Ask Dr. Mueller captures the glamour and grittiness of Cookie Mueller's life and times. Here are previously unpublished stories - wacky as they are enlightening - along with favorites from *Walking Through Clear Water in a Pool Painted Black* and other publications. Also the best of Cookie's art columns from *Details* magazine, and the funniest of her advice columns from the *East Village Eye*, on everything from homeopathic medicine to how to cut your cocaine with a healthy substance. This collection is as much an autobiography as it is a map of downtown New York in the early '80s - that moment before *Bright Lights, Big City*, before the art world exploded, before New York changed into a yuppie metropolis, while it still had a glimmer of bohemian life.

The People's Covenant and God's Hammer have raged a Cold War that has lasted for over twenty years. A war without armies, where battles are fought in the dark and information is the most dangerous weapon. In this world—which sometimes seems the Middle Ages, sometimes the Renaissance and sometimes the Nineteenth Century—lives Yáxtor Brandan, empirical adept at the service of the Queen of Alboné. A relentless, amoral and unscrupulous character, Yáxtor fights to recover his own past as he tries to prevent a new player in the espionage game to end the world, as he knows it. A fascinating fast-moving and complex plot, full of tension and surprises and excellently paced; a main character for whom it should be impossible to feel the slightest sympathy, and yet somehow we do, even as his cruelty disturbs us more and more -an extremely difficult feat to pull off

so successfully; powerful secondary actors, who either leave you with a sense of uneasiness with regard to their motivations and loyalties, or make you want to shout out -as people did in the early days of cinema- "Look out, don't trust him!"; and a pervading atmosphere of tragedy, especially in a final unexpected and shocking, yet on reflection almost inevitable, scene. In short, a totally addictive and highly original novel set in a world that is at once both strangely familiar and disturbingly alien. —Steve Redwood, author of Fisher of Devils.
