The guide to engaging and directing the three primordial forces of Earth, Heaven, and Higher Self to achieve enlightenment and immortality • Explains how to circulate the life force, or chi, by balancing yang (male) and yin (female) currents of bioenergy • Includes an overview of the complete Taoist body/mind/spirit system along with newly refined methods of activating the life force • The sequel to the classic Awaken Healing Energy Through the Tao In 1983, Mantak Chia introduced the "Microcosmic Orbit" to the West. Prior to that time, most of the Eastern energy practices transmitted to the West were incomplete, dealing only with the ascending yang/masculine channel, which shoots life-force energy up the spine. The Microcosmic Orbit showed practitioners how to establish the descending yin/feminine channel of the life-force energy loop. Within Taoist systems, cultivating feminine energy has always been seen as the key to gaining balance and wholeness. Healing Light of the Tao presents the more advanced methods of chi cultivation in the Microcosmic Orbit, offering a full understanding of Taoist spiritual theory through its comprehensive overview of the complete Taoist body/mind/spirit system. The book also includes more advanced meditation methods for absorbing the higher frequencies of Earth Force, Cosmic Force, and Universal Force (Heavenly chi) into the basic orbit. It establishes a

spiritual science that not only emphasizes practical benefits to health, sexual vitality, and emotional balance, but also shows how changes made in the energy body can lead to physical rejuvenation that the Taoists called immortality. Explores the deep, internal work necessary for the effective practice of tai chi • Reveals the Taoist principles that gave birth to the Yang-style tai chi forms • Shows how tai chi can circulate powerful healing energies through the body Taoist adepts developed tai chi as both a martial art and a way to cultivate their physical body, energy body, and spirit body. Like all Taoist exercises, its main purpose is to form a connection to the basic energy that is the foundation of all life: chi. Until the beginning of the twentieth century, tai chi was considered a secret practice that was passed down only within a closely knit structure of family and loyal disciples. Despite its widespread growth in popularity as a martial art and health exercise, many of its underlying internal practices remain unknown. The Inner Structure of Tai Chi explores the deep, internal work necessary for the effective practice of tai chi. Designed for practitioners at every level, the book contains step-by-step illustrated instructions for mastering the 13 forms of early Yang-style tai chi, also known as Tai Chi Chi Kung. The authors demonstrate the relationship of the inner structure of tai chi to the absorption, transformation, and circulation of the three forces that animate all life--the Universal force, the Cosmic force, and the Earth force--revealing the principles and practices necessary to receive the full spectrum of physical, psychological, and spiritual benefits that tai chi can bring.

Advanced Taoist techniques for detoxifying and rejuvenating the internal organs through the release of negative chi • Works with the navel center, where negative emotions, stress, and illness accumulate • Presents advanced techniques to release negative energy from the body and reestablish a healthy flow of vital energy to internal tissues and organs From the Taoist point of view, good health depends upon the free flow of chi--healthy life-force energy--throughout the body. Taoists refer to healthy chi as good wind. When energy is trapped in the body it stagnates and becomes negative, manifesting in the symptoms of physical or emotional illness. Taoists call this negative energy sick or evil wind. The advanced Chi Nei Tsang practices focus on mastering these winds. They include techniques for developing sensitivity to sick winds, releasing internal energy blockages, and chasing sick winds from the body to reestablish a healthy flow of energy. Negative energies caused by stress, tension, and the effects of past illnesses tend to accumulate in the naval center, so the advanced Chi Nei Tsang techniques use elbow pressure on specific reflex points around the navel to release energy blockages associated with each internal organ. They also work with wind access points found near the standard acupuncture points. These advanced practices build upon the organ detoxification and rejuvenation practices introduced in Chi Nei Tsang, allowing the practitioner to work intensively at an energetic level toward the restoration of optimum health and well-being.

A guide to strengthening and repairing the tendons to reverse the effects of aging • Shows how strengthening the tendons can lead to more energy, healthier organs, and prevention of arthritis • Explains how to practice the postures alone or with a partner • Includes the Mung Beans hitting practice, which repairs damaged tendons and joints; relieves constipation, stomach cramps, and headaches; and aids in detoxification Healthy tendons are the foundation of true strength in the body. Strong and supple tendons and open joints allow more space to store raw energy, which can then be transformed into higher creative and spiritual energy. The eight postures of Tendon Nei Kung are specifically designed to open the joints and fortify and grow all the tendons in the body, strengthening them as a unit. Like the practice of Iron Shirt Chi Kung, Tendon Nei Kung cultivates the ability to move the earth force up from the ground, through the feet, and into the body, in this case raising it to nourish the tendons. In Tendon Nei Kung, Mantak Chia explains how to perform the eight postures individually as well as with a partner. He reveals how regular practice of Tendon Nei Kung can help prevent and relieve arthritis by forcing poisoning acid out of the body to make room for healing chi energy. He provides ten supplementary exercises to help heal damaged tendons and joints without strenuous movement and also includes information on the Mung Beans hitting practice, an ancient practice that in addition to repairing damaged tendons and joints also aids in detoxification and relieves constipation, stomach cramps, and headaches.

