The Westminster Confession of Faith is arguably one of the most precise and accurate summaries of the content of Biblical Christianity ever set forth in a creedal form. For centuries the church of Jesus Christ has found it necessary to confess her faith before the watching world. Confessions of our faith have come in the form of brief creedal statements and larger more comprehensive confessional documents. From the early days of the the Apostles' Creed, which includes the opening statement, "I believe," from the Latin credo, the church's commitment is shown to the command of our Lord not only to believe in our hearts, but also to profess with our lips what it is we believe. Although no confession written by uninspired authors is to be taken as having supreme authority over the beleiver, it is necessary in every generation for the church to be reminded of it's beliefs and to stand against constant attacks and distortions of her body of truth. While no document that is penned by fallible people cannot bind the conscience in the manner that the Word of God can and does, The Westminster Assembly's profound level of theological and biblical precision presented in this confession is awe inspiring. Thoughtfully designed, this version of the Westminster Confession of Faith along with it's shorter catechism is designed for to come to a deeper understanding of and greater love for the doctrines of grace and God's holy scriptures of which the confession points to. My Clara and Rehema, they were really like sisters. Why could it not have remained the same?

In recent years there has been much discussion of a crisis in theology and doctrine in The United Methodist Church - as there has in most major Christian churches. Questions about the particularity of Jesus Christ, about the authority of Christian scripture, about the reasons for evangelization and mission, about ecumenicity and the global church, about the meaning of discipline and holiness, and about the distinctive identity of Methodism are sources not only of debate but of serious divisiveness. The book brings together research and writings dealing with theology and doctrine in Methodism. It demonstrates the complexity of the issues and the diversity of sources and traditions that contribute to serious consideration of theology in the Wesleyan tradition.

Joyce Meyer is not satisfied with the status quo. She believes that we each need to become a revolutionary and practice love every day. And if Joyce has her way, the revolution will spread - person by person, house by house, town by town, until the old culture of selfishness and greed gives way to a new culture of concern for others. The book is a revolutionaries' manual, a

hands-on primer for bringing the Golden Rule to life in the twenty-first century. Meyer starts out by giving some stunning statistics. Right now...210,000 children will die this week because of poverty; 640 million children do not have adequate shelter; every day, 3,000 children are abducted into the sex-trafficking industry; every day, 16,000 children die from hunger-related causes. She goes on to say that although crisis is global, the solution is local. We can't solve the world's problems, but that isn't a reason to remain idle. LOVE REVOLUTION focuses on personal behavior on the local scale. It's not just a call to action; it is a call to being: being the person who goes out of your way to encourage someone who's out of hope; being the one who smiles at a stranger; being the one who is willing to do something for nothing. The paradox: when we do something for nothing, what we often get is something far greater.

This exhaustive theology of missions focuses on theory and biblical mandates for missions as a vital part of theology. George Peters, a foremost missions authority, considers both liberal and conservative views, although his own stance is solidly evangelical.

*In Defense of the Constitution* refutes modern critics of the Constitution who assail it as "reactionary" or "undemocratic." The author argues that modern disciples of Progressivism are determined to centralize political control in Washington, D.C., to achieve their goal of an egalitarian national society. Furthermore, he contends, Progressive interpreters of the Constitution subtly distort fundamental principles of the Constitution for the precise purpose of achieving their egalitarian goals. It is in their distrust of self-government and representative institutions that Progressivists advocate, albeit indirectly, an elitist regime based on the power of the Supreme Court—or judicial supremacy. Key elements and issues in this transformation of the original republic into an egalitarian mass society are thoroughly examined. George W. Carey is Professor of Government at Georgetown University and editor of *The Political Science Reviewer*.

A study of the difference between law in the life of an African people and in the local courtrooms.

How often have you encountered some bizarre doctrine only to be stunned to hear a Bible verse quoted to support it? With new religious cults springing up almost daily and old ones growing rapidly, this is more and more common. How are they seemingly able to twist Scripture to mean something orthodox Christians have never believed it to mean in two thousand years? James Sire, author of *The Universe Next Door* and *How to Read Slowly*, has isolated twenty separate kinds of reading errors which are characteristically made by cultists as they interpret the Bible. He covers the full range from simple misquotation to complex argumentation which links one slightly eccentric interpretation to another, mixes in a few orthodox readings and ends with a conclusion totally foreign to the biblical world view. Sire also handles twisted translation, overspecification, virtue by association, ignoring the context and other flawed interpretations. A book to help us all become better readers of the Scriptures. True religion confronts earth with heaven and brings eternity to bear upon time. The messenger of Christ, though he speaks from God, must also, as the Quakers used to say, "speak to the condition" of his hearers; otherwise he will speak a language known only to himself. His message must be not only timeless but timely. He must speak to his own generation. This book is packed with truth, giving the insight on how the Holy Spirit is the power behind the Church, the Christian life, and the sustainability needed to follow Jesus.

2013 Reprint of 1949 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Clark was a man who, without being himself a recognized "New Thought" leader, has been highly influential in introducing "New Thought" ideas and techniques into the churches. Clark was deeply religious and something of a mystic, a great believer in prayer. He first came into prominence through an article in the "Atlantic Monthly" titled "The Soul's Sincere Desire." He began to be much in demand as a speaker in the churches and in summer camps. In 1930 he organized a summer camp of his own in Koronis, Minnesota to which he gave the name "Camp Farthest Out." Here for a period, amidst pleasant surroundings, a group of congenial and serious-minded people met for a season of fellowship, relaxation, and spiritual renewal, under the direction of Dr. Clark and others of somewhat similar views. In 1942 he resigned from his position at the College to give all his time to helping others discover this integration of body, mind and spirit in God. Through a series of experiences told in his autobiography, "A Man's Reach," he had been brought to an unusual interest in prayer, and it became his major concern and emphasis. It set him to reading especially the works of the mystics and about them and their approach to God. Among the books he read was "Life Understood" by Frank Rawson, a onetime Christian Scientist who had been expelled from the church, and went on to become an influential leader of "New Thought" in England. The thing that attracted Clark to Rawson, he says, was that "he believed one's prayers could be just as scientifically infallible as the laws of physics and chemistry."

"Not only do I believe that it is possible to maintain moral standards without the crutch of religion but I would argue that it is the only way to achieve true goodness." Disproving Christianity and Other Secular Writings compiles popular and lesser-known arguments against the principles established by the Christian canon. Using a phenomenological approach to build his case based on in-depth study at the University of California, Santa Barbara McAfee analyzes the Hebrew Scriptures and New

Testament doctrine to build a logical and reasonable case against their validity. From contradictions between lived and portrayed religions to factual errors within the texts themselves, no stone is left unturned in this fully updated and expanded refutation of Christianity.
