Whether it's geared up for racing, tricked out as a pit bike, used to teach kids how to ride, or simply to take a spin, the small motorcycle takes as much care as its full-size counterpart. This book, by one of the world's foremost off-road motorcycle builders, tells you everything you need to know to keep your mini-motocross or playbike running smoothly, safely, and, of course, in style. This comprehensive handbook, the first of its kind, covers a variety of models--mini motocross racers from 50cc to 100cc, and small playbikes from 50cc to 250cc. A complete buying guide helps readers determine which of the small motorcycles best suit their needs. The book provides clearly detailed information on maintenance schedules, procedures, and the tools, materials, and space you'll need. Going that extra mile, Forward Motion's Eric Gorr offers model-specific suggestions for modifying the bikes to improve performance on and off the racetrack. He also includes sample builds of some of the most popular race and playbikes on the market.

A collection of student essays that captures the passionate engagement their generation brings to the Harry Potter phenomenon. A Wizard of Their Age began when the students in Cecilia Konchar Farr's "Six Degrees of Harry Potter" course at St. Catherine University kept finding errors in the available scholarship. These students had been reading Harry Potter for their entire literate lives, and they demanded more attention to the details they found significant. "We can do better than

this,” they said. Konchar Farr, two undergraduate teaching assistants, and five student editors decided to test that hypothesis. After issuing a call for contributions, they selected fifteen thoughtful academic essays by students from across the country. These essays examine the Harry Potter books from a variety of perspectives, including literary, historical, cultural, gender, mythological, psychological, theological, and genetic—there is even a nursing care plan for Tom Riddle. Interspersed among the essays are brief vignettes entitled “My Harry Potter Story,” where students write about their personal encounters with the novels. Although a quick Internet search yields a dazzling number of books about Harry Potter, few are as deeply invested or insightful as *A Wizard of Their Age*. Written and edited by—and for—members of the Harry Potter generation, these essays demonstrate this generation’s passionate engagement with the Harry Potter phenomenon and provide numerous critical insights into the individual novels and the series as a whole.

"In *Toponymy on the Periphery*, Julien Charles Cooper conducts a study of the rich geographies preserved in Egyptian texts relating to the desert regions east of Egypt. These regions, filled with mines, quarries, nomadic camps, and harbours are often considered as an unimportant hinterland of the Egyptian state, but this work reveals the wide explorations and awareness Egyptians had of the Red Sea and its adjacent deserts, from the Sinai in the north to Punt in the south. The book attempts to locate many of the placenames present in

In these days of an aging traditional audience, shrinking attendance, tightened budgets, increased competition, and exponential growth in new types of communication methods, America's house museums need to take bold steps and expand their overall purpose beyond those of the traditional museum. They need not only to engage the communities surrounding them, but also to collaborate with visitors on the type and quality of experience they provide. This book is a groundbreaking manifesto that calls for the establishment of a more inclusive, visitor-centered paradigm based on the shared experience of human habitation. It draws inspiration from film, theater, public art, and urban design to transform historic house museums while providing a how-to guide for making historic house museums sustainable, through five primary themes: communicating with the surrounding community, engaging the community, re-imagining the visitor experience, celebrating the detritus of human habitation, and acknowledging the illusion of the shelter's authenticity. Anarchist's Guide to Historic House Museums offers a wry,