Strengthen the qualities in your Taoist astrological chart with Inner Alchemy techniques and Universal Healing Tao exercises • Describes how to interpret your Taoist astrology birth chart and discover the unique combination of Five Elements underlying your personality, health, and destiny • Reveals how to strengthen your birth chi with Inner Alchemy techniques and Universal Healing Tao exercises • Explains how to calculate your wealth phase, organ health, and luck cycles Each of us is born with a unique combination of heavenly and earthly energies dictated by the stars overhead and the season on Earth at the moment you take your first breath. Known in Taoist astrology as the Four Pillars of Destiny, this "birth chi" can be calculated using the year, month, day, and time of your birth. Master Mantak Chia and astrologer Christine Harkness-Giles reveal how to interpret your birth chi and strengthen weaknesses within your astrological energies. They explain how each of us is ruled by one of the Five Elements--Wood, Fire, Earth, Metal, and Water--in a Yin or Yang state. For each Element and Yin or Yang combination, the authors describe personality traits, ideal career paths, and emotional and health issues. They reveal how to discover your levels of success, wealth, and power; how your astrological strengths will manifest; and how to understand your relationships with partners, friends, and family. They also explain how to use your chart to calculate your organ health and annual luck cycles. The authors show how to use Inner Alchemy techniques, such as color therapy and feng shui, and Universal Healing Tao exercises, such as the Healing Sounds and Chi Kung, to harmonize and strengthen the inborn imbalances and weaknesses in your chart. This hands-on method of astrology allows you to take control of your health and destiny by connecting your personal energy with the energies of the cosmos.

Taoist techniques for replenishing our internal energy with universal cosmic energy • Shows how to transform excess sexual energy (Ching Chi) into self-healing energy • Presents advanced Cosmic Healing Chi Kung practices, which

gather the limitless resources of Cosmic Chi for healing • Explains how opening of the three tan tiens to the six directions allows personal consciousness to connect directly to higher sources of energy Taoists consider our sexual energy to be the creative force that we can use to regenerate the body's internal energy, but we must learn how to harness excess sexual energy and transform it into chi, or life-force energy. When we circulate the sexual energy in the Microcosmic Orbit--a continuous energy loop that runs up the spine and down the front of the body--we transform it into self-healing energy that can be stored in the organs and the three tan tiens: energy centers in the brain, the heart center, and the lower abdomen. The Alchemy of Sexual Energy builds upon Microcosmic Orbit practices discussed in Healing Light of the Tao. The more we open the flow of our internal energy the more capable we are of connecting to the cosmic energy that exists outside ourselves in the universe. By learning to open the three tan tiens to the six directions, the Taoist practitioner combines mind power with extension of chi to draw cosmic energy into the body. This energy, too, can be stored in the three tan tiens and used as needed for healing. When we learn to flow in this way with the energy of the Tao, life ceases to be a struggle.

A new edition of the bestseller • The first book to reveal in the West the Taoist techniques that enable women to cultivate and enhance their sexual energy • Reveals Taoist secrets for shortening menstruation, reducing cramps, and compressing more chi into the ovaries for greater sexual power • Teaches the practice of total body orgasm For thousands of years the sexual principles and techniques presented here were taught by Taoist masters in secret only to a small number of people (sworn to silence), in the royal courts and esoteric circles of China. This is the first book to make this ancient knowledge available to the West. The foundation of healing love is the cultivation, transformation, and circulation of sexual energy, known as jing. Jing energy is creative, generative energy that is vital for the development of chi (vital life-force energy) and shen (spiritual energy), which enables higher practices of spiritual development. Jing is produced in the sexual organs, and it is energy women lose continually through menstruation and child bearing. Mantak Chia teaches powerful techniques developed by Taoist masters for the conservation of jing and how it is used to revitalize women's physical, mental, and spiritual well-being. Among the many benefits conferred by these practices are a reduction in the discomfort caused by menstruation and the ability to attain full-body orgasm.

