Sikoryak, Bhub Stewart, and Jay Lynch, as well as a profile of Wesley Morse, the original illustrator of Bazooka Joe. John Wade grew up in the 1950s, a decade that has since been dubbed the 'golden age of science fiction'. It was a wonderful decade for science fiction, but not so great for young fans. With early television broadcasts being advertised for the first time as 'unsuitable for children' and the inescapable barrier of the 'X' certificate in the cinema barring anyone under the age of sixteen, the author had only the radio to fall back on – and that turned out to be more fertile for the budding SF fan than might otherwise have been thought. Which is probably why, as he grew older, rediscovering those old TV broadcasts and films that had been out of bounds when he was a kid took on a lure that soon became an obsession. For him, the super-accuracy and amazing technical quality of today's science fiction films pale into insignificance beside the radio, early TV and B-picture films about people who built rockets in their back gardens and flew them to lost planets, or tales of aliens who wanted to take over, if not our entire world, then at least our bodies. This book is a personal account of John Wade's fascination with the genre across all the entertainment media in which it appeared – the sort of stuff he revelled in as a young boy – and still enjoys today.

Mars Attacks Classics brings back your favorite comics from the past. This volume collects the first five-issue Mars Attacks mini-series from Topps Comics in 1994.

Maybe it's because I'm a worried, concerned adult, but more likely it's because nothing is ever as funny as it is when you're ten years old—and everything is a lot scarier." —CapitalNewYork.com "The book is a wonderfully designed tribute to these shit-disturbing cards in all their graphic, full-color glory." —ComicsBeat.com "There's a lot of interesting stuff in Spiegel man's intro, and in the afterward by John Pound, the artist who originated and drew the bulk of the Kids. But the real reason to buy this book is for the graphic brilliance of the art itself..." —Boston Phoenix
