Introduction to Computing Explorations in Language, Logic, and Machines

Introduction to Computing is a comprehensive text designed for the CS0 (Intro to CS) course at the college level. It may also be used as a primary text for the Advanced Placement Computer Science course at the high school level.

The National Action Plan - Environmental Education for a Sustainable Future was launched in July 2000. The Plan delivers a national environmental education strategy which provides for a higher profile for the environmental education. This book advises on how best to implement the Plan.