"Maan has three mothers: the one who gave birth to her in wartime, the nun who plucks her from a vegetable garden, and her beloved Maman, who becomes a spy to survive. Les méthodes présentées ici sont basées sur les informations du précédent livre de Maître Chia : Chi Nei Tsang I : Massage Chi des Organes Internes ; les émotions et les vents accumulés dans la région abdominale et du nombril. Comment chasser ces " Vents " négatifs et les " balayer " pour rétablir une circulation saine de l'énergie vitale ? En comprenant l'origine des " Vents " et les problèmes qui en découlent dans le corps, la santé peut être recouvrée. Ce rétablissement de l'équilibre et de la circulation peut se faire en utilisant les techniques du Chi Nei Tsang II d'une manière appropriée pour chasser et libérer les Vents prisonniers. Chi Nei Tsang II est un art qui s'est développé durant une ère où il y avait très peu de physiciens et où l'auto-guérison était une manière de vivre. Le Chi Nei Tsang II guide plus profondément dans la cage thoracique, l'abdomen et le centre du nombril en enseignant la façon d'utiliser les techniques du coude et des articulations. Dans le centre abdominal ombilical, s'accumulent les émotions, le stress, les tensions, les maladies. Lorsque cela arrive, toutes les fonctions vitales stagnent. La pratique des techniques du Chi Nei Tsang II, à l'intérieur et autour de la zone ombilicale, est la méthode de guérison la plus rapide qui produit les résultats les plus durables. De nombreuses techniques associées à d'autres méthodes ne travaillent que sur les extrémités du corps, loin du nombril et des organes. Les techniques du Chi Nei Tsang II enseignées dans ce livre peuvent être appliquées sur le centre abdominal où sont associées et emmagasinées les forces universelles, cosmiques et terrestres.

Heute stirbt jeder vierte Erwachsene unnotiger Weise an einer der sieben lebensbedrohlichen Erkrankungen. Das mag daran liegen, dass zu wenig ganzheitlich orientiertes Wissen propagiert wird oder auch daran, dass für die Betroffenen einfach ihre Stunde geschlagen hat. Und falls es für sie an der Zeit ist, stellt sich die nächste Frage: Können sie dann mit Würde sterben? Sollte man es ihnen selbst überlassen, ob sie das uralte Verfahren der Selbsteuthanasie kennen und einsetzen wollen, von dem schon die Lamas in unterschiedlichsten Zeitaltern wussten? Was hat es mit dieser uralten Methode auf sich, und kann sie missbraucht werden? Wie sollen wir wissen, ob wir einfach mit unserem eigenen Tod konfrontiert sind oder nur mit einer vorübergehenden Herausforderung? Wie verhält es sich mit Spontanheilungen und Heilern wie dem brasilianischen Joao de Dios? Dans Chi Nei Tsang, Maître Mantak Chia et sa femme Maneewan continuent à transmettre au monde occidental l'ancienne sagesse, éprouvée par le temps, du système de soins taoïste. Chi Nei Tsang offre une approche nouvelle de la guérison, l'explication détaillée des techniques d'autoguérison et des méthodes pour éviter les énergies négatives. Le "Chi Nei Tsang" repose sur des milliers d'années d'expérience et enseigne comment prendre pleinement en charge santé et bien-être. C'est au centre du nombril qu'émotions négatives, angoisses, tensions et maladies s'accumulent. Lorsque cela se produit, toutes les fonctions vitales stagnent. La plupart des techniques propres aux autres systèmes n'agissent qu'aux extrémités du corps, à distance du nombril et des organes, alors que les techniques du "Chi Nei Tsang" enseignées dans ce livre, peuvent être appliquées au centre abdominal, là où se concentrent les forces de l'énergie universelle, de l'énergie cosmique et de l'énergie terrestre.

Harnessing these energies allows us to break through the cycles of attraction and addiction, promote longevity, and transform the physical and energy body into a "light body" in order to heal ourselves and others. Taoist Astral Healing teaches how to connect the body with the five elemental forces of nature, as well as the moon, sun, planets, stars, and galaxies. Noting the relationships between specific constellations and points on the body--such as the Big Dipper's correspondence to the bones of the skull--the authors offer planetary and stellar meditations that allow the inner and outer universes to become more connected. Following the numerous meditations and techniques provided throughout the book, readers develop a personal practice based on an understanding of their planetary strengths and weaknesses and their own spiritual growth.
