Those long summer days and weekends spent with our best friends can be among the happiest memories of childhood. But the art of making friends isn't a skill that is taught in most schools. Teaching children how to be good friends and cultivate healthy friendships is the work of parents, teachers, coaches, ministers, and caring adults. In *How to Be a Friend: A Book about Friendship . . . Just for Me!*, author, Molly Wigand, introduces children to those values that make for good friendships—loyalty, trust, and honesty—and to how they can become a good friend to others.

The first edition of *The Encyclopedia of Science Fiction* was published in 1979 and was immediately hailed as a classic work of reference. This edition, now available in paperback, has taken years to prepare and is much more than a simple updating. The world of science fiction in the 1990s is much more complex than it was in the 1970s. The advent of game worlds, shared worlds, graphic novels, film and TV spin-offs, technothrillers, SF horror and much more has meant that the book has been expanded dramatically to cope with the complexities and changes in the genre. It now contains well over 4,300 entries - a staggering 1,500 more than the original - and, at 1.3 million words, it is over half a million words longer than the first edition. Written and compiled by a team of editors with unparalleled collective experience in the field, it is an invaluable reference work for any fan of imaginative fiction.

Insolent and defiant, the Chants de Maldoror, by the self-styled Comte de Lautréamont (1846-70), depicts a sinister and sadistic world of unrestrained savagery and brutality. One of the earliest and most astonishing examples of surrealist writing, it follows the experiences of Maldoror, a master of disguises pursued by the police as the incarnation of evil, as he makes his way through a nightmarish realm of angels and gravediggers, hermaphrodites and prostitutes, lunatics and strange children. Delirious, erotic, blasphemous and grandiose by turns, this hallucinatory novel captured the imagination of artists and writers as diverse as Modigliani, Verlaine, André Gide and André Breton; it was hailed by the twentieth-century Surrealist movement as a formative and revelatory masterpiece.

How the Chinese look at themselves, the world, and the challenges of the future. Where is China, What is China: Where are the traditional pigtailed of the old mandarins, the Mao's bicycles and his suits? Where are the large families with the many concubines? The stuff that made China for centuries in all the stories Chinese and foreigners told of this huge country is gone. China now is skyscrapers, limousines, fast trains, science fiction airports, bright neon lights that explode in the night more than fireworks. Chinese are changing and have changed beyond recognition. In fact, they have changed so much that they do not see themselves in their present shape, just like an animal going through a metamorphosis. We are in the middle of this huge transformation and we don't know if and when the new shape will stabilize and what impact it will have on the conscience of the Chinese and of the people of the world looking at China. This book is an exploration into this huge revolution that is affecting the whole planet in the biggest way possibly since the fall of the Roman Empire.

This award-winning book, written by Jean-Luc Barre at the request of the Maritain Archives in Kolbsheim, France, and published in France in 1995, was the first biography of noted French philosopher Jacques Maritain and his wife Raissa. Drawing on the wealth of Maritain materials at the Kolbsheim archives, many of which are unpublished, Barre offers a clear and objective account of the remarkable lives and intellectual pursuits of the Maritains. Noted scholar and translator Bernard Doering has now made this essential work available for the first time in English. Jacques and Raissa Maritain: Beggars for Heaven focuses not only on the Maritains' philosophical work, but also on their pursuit of social justice, their opposition to the Vichy, their battle against intellectual repression in the church, and their contemplative life of prayer and devotion. Barre places a particular emphasis on the Maritains' close and supportive friendships with novelists, poets, painters, and musicians who were considered revolutionary at the time. Doering's translation will appeal not only to scholars but also to anyone interested in intellectual history generally and the intellectual history of modern Catholicism in particular. Reviews of the French Edition: "With respect and admiration . . . doing the work of a historian as well as a biographer, Jean-Luc Barre has spun out the life thread of the Maritains. Above all he has found, between the history of the century and the personal history of this couple, a very just balance. . . . From every point of view, from the multiplicity and the complexity of the historical figures of the Maritains—from the most intimate aspects to their outward 'engagements'—the biography furnishes all the necessary information. It puts into relief the line of force which dominates and orders this life."--Le Monde "Few French intellectuals have had in the world, and while they were still alive, as much influence as Jacques Maritain. . . . The work of Jean-Luc Barre lets us reconstitute the itinerary of these beggars from heaven, in part philosophers, in part mystics. . . . [It offers] finely chiseled portraits . . . and an encyclopedic knowledge of that world of yesterday which we forget so readily."--Figaro Litteraire

From the moment he was born, Andrew Bridge and his mother Hope shared a love so deep that it felt like nothing else mattered. Trapped in desperate poverty and confronted with unthinkable tragedies, all Andrew ever wanted was to be with his mom. But as her mental health steadily declined, and with no one else left to care for him, authorities arrived and tore Andrew from his screaming mother's arms. In that moment, the life he knew came crashing down around him. He was only seven years old. Hope was institutionalized, and Andrew was placed in what would be his devastating reality for the next eleven years--foster care. After surviving one of our country's most notorious children's facilities, Andrew was thrust into a savagely loveless foster family that refused to accept him as one of their own. Deprived of the nurturing he needed, Andrew clung to academics and the kindness of teachers. All the while, he refused to surrender the love he held for his mother in his heart. Ultimately, Andrew earned a scholarship to Wesleyan, went on to Harvard Law School, and became a Fulbright Scholar. Andrew has dedicated his life's work to helping children living in poverty and in the foster care system. He defied the staggering odds set against him, and here in this heartwrenching, brutally honest, and inspirational memoir, he reveals who Hope's boy really is.
