Here is a fact and picture-packed book dedicated solely to the Giulia GT in all its forms including the fabulous lightweight GTA racer. Now an updated, large format third edition which includes over 100 new images and which is limited to 1500 copies. Uncover the captivating history of the highest-performance cars in America, illustrated with beautiful photography. The American muscle car began not in the factories of the big three automakers, but in the garages and dealerships of a hot-rod subculture bent on making the hottest, highest-performance cars on the street. The Complete Book of American Muscle Supercars catalogs these amazing cars, along with the builders who unleashed them on the American scene. From Michigan's Royal Pontiac dealership and the souped-up Royal Pontiac Bobcats they built and sold, to the new cars from such fabled names as Carroll Shelby, Mr. Norm's Grand Spaulding Dodge, Nickey Chevrolet, Don Yenke, George Hurst, Baldwin-Motion, Calloway, SLP, and Steve Saleen. This gorgeously illustrated book chronicles the outstanding contribution of the tuner/builder to American automotive history through the amazing machines they created. From the oldest of these muscle tuners commanding top dollar at today's classic-car auctions, to the latest vehicles by Ford and Chrysler, with their SVT and SRT divisions, this book gives readers a full and fascinating look at American high-performance in its purest form.

The concise history of the Bugatti Type 57, 57S, 64 & 101. The magnificent Type 57 was the final flowering of the genius of Ettore and Jean Bugatti, and the last truly new model from Molsheim, France. Packed with over 300 images - mostly contemporary - this book is recognised as THE standard reference on the 57 and its close relatives.

This study chronicles the success of the Japanese car in America. Starting with Japan's first gasoline-powered car, the Takuri, it examines early Japanese inventors and automotive conditions in Japan; the arrival of Japanese cars in California in the late 1950s; consumer and media reactions to Japanese manufacturers; what obstacles they faced; initial sales; and how the cars gained popularity through shrewd marketing. Toyota, Honda, Datsun (Nissan), Mazda, Subaru, Isuzu, and Mitsubishi are profiled individually from their origins through the present. An examination follows of the forced cooperation between American and Japanese manufacturers, the present state of the industry in America, and the possible future of this union, most importantly in the race for a more environmentally-sound vehicle.
