, and further expansion or diversification for creating and enhancing the shareholder's value. MBA, MFC and MBE students are its primary audience but its practical orientation will also be useful to corporate sector managers and CA, CWA, CS, CFA and CAIIB students.

Expanding on Proven Success with Horngren's Financial and Managerial Accounting Horngren's Financial and Managerial Accounting presents the core content of the accounting course in a fresh format designed to help today's learners succeed. The Eleventh Edition expands on the proven success of the significant revision to the Horngren franchise and uses what the authors have learned from focus groups, market feedback, and colleagues to create livelier classrooms, provide meaningful learning tools, and give professors resources to help students inside and outside the class. First, the authors ensured that content was clear, consistent, and above all, accurate. Every chapter is reviewed to ensure that students understand what they are reading and that there is consistency from chapter to chapter. The author team worked every single accounting problem and employed a team of accounting professors from across the nation to review for accuracy. This edition continues the focus on student success and provides resources for professors to create an active and engaging classroom. Through MyAccountingLab, students have the opportunity to watch author recorded solution videos, practice the accounting cycle using an interactive tutorial, and watch in-depth author-driven animated lectures that cover every learning objective. In addition, all instructor resources have been updated to accompany this edition of the book, including the PowerPoint presentations and Test Bank. Also available with MyAccountingLab ® MyAccountingLab is an online homework, tutorial, and assessment program designed to work with this text to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts.

For one semester MBA Managerial Economics courses Economics for Managers presents the fundamental ideas of microeconomics and macroeconomics and integrates them from a managerial decision-making perspective in a framework that can be used in a single-semester course. To be competitive in today's business environment, managers must understand how economic forces affect their business and the factors that must be considered when making business decisions. This is the only book that provides business students and MBAs with a thorough and applied understanding of both micro- and macroeconomic concepts in a way non-economics majors can understand. The third edition retains all the same core concepts and straightforward material on micro- and macroeconomics while incorporating new case material and real-world examples that relate to today's managerial student.

Go beyond managerial accounting theory to the techniques used in management today. Managerial Accounting: Making

Decisions and Motivating Performance enables managers and business owners to attain the core skills they need to become integral members of their company's decision-making teams. This new program from established authors Srikant M. Datar and Madhav Rajan emphasizes decision-making and the effects of decisions. While many texts teach the theories and frameworks of management education, Managerial Accounting goes further by covering the capabilities and techniques necessary for effective management practice, as well as fostering attitudes that typify integrity, honesty, and fairness. 0132816245 / 9780132816243 Managerial Accounting: Making Decisions and Motivating Performance Plus NEW MyAccountingLab with Pearson eText -- Access Card Package Package consists of: 0132829444 / 9780132829441 NEW MyAccountingLab with Pearson eText -- Access Card -- for Managerial Accounting: Making Decisions and Motivating Performance, 1/e 0137024878 / 9780137024872 Managerial Accounting: Making Decisions and Motivating Performance, 1/e
